The Hispanic Republican Geraldo L. Cadava, 2020-05-26 Thoughtful, fair-minded, and learned, Cadava's eye-opening book will teach experts on American politics things they didn't even know they didn't know. – Rick Perlstein, bestselling author of *Nixonland* and *The Invisible Bridge* “Geraldo Cadava’s history...provides a unique vantage point on US politics; on the shifting terrains of foreign policy, labor, and religion; and on the changing nature of specific states, as well as on deeper ideological fights over the soul of the country: is it to be an inclusive nation of immigrants, or, as the nativists today say, a country founded on white supremacy? An excellent, insightful study.” – Greg Grandin, professor of history at Yale University and author of *The End of the Myth* “Geraldo Cadava offers a fascinating examination of the socioeconomic interests and foreign policy concerns that have drawn Hispanics/Latinos into a rapidly changing Republican Party. If readers harbor the mistaken idea that Hispanics are a monolithic voting bloc, this book should dispel this idea once and for all. Though the work is written for a general audience, even experts on Hispanic politics and voting behavior will find much that is new and surprising in these chapters.” – María Cristina García, author of *The Refugee Challenge in Post-Cold War America*

The West Fork Valley Denele Campbell, 2018-10-06 Rushing down the rocky slopes of the Boston Mountains, for millions of years the West Fork of White River has carved its sinuous path northward. Caves, hollers, steep bluffs, and rich bottom land follow in its wake. Native people made their homes here, hunting buffalo and deer. Within a few years after the Louisiana Purchase, white settlers arrived to set up homesteads. This book briefly describes how this valley formed over millions of years, how Native tribes lived and hunted, and what the first white men saw when they arrived. Short biographies of the earliest pioneers portray a fascinating assortment of men and women determined to carve out a livelihood from this rugged land. Subsequent chapters describe the mills, churches, and early roads as well as the neighbor-to-neighbor conflict of the Civil War. Stagecoaches hurtled down the valley roads, later supplanted by the iron horse in 1882 with the completion of the railroad tunnel at Winslow. A chapter on crime recounts the mayhem of shootouts, knife fights, and barn burning. Histories of Winslow, Brentwood, Woolsey, West Fork, and Greenland outline their origins and heydays.

Rex Perkins Denele Campbell, 2015-02-25 Rex Warren Perkins left his mark in the courtrooms of Arkansas and on the lives of all who knew him. Bold, articulate, and full of himself, he arrived at the University of Arkansas in 1928 with his fiddle, five dollars, and a blue serge suit. Within five years, he graduated law school, was elected to public office, and ran headlong into a federal grand jury. Embattled on all sides, he fought back, locking horns with the indomitable Roberta Fulbright, publisher of the city's newspaper and mother of future Arkansas senator J. William Fulbright. The biography of Rex Perkins tracks his family heritage from the seventeenth century, documents his rise to fame as the preeminent trial attorney of Northwest Arkansas, and recounts the most famous cases of his thirty-year career. The story also reveals the private life of a passionate man who loved nature, music, and his family. Most of all, he loved the practice of law. Fifty years after his death, his dynamic personality and his

exemplary skill as an attorney are fondly remembered.

Ibn Battuta Henrietta Toth,2017-07-15 In 1325, a young Muslim man named Ibn Battuta set out on a religious pilgrimage to Mecca. It would be nearly thirty years before he returned home. Ibn Battuta was a fourteenth-century pilgrim, traveler, scholar, and writer. He walked, sailed, and rode some seventy-five thousand miles across the medieval Muslim world, covering the equivalent of forty-four modern-day countries. This volume details the fascinating cultures Battuta experienced: the people he met, the foods he ate, the dangers he faced, plus his viewpoints on family, religion, and slavery. Learn how the legacy of this medieval traveler still resonates today.

Murder in the County Denele Campbell,2017-07-12 Contrary to popular notion, Arkansas was part of the Old West along with Texas and the rest of those more familiar dusty southwestern places. Its western border joined up with the Indian Nations where many a weary marshal rode out with his bedroll and pistol carrying writs from the U. S. District Court at Fort Smith in a search for a steady stream of men rustling livestock, stealing horses, selling whiskey, or running from the law. From its earliest days, Washington County, Arkansas, experienced some of the worst the Old West had to offer. At unexpected moments, county settlers faced their fellow man in acts of fatal violence. These murderous events not only ended hopeful lives but also forever changed those who survived them. Not to say that the murders in the county all stemmed from conflict along its western border-plenty of blood spilled within its communities and homesteads. The fifty chapters of this collection each focus on one violent incident. Through family histories, legal records, and newspaper accounts, the long-dead actors murmur from the shadows to tell their stories. In many cases, the specific circumstances of the killing remain mysterious, yet the surroundings of their times and place bring each story to life.

San Diego Noir Maryelizabeth Hart, 2011-05-17 Southern California is not all sun, sand, and surf in this gripping collection of noir tales from T. Jefferson Parker, Don Winslow, Maria Lima, and others. San Diego is home to miles of beaches, Balboa Park, a world-famous zoo, and some of the country's most expensive home and resort real estate. Yet the city also houses a few items that aren't actively promoted by the visitor's bureau: a number of the country's most corrupt politicians, border-related crimes, terrorists, and the occasional earthquakes. A noir feast! In the fifty-plus years since Raymond Chandler set Playback in Esmeralda, his name for La Jolla, the population has grown by more than a million, and crime has proliferated as well. San Diego of the past and the present offers the book's contributors a rich selection of settings, from the cross on Mount Soledad to the piers of Ocean Beach, and perpetrators and victims from the residents of its wealthiest enclaves to the inhabitants of its segregated barrios. San Diego Noir includes stories by T. Jefferson Parker, Jeffrey J. Mariotte, Martha C. Lawrence, Diane Clark & Astrid Bear, Debra Ginsberg, Morgan Hunt, Ken Kuhlken, Taffy Cannon, Don Winslow, Cameron Pierce Hughes, Lisa Brackmann, Gabriel R. Barillas, Gar Anthony Haywood, Luis Alberto Urrea, and Maria Lima. "When it's done right, noir is a darkly delicious thrill: smart, sharp-tongued, surprising. The knife goes in at the end with a twist. San Diego Noir, a new 15-story collection by some of the region's best writers, has all that going for it, and the steady supply of hometown references makes it even more fun." –The San Diego Union-Tribune

Representing Communities Ruth Sanz Sabido, 2017-10-12 This edited collection offers the latest research into the reproduction of 'hegemonic' discourse and the ways in which the description and evaluation of social groups affects their ability to exercise cultural and political autonomy. The book examines the representations of a number of communities and social groups, both within their 'micro-contexts', and with reference to the economic, political, social, cultural and technological 'macro-contexts' in which they are embedded. The analysis highlights the connections between discourse, power, dominance and social inequality, focusing on patriarchal, capitalist and postcolonial representations and power imbalances. Based on a combination of theoretical and empirical analyses, the collection offers an array of macro-social critiques based on the analysis and critical understanding of contemporary contexts and representations, and how they contribute to political, social, economic and cultural practices.

Office Hours with a Geometric Group Theorist Matt Clay, Dan Margalit, 2017-07-11 Geometric group theory is the

study of the interplay between groups and the spaces they act on, and has its roots in the works of Henri Poincaré, Felix Klein, J.H.C. Whitehead, and Max Dehn. *Office Hours with a Geometric Group Theorist* brings together leading experts who provide one-on-one instruction on key topics in this exciting and relatively new field of mathematics. It's like having office hours with your most trusted math professors. An essential primer for undergraduates making the leap to graduate work, the book begins with free groups—actions of free groups on trees, algorithmic questions about free groups, the ping-pong lemma, and automorphisms of free groups. It goes on to cover several large-scale geometric invariants of groups, including quasi-isometry groups, Dehn functions, Gromov hyperbolicity, and asymptotic dimension. It also delves into important examples of groups, such as Coxeter groups, Thompson's groups, right-angled Artin groups, lamplighter groups, mapping class groups, and braid groups. The tone is conversational throughout, and the instruction is driven by examples. Accessible to students who have taken a first course in abstract algebra, *Office Hours with a Geometric Group Theorist* also features numerous exercises and in-depth projects designed to engage readers and provide jumping-off points for research projects.

Small-Screen Souths Lisa Hinrichsen, Gina Caison, Stephanie Rountree, 2017-11-16 As the first collection dedicated to the relationship between television and the U.S. South, *Small-Screen Souths* addresses the growing interest in how mass culture represents the region and influences popular perceptions of it. In sixteen essays divided into three thematic sections, scholars of southern culture analyze representations of the South in a variety of television shows spanning the history of the medium, from classic network programs such as *The Andy Griffith Show* and *Designing Women* to some of today's popular franchises like *Duck Dynasty* and *The Walking Dead*. The first section, "Politics and Identity in the Televisual South," focuses on how television constructs understandings of race, gender, sexuality, and class, often adapting to changing configurations of community and identity. The next section, "Caricatures, Commodities, and Catharsis in the Rural South," examines the tension between depictions of southern rural communities and assumptions about abject whiteness, particularly conceptions of poverty and profitized culture. The concluding section, "(Dis)Locating the South," considers the influence of postcolonialism, globalization, and cosmopolitanism in understanding television featuring the region. Throughout, the essays investigate the profuse, often contradictory ways that the U.S. South has been represented on television, seeking to expand and pluralize myopic perspectives of the region. By analyzing depictions of the South from the classical network era to the contemporary post-broadcast age, *Small-Screen Souths* offers a broad historical scope and a multiplicity of theoretical and interdisciplinary perspectives on what it means to see the South from the television screen.

Bioarchaeology of Women and Children in Times of War Debra L. Martin, Caryn Tegtmeyer, 2017-02-06 This volume will examine the varied roles that women and children play in period of warfare, which in most cases deviate from their perceived role as noncombatants. Using social theory about the nature of sex, gender and age in thinking about vulnerabilities to different groups during warfare, this collection of studies focuses on the broader impacts of war both during warfare but also long after the conflict is over. The volume will show that during periods of

violence and warfare, many suffer beyond those individuals directly involved in battle. From pre-Hispanic Peru to Ming dynasty Mongolia to the Civil War-era United States to the present, warfare has been and is a public health disaster, particularly for women and children. Individuals and populations suffer from displacement, sometimes permanently, due to loss of food and resources and an increased risk of contracting communicable diseases, which results from the poor conditions and tight spaces present in most refugee camps, ancient and modern. Bioarchaeology can provide a more nuanced lens through which to examine the effects of warfare on life, morbidity, and mortality, bringing individuals not traditionally considered by studies of warfare and prolonged violence into focus. Inclusion of these groups in discussions of warfare can increase our understanding of not only the biological but also the social meaning and costs of warfare.

The Ottoman Wild West Nikolay Antov, 2017-12-28 An analysis of Balkan Islam and the formation of one of the largest Muslim communities in the early-modern Ottoman Balkans.

□□□□□□□□□□ Leopold Müller, 2019-06-30 Despite their significance, the writings on Japanese music by Prussian medical scientist and physician Leopold Müller, published in Yokohama in a series from 1874 to 1876, have been nearly forgotten and marginalized even in historical research on the courtly gagaku traditions they focus upon. This study with full translation into both English and Japanese illuminates and reassesses Müller's pioneering contribution. It situates the essay-series historically in the light of an important line of thought about the evolution of ancient gagaku that arose only in the mid-twentieth century, as well as more widely for nearer their actual publication in relation to the emerging scientifically based 19th-century European scholarly discourse of other musics. It reveals the author, founder of the Medical Academy in Tokyo and personal physician to the Meiji Emperor, as an important man of his day both in Japan and back at home. And it proposes that, with the recent rise of interest in the medical humanities and a musicological call for embracing the cognitive-scientific along with the historical and ethnographical, Müllers' first hand observations of a foreign music made from the practical body-orientated approach and ethnographic pen of a medical scientist ought also find new resonance nowadays.

Thresholds and Boundaries Lynn F. Jacobs, 2019-09-11 Although liminality has been studied by scholars of medieval and seventeenth-century art, the role of the threshold motif in Netherlandish art of the late fourteenth, fifteenth and early sixteenth centuries -- this late medieval/early 'early modern' period -- has been much less fully investigated. *Thresholds and Boundaries: Liminality in Netherlandish Art (1385-1550)* addresses this issue through a focus on key case studies (Sluter's portal of the Chartreuse de Champmol and the calendar pages of the Limbourg Brothers' *Très Riches Heures*), and on important formats (altarpieces and illuminated manuscripts). Lynn F. Jacobs examines how the visual thresholds established within Netherlandish paintings, sculptures, and manuscript illuminations become sites where artists could address relations between life and death, aristocrat and peasant, holy and profane, and man and God--and where artists could exploit the betwixt and between nature of the threshold to communicate, paradoxically, both connections and divisions between these different states and different worlds. Building on literary and anthropological interpretations of liminality, this book demonstrates

how the exploration of boundaries in Netherlandish art infused the works with greater meaning. The book's probing of the -- often ignored -- meanings of the threshold motif casts new light on key works of Netherlandish art.
