*Kuwait and Al-Sabah* Rivka Azoulay,2020-07-23 The Emirate of Kuwait hardly resembles the city-State it was at the start of the 20th century. The discovery of oil in 1938 rapidly transformed the tiny tribal sheikhdom of the Al-Sabah into a modern oil-producing state where, by the early 1980s, citizens were enjoying one of the highest standards of living in the world. While much has been written on the reasons why and how the Al-Sabah became a ruling dynasty, little is known about the nature of their authority and its relationship to Kuwait's social structure. Rivka Azoulay shows how despite the rapidity of change in the oil-rich, family-run emirate, it is the pre-oil dynamics of social and political life that dictate how society operates. The author shows that Kuwait's ambitious diversification plans to reduce oil-dependence by 2035 require a renegotiation of the regime's pact with society, which threatens the pre-oil alliances upon which the Al-Sabah's regime has been built.

**The Formation of al-Andalus, Part 2** Julio Samsó,Maribel Fierro,2019-10-23 These two volumes present a conspectus of current research on the history and culture of early medieval Spain and Portugal, from the time of the Arab conquest in 711 up to the fall of the caliphate. They trace the impact of Islamisation on the pre-existing Roman and Visigothic political and social structures, the continuing interaction between Christian and Muslim, and describe the particular development and characteristics of Muslim Spain- al-Andalus. Together, they comprise 38 articles, of which 32 have been translated into English specially for this publication. The first volume focuses on political and social history, and looks in detail at settlement patterns and urbanisation; the second examines questions of language and covers the brilliant cultural and intellectual history of the period.

*Elections In The Middle East* Linda Layne,2021-11-28 The far-reaching impact of the latest parliamentary elections in the Middle East is examined in this volume. After an introduction that analyses the trends illustrated by the elections and their implications for regional stability, the book discusses recent elections in Turkey, Egypt, Israel, Jordan, and Kuwait. Individual chapters analyze the influence of pre-1980 patterns in the party system and voting on Turkey's 1983 election; the balloting in Egypt's 1984 election as a turning point toward democratization in contemporary Egyptian politics; the significance of Israel's 1984 election in view of the relatively small differences in objectives between Israel's right-wing Likud and the centrist Labor party; the role of traditional tribal influences and new political factions in Jordan's 1984 elections; and the influence of newly emerging social groups in Kuwait's 1985 election. The contributors discuss differences in party programs and platforms, the extent of control by elites, and the relevance of the elections to crucial economic and social problems and political stability

**New Military Strategies in the Gulf** Jean-Loup Samaan,2023-07-13 In the last decade, rulers in Gulf regimes have aspired to greater strategic autonomy and

distance from the West. Coined the Gulf moment by local commentators, this regional trend reflects a redistribution of power in the Arab world. This is the first book to examine the military dimensions of these shifts. Gulf military strategy has prioritised the improvement of local armed forces and the diversification of defence partnerships towards countries such as Russia, Turkey or China. However, this book shows how this has led to the militarisation of Gulf societies, the further erosion of multilateral initiatives - including the Gulf Cooperation Council - and the Gulf's perilous involvement in the war in Yemen. The book also highlights enduring reliance on the West. Each chapter covers a key aspect of defence policy from governance of armed forces, military education and power projection capabilities to regional security cooperation and lessons from warfighting experiences. Close attention is paid to Saudi Arabia, the United Arab Emirates and Qatar, countries that have enjoyed prominent roles in the region's security affairs during the last ten years. The research is based on extensive fieldwork and interviews with major decision-makers, officials, and diplomatic and military representatives. It is also uses recently declassified official documents to gain rare insight into what Gulf countries intend for their defence policies.

**The Ultimate Ambition in the Arts of Erudition** Shihab al-Din al-Nuwayri, 2016-08-30 For the first time in English, a catalog of the world through fourteenth-century Arab eyes—a kind of Schott's Miscellany for the Islamic Golden Age An astonishing record of the knowledge of a civilization, *The Ultimate Ambition in the Arts of Erudition* catalogs everything known to exist from the perspective of a fourteenth-century Egyptian scholar and litterateur. More than 9,000 pages and thirty volumes—here abridged to one volume, and translated into English for the first time—it contains entries on everything from medieval moon-worshipping cults, sexual aphrodisiacs, and the substance of clouds, to how to get the smell of alcohol off one's breath, the deliciousness of cheese made from buffalo milk, and the nesting habits of flamingos. Similar works by Western authors, including Pliny's *Natural History* and Diderot's *Encyclopédie*, have been available in English for centuries. This groundbreaking translation of a remarkable Arabic text—expertly abridged and annotated—offers a look at the world through the highly literary and impressively knowledgeable societies of the classical Islamic world. Meticulously arranged and delightfully eclectic, it is a compendium to be treasured—a true monument of erudition. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Bedouin Ethnobotany James P. Mandaville, 2019-04-16 A Bedouin asking a fellow tribesman about grazing conditions in other parts of the country says first simply, “Fih hayah?” or “Is there life?” A desert Arab's knowledge of the sparse vegetation is tied directly to his life and livelihood. *Bedouin Ethnobotany* offers the first detailed study of plant uses among the Najdi Arabic-speaking tribal peoples of eastern Saudi Arabia. It also makes a major contribution to the larger project of ethnobotany by describing aspects of a nomadic peoples' conceptual relationships with the plants of their homeland. The modern theoretical basis for studies of the folk classification and nomenclature of plants was developed from accounts of peoples who were small-scale agriculturists and, to a lesser extent, hunter-gatherers. This book fills a major gap by extending such study into the world of the nomadic pastoralist and exploring the extent to which these patterns are valid for another major subsistence type. James P. Mandaville, an Arabic speaker who lived in Saudi Arabia for many years, focuses first on the role of plants in Bedouin life, explaining their uses for livestock forage, firewood, medicinals, food, and dyestuffs, and examining other practical purposes. He then

explicates the conceptual and linguistic aspects of his subject, applying the theory developed by Brent Berlin and others to a previously unstudied population. Mandaville also looks at the long history of Bedouin plant nomenclature, finding that very little has changed among the names and classifications in nearly eleven centuries. An essential volume for anyone interested in the interaction between human culture and plant life, *Bedouin Ethnobotany* will stand as a definitive source for years to come.

*Arab Spring and Arab Women* Muhamad Olimat, 2013-11-26 This volume examines the role of Arab women in Arab Spring and their contribution to the ongoing process of change sweeping the region. The book begins with an examination of the process of democratization and its impediments in the Arab World since the Second World War. It then looks at the conditions that led to the upsurge of the so-called Arab Spring. Finally, it underscores women's role as participants, organizers, leaders, but also as victims. The main thesis of the book is that while Arab women were an integral part of the revolutionary efforts within the Arab Spring paradigm, they did not benefit from their sacrifices. Although they continue to be part of the process of change, their gains, rights and scope for participation are still limited. If the expansion of women's participation and the scope of their rights do not seem to be a priority for revolutionary forces, women have made remarkable achievements, especially in some Arab Spring countries such as Yemen and Libya. The book includes case studies of some Arab Spring countries and other countries influenced by developments: Egypt, Bahrain, Kuwait, Libya, Yemen, Algeria, Jordan, Morocco and Saudi Arabia. It calls on revolutionary and reformist forces to give special attention to issues related to Arab women, as they are an indispensable pillar in the process of reform, development, peace and stability in the Middle East.

The Resilience of Parliamentary Politics in Kuwait VISITING ASSISTANT PROFESSOR COURTNEY. FREER, Courtney Freer, 2024 The first English language political history of Kuwaiti parliament, this book provides an unprecedented holistic treatment of grassroots contemporary Kuwaiti politics in English in over two decades, incorporating the country's political dynamics into broader debates about the limits of authoritarianism and the practice of democracy in the Arab world, particularly in oil-wealthy states. Author Courtney Freer uses the lens of parliamentary elections as a means of understanding the political ideologies that have dominated in Kuwait since independence. As such, it situates the dynamics of Kuwaiti politics within broader political science debates about whether democratic institutions in hybrid regimes are meaningful arenas for popular contestation or only serve to enhance autocratic rule. Given the varying portrayals of Kuwait as robust authoritarianism, upgraded authoritarianism, or a noteworthy site of democratic participation, *The Resilience of Parliamentary Politics in Kuwait: Parliament, Rentierism, and Society* focuses on the ideologies that have mobilized political blocs, rather than solely focusing on the institutions of political power themselves. Freer includes extensive fieldwork and the use of Arabic and English primary sources to assess and examine the institutional setting that Kuwait presents and traces the dominant ideological strands in the country, considering the comparative mobilizational potential of ascriptive identities like tribe and sect.

The Origins of the Arab-Iranian Conflict Chelsi Mueller, 2020-08-13 The interwar period marked a transition from a Gulf society characterized by symbiosis and interdependency to a sub-region characterized by national divisions, sectarian suspicions, rivalries and political tension. In this study, Chelsi Mueller tells the story of a formative period in the Gulf, examining the triangular relationship between Iran, Britain and the Gulf Arab shaykhdoms. By doing so Mueller reveals how the revival of Iranian national ambitions in the Gulf had a significant effect on the dense web of Arab-Iranian relations during the interwar period.

Shedding new light on our current understanding of the present-day Arab-Iranian conflict, this study, which pays particular attention to Bahrain and the Trucial states (United Arab Emirates), fills a significant gap in the literature on the history of Arab-Iranian relations in the Gulf and Iran's Persian Gulf policy during the Reza Shah period.

The Muslim Brotherhood in Kuwait Ali A. Alkandari, 2023-08-30 The Muslim Brotherhood (MB) is the most influential, organized, social, and political movement in Kuwait. With the succession in Kuwait, the role of the organisation become more interesting for people interested in Kuwait and Gulf domestic politics as well as those interested in the MB and Political Islam. This book traces the emergence and development of MB while considering the political and social development of Kuwait that led to its appeal. It explains the evolution of MB's organisational structure and how it adapted itself during different periods in Kuwait's history through the Social Movement Theory. It describes MB policies and strategies during challenging times. It traces the circumstances surrounding the emergence of the MB and focuses on its development and its mobilisation strategy. It is certainly one of the first focused studies on MB from its conception in 1941 up to 1991.

Stories of Democracy Mary Ann Tétreault, 2000 A sophisticated investigation of the shifting tides of democratic governance in modern Kuwait from 1921 to the present based on interviews both with political activists and members of the political elite, *Stories of Democracy* sheds light on a wide array of issues concerning Middle Eastern politics and democratic institutions in general. Mary Ann Tétreault explores how various political factions have sought to advance their own notions of Kuwaiti history and politics through distinctive popular appeals: (1) pro-democracy forces focusing on Kuwait's relationship to the universal values of the democratic world around them, and (2) anti-democrats proffering Arab and Muslim religious and cultural traditions. She explores how such dramatic events as the suspension of the Kuwaiti constitution in 1986 and the invasion by Iraq in 1990 occasioned major shifts in the course of the democracy movement. The current running through virtually all of the nation's political drama is the monolithic Kuwait Petroleum Corporation (KPC), used by the government as an instrument of economic strength to safeguard sovereignty in the absence of military might.

*Oral Poetry and Narratives from Central Arabia, Volume 4 Saudi Tribal History* Kurpershoek, 2022-03-07 A Saudi Tribal History, the fourth volume of the author's series *Oral Poetry and Narratives from Central Arabia*, presents and analyses the oral traditions of the Dawāsir tribal confederation in the area of Wādi ad-Dawāsir, south of Riyadh. The introduction focusses on the tribe's self-image and its symbiosis of Bedouin and sedentary strains; its internal social relations and its place in the surrounding tribal world; the impact of the Wahhābi movement and the Saudi state's historical efforts to control the tribes; and the store of legends that continues to shape its collective consciousness. It is followed by the Arabic text of the poems and narratives in transcription, based on taped records, with the English translation on the facing page. This is complimented by an extensive glossary, cross-referenced to the Arabic text.

Oman - The Islamic Democratic Tradition Hussein Ghubash, 2014-02-04 Oman is the inheritor of a unique political tradition, the imama (imamate), and has a special place in the Arab Islamic world. From the eighth century and for more than a thousand years, the story of Oman was essentially a story of an original, minority, movement: the Ibadi. This long period was marked by the search for a just imama through the Ibadi model of the Islamic State. Hussein Ghubash's well-researched book takes the reader on an historical voyage through geography, politics, and culture of the region, from the sixteenth century to the present day. Oman has long-standing ties with East Africa as well as Europe; the first contact between Oman and European imperialist powers took place at the dawn of

the 1500s with the arrival of the Portuguese, eventually followed by the Dutch, French and British. Persuasive, thorough and drawing on Western as well as Islamic political theory, this book analyzes the different historical and geopolitical roles of this strategic country. Thanks to its millennial tradition, Oman enjoys a solid national culture and a stable socio-political situation. Today, it is moving steadily towards a democratic future.

Monsoon Revolution Abdel Razzaq Takriti, 2016-08-25 The Dhufar revolution in Oman (1965-1976) was the longest running major armed struggle in the history of the Arabian Peninsula, Britain's last classic colonial war in the region, and one of the highlights of the Cold War in the Middle East. Monsoon Revolution retrieves the political, social, and cultural history of that remarkable process. Relying upon a wide range of untapped Arab and British archival and oral sources, it revises the modern history of Oman by revealing the centrality of popular movements in shaping events and outcomes. The ties that bound transnational anti-colonial networks are explored, and Dhufar is revealed to be an ideal vantage point from which to demonstrate the centrality of South-South connections in modern Arab history.
