

Al Jazeera America News

Mohamed Zayani

An Unlikely Audience William Youmans, 2017-05-17 In 2006, the Al Jazeera Media Network sought to penetrate the United States media sphere, the world's most influential national market for English language news. These unyielding ambitions surprised those who knew the network as the Arab media service President Bush lambasted as hateful propaganda in his 2004 State of the Union address. The world watched skeptically yet curiously as Al Jazeera labored to establish a presence in the famously insular American market. The network's decade-long struggle included both fleeting successes, like the sudden surge of popular interest during the Arab spring, as well as momentous failures. The April 2016 closure of its \$2 billion Al Jazeera America channel was just one of a series of setbacks. An Unlikely Audience investigates the inner workings of a complex news organization fighting to overcome deep obstacles, foster strategic alliances and build its identity in a country notoriously disinterested in international news. William Youmans argues counter-intuitively that making sense of Al Jazeera's tortured push into the United States as a national news market, actually requires a local lens. He reveals the network's appeal to American audiences by presenting its three independent US-facing subsidiaries in their primary locales of production: Al Jazeera English (AJE) in Washington, DC, Al Jazeera America (AJAM) in New York, and AJ+ in San Francisco. These cities are centers of vital industries-media-politics, commercial TV news and technology, respectively. As Youmans shows, the success of the outlets hinged on the locations in which they operated because Al Jazeera assimilated aspects of their core industries. An Unlikely Audience proves that place is critical to the formation and evolution of multi-national media

organizations, despite the rise of communication technologies that many believe make location less relevant. Mining data from over 50 interviews since 2010, internal documents, and original surveys, the book offers a brisk and authoritative account of the world's most recognizable media-brand and its decade-long ingress into the US - crucial background for Al Jazeera's continued expansion in the United States.

The Al Jazeera Effect Philip Seib, 2011-09 The battle for hearts and minds in the Middle East is being fought not on the streets of Baghdad, but on the newscasts and talk shows of Al Jazeera. The future of China is being shaped not by Communist Party bureaucrats, but by bloggers working quietly in cyber cafes. The next attacks by al Qaeda will emerge not from Osama bin Laden's cave, but from cells around the world connected by the Internet. In these and many other instances, traditional ways of reshaping global politics have been superseded by the influence of new media--satellite television, the Internet, and other high-tech tools. What is involved is more than a refinement of established practices. We are seeing a comprehensive reconnecting of the global village and a reshaping of how the world works. Al Jazeera is a paradigm of new media's influence. Ten years ago, there was much talk about the CNN effect, the theory that news coverage--especially gripping visual storytelling--was influencing foreign policy throughout the world. Today, the Al Jazeera effect takes that a significant step further. The concept encompasses the use of new media as tools in every aspect of global affairs, ranging from democratization to terrorism, and including the concept of virtual states. The media are no longer just the media. They have a larger popular base than ever before and, as a result, have unprecedented impact on international politics. The media

can be tools of conflict and instruments of peace; they can make traditional borders irrelevant and unify peoples scattered across the globe. This phenomenon, the Al Jazeera effect, is reshaping the world.

Al Jazeera English P. Seib, 2016-04-30 Although Al Jazeera English has yet to receive the attention accorded to its Arabic-language elder sibling, it is in many ways the more interesting of the two. It seeks to redefine global news coverage by focusing on areas that are traditionally neglected by most news organizations, and its potential audience is many times larger than that of the Arabic channel. This will be the first book to thoroughly examine this channel's coverage methods, effects on its audience, and its place in the world of mediated geopolitics. Al Jazeera recognized that if it was to expand its worldwide influence, it could not do so wholly in Arabic. And so, in 2006, it launched Al Jazeera English, the first English-language news channel to be headquartered in the Middle East. With its principal broadcast centers in Doha, Washington, London, and Kuala Lumpur, the channel faced the task of proving itself to be more than a curiosity and just a junior version of the all-news English-language channels such as the BBC or CNN. After several years of operation, Al Jazeera English seems well on its way to defining its place in the market. The breadth of its coverage, particularly its emphasis on reporting from the global South, has distinguished it from many of its competitors. Thorough coverage from the Middle East and from Africa provides a perspective that other major satellite channels have rarely offered their audiences. Initially, Al Jazeera English was available to 80 million cable and satellite households. It was, however, accessible by only a small number of viewers in the United States (mainly those accessing it through several online

providers) primarily because of political reasons. Whatever the political back-story may be, gaining access to a larger global market will depend on audience demand. If Al Jazeera English does a better job of covering major stories, particularly in the Middle East and the global South, than other channels do, and if its competitors find themselves saying, As Al Jazeera English reported today . . . , news consumers will eventually demand access. This book will examine these political issues and will also analyze the channel's audience base, particularly in Africa and South Asia. The book will also offer evaluations of Al Jazeera English's defining moments to date - its reporting during the 2008-2009 war in Gaza (written by Palestinian and Israeli scholars), and its coverage of the Ground Zero Mosque controversy in 2010. The volume will also consider Al Jazeera English in the context of public diplomacy and the growing significance of diasporic populations.

Mission Al-Jazeera Josh Rushing, 2007-06-12 Blending his riveting personal story with innovative ideas about how to win the war on terror, former marine turned Al Jazeera reporter Josh Rushing addresses all the issues he was not allowed to talk about when he was in uniform. If we are to win the war on terror, Rushing explains, we have to interact with the media at home and abroad in order to control the way we are perceived. By refusing to appear on Al Jazeera, Western leaders allow people who disagree with the current administration to represent the West to the Arab world in a skewed, negative way. By taking readers inside Al Jazeera, Rushing offers a unique behind-the-scenes look at the controversial news channel and shows how the West can harness it to its advantage, relay a positive message to the Arab public, and hear what it has to say in return.

Al-Jazeera Hugh Miles, 2005 Al Jazeera is one of the

most widely watched news channels in the world--and one of the most controversial. A noted journalist speculates on the potentially dramatic effects of the network's new station on the Western world while uncovering the true story behind one of the most influential media outlets.

Al Jazeera Phenomenon Mohamed Zayani, 2019-05-23
Few phenomena in the Arab world are more controversial than Al Jazeera - the satellite television news channel that, despite its brief history, has made its impact known throughout the world and changed the face of a formerly parochial Arab media. This timely collection of articles, many by Arabic-speaking scholars, gives us more information and analysis of the network - and how it has affected the public and even the foreign policies of Western governments - than any other of the very few books published in English up to now. The book provides rare insights into Al Jazeera's politics, its agenda, its programs, its coverage of regional crises, and its treatment of the West. The authors attempt to gauge the station's impact on ordinary Arab viewers, understand its effect on an increasingly visible Arab public sphere, and map out the role it plays in regional Arab politics. The image of Al Jazeera that emerges from this book is much more complex than its depiction in American media. It reveals the powerful role that the network plays in shaping ideas and reconstructing Arab identities during a crucial juncture in Middle Eastern history and politics.

Al-jazeera Mohammed El-nawawy, Adel Iskandar, 2008-08-01 Al-Jazeera, the independent, all-Arab television news network based in Qatar, emerged as ambassador to the Arab world in the events following September 11, 2001. Arabic for the island, Al-Jazeera has scooped the western media conglomerates many times. With its exclusive access to Osama Bin Laden and members

of the Taliban, its reputation was burnished quickly through its exposure on CNN. During the 2003 war in Iraq, Al-Jazeera seemed to be everywhere, reporting dramatic stories and images, even as it strived to maintain its independence as an international free press news network. Al-Jazeera sheds light on the background of the network: how it operates, the programs it broadcasts, its effects on Arab viewers, the reactions of the West and Arab states, the implications for the future of news broadcasting in the Middle East, and its struggle for a free press and public opinion in the Arab world.

Al Jazeera Hugh Miles, 2010-03-04 With more than fifty million viewers, Al Jazeera is one of the most widely watched news channels in the world. It's also one of the most controversial. Set up by the eccentric Emir of Qatar, who turned a failed BBC Arabic television project into an Arab news channel, Al Jazeera quickly became a household name after September 11th by delivering some of the biggest scoops in television history, including airing a taped speech from Osama bin Laden. Lambasted as a mouthpiece for Al Qaeda, little is actually known about Al Jazeera and its operations. Financed by one of the wealthiest countries in the world, Al Jazeera quickly established itself as the premiere news channel in the Islamic world by covering events Arabs cared about in a way they had never seen before. However, accusations of ties to Al Qaeda continue to plague it. Their journalists have been accused of spying for everyone from Mossad to Saddam Hussein, sometimes simultaneously. This the story behind the Arab news channel that makes the news.

Al-Jazeera and US War Coverage Tal Samuel-Azran, 2010 Ever since its launch over a decade ago, Al-Jazeera has influenced broadcast journalism globally and transformed the Arab television news sphere. Its coverage

of wars and conflicts in the region has earned the pan-Arabic news network many admirers and a few powerful adversaries, as Tal Samuel-Azran's book ably demonstrates. This is an empirically strong contribution to the literature on the politics of global news.---Daya Thussu, Professor of International Communication, University of Westminster, London --Book Jacket.

Floodlines Jordan Flaherty, 2010-09 Floodlines is a firsthand account of community, culture, and resistance in New Orleans. The book weaves together the stories of gay rappers, Mardi Gras Indians, Arab and Latino immigrants, public housing residents, and grassroots activists in the years before and after Katrina. From post-Katrina evacuee camps to torture testimony at Angola Prison to organizing with the family members of the Jena Six, Floodlines tells the stories behind the headlines from an unforgettable time and place in history.

Al Jazeera and the Global Media Landscape Tine Ustad Figenschou, 2013-10-15 This book analyzes how and why Al Jazeera English (AJE) became the channel of choice to understand the massive protests across the Arab world 2011. Aiming to explain the 'Al Jazeera moment,' it tracks the channel's bumpy road towards international recognition in a longitudinal, in-depth analysis of the channel's editorial profile and strategies. Studying AJE from its launch in mid-November 2006 to the 'Arab Spring', it explains and problematizes the channel's ambitious editorial agenda and strategies, examines the internal conflicts, practical challenges and minor breakthroughs in its formative years. The Al Jazeera-phenomenon has received massive attention, but it remains under-researched. The growth of transnational satellite television has transformed the global media landscape into a complex web of multi-vocal, multimedia and multi-directional flows.

Based on a combination of policy-, production- and content analysis of comprehensive empirical data the book offers an innovative perspective on the theorization of global news contra-flows. By problematizing the distinctive characteristics of AJE, it examines the strategic motivation behind the channel and the ways in which its production processes and news profile are meant to be different from its Anglo-American competitors. These questions underscore a central nexus of the book: the changing relationship between transnational satellite news and power.

Terms of Service Michael Keller, Josh Neufeld, 2014-10-30 Big Data powers the modern world. With tools like FitBit tracking our every step and supercomputers like IBM's Watson helping Memorial Sloan Kettering treat cancer patients, we literally live it. Data is part of our everyday lives through social media profiles, browsing histories and discount programs. Big companies are collecting and using this information, too, and it can both help and hurt. Maybe we start making better choices about the food we eat or the money we spend. Or maybe an insurance company decides to increase its rate or even terminate a policy because it projects we'll have diabetes in 18 months. We believe many folks want to learn more about these issues but are turned off by coverage that can be dense and jargon-laden. So we made a comic! What do we gain from Big Data? What do we lose? Co-produced by reporter Michael Keller and cartoonist Josh Neufeld, we hope this graphic novella will give you a good foundation to start asking your own questions. Media Power and Global Television News Saba Bebawi, 2016-01-05 The Middle East has been a particular focus of global crisis reporting. Yet, international coverage of these conflicts has historically been presented through a 'Western' perspective. The absence of Arab voices in the global public sphere has created a discursive gap between the Middle East and the rest of the world. The arrival of Al Jazeera English might, therefore, be regarded as an attempt to bridge this gap by broadcasting discourses from and about the Arab world. Using a framing analysis of selected news reports by Al Jazeera English before and after the so-called 'Arab Spring' protests, this book considers Al Jazeera English's position in the global news environment and identifies the extent to which it addresses this gap between the Arab and global spheres.

Changing Perceptions - How the U.S. view on Al Jazeera changed in time Adam Balogh, 2013-03-04 Seminar

paper from the year 2012 in the subject Communications - Media and Politics, Politic Communications, grade: A bzw. 1,3, Central European University Budapest (Department of Public Policy), course: Fundamentals of Media and Communications Policy, language: English, abstract: On 13 November 2001 a 230 kilograms heavy U.S. bomb hit the Kabul office of the TV channel Al Jazeera and destroyed the whole building (BBC 2001). Although the incident occurred during the U.S. invasion of Afghanistan, the station was located in a residential area and the Pentagon was informed about its location. International concerns rose up the next weeks and after BBC constantly brought new disclosures about the incident to light, the Pentagon relented and published an official statement in which it confirmed a deliberate destruction. In the eyes of the Pentagon and U.S. government the bombing was legitimate because in their estimation, Al Jazeera is as a part of the propaganda machine of the "enemy", cooperating with terrorists (Miles 2005, 165-167). About 10 years later things seem to have changed a lot. In March 2011, U.S. Secretary of State Hillary Clinton testified in front of the Senate Foreign Relations Committee that Al Jazeera provided more informative news coverage than the opinion-driven coverage of American mass media (The Huffington Post 2011). However, she is not the only one whose perception about the TV channel seems to have changed in the last years. "Defense Secretary Robert M. Gates, Army Gen. David H. Petraeus [...] and Adm. Michael G. Mullen, chairman of the Joint Chiefs of Staff, all have appeared on the network's Arabic and English channels in the last year." writes the Los Angeles Times at the end of 2011 and claims that "The Obama administration is courting the pan-Arab television network Al Jazeera in an attempt to improve a history of testy relations with one of

the most influential news outlets in the Middle East.” (Los Angeles Times 2011).

Instant Nationalism Khalil Rinnawi, 2006 *Instant Nationalism: McArabism, al-Jazeera, and Transnational Media in the Arab World* discusses the role of Arab transnational media, in particular the Qatar-based al-Jazeera, in the emergence of a new pan-Arabism. The book argues that through context and technology a new pan-Arab identity known as McArabism is being formed. McArabism, the author suggests, represents the convergence of local tribal identities with globalization and the forming, or reforming, of a new regional Arab identity. This book also explores the impact of this new identity on Arab society, the Arab-Israeli conflict, and new representations of the West and the Islamic and Arab World.

Checkpoint Zipolite Belén Fernández, 2021-06 When I first committed to three full months in El Salvador, the feeling that I was signing up for the equivalent of marriage and reproduction was assuaged only by the awareness that, come March 2020, I'd be dashing around Mexico before flying to Istanbul and resuming freneticism in that hemisphere. Little did I know that the scribbled itinerary would never come to fruition, and that I'd only get as far as the coastal village of Zipolite in the Mexican state of Oaxaca, where March 13-25 would turn into March 13 until further notice. Since leaving her American homeland in 2003 Belén Fernández had been an inveterate traveler. Ceaselessly wandering the world, the only constant in her itinerary was a conviction never to return to the country of her childhood. Then the COVID-19 lockdown happened and Fernandez found herself stranded in a small village on the Pacific coast of Mexico. This charming, wryly humorous account of nine months stuck in one place nevertheless

roams freely: over reflections on previous excursions to the wilder regions of North Africa, Asia and Eastern Europe; over her new-found friendship with Javier, the mezcal-drinking, chain-smoking near-septuagenarian she encounters in his plastic chair on Mexico's only clothing-optional beach; over her protracted struggle to obtain a life-saving supply of yerba mate; and over, literally, the rope of a COVID-19 checkpoint, set up directly outside her front door and manned by armed guards who require her to don a mask every time she returns home.
