Cutting Costs and Generating Revenues in Education Tim L. Adsit,George Murdock,2011 At no time in the history of public education has there been such a dramatic discrepancy between accelerated standards and expectations and adequate funding for our schools. Much has been written about how to achieve new expectations in the realm of student achievement. Much has also been written about the need for accountability and the restructuring of how education dollars are spent. Unfortunately, most of the input regarding the need for 'belt-tightening' is unaccompanied by any tangible solutions or suggestions and results only in hollow rhetoric or convenient political sound bytes. Tim Adsit and George Murdock's journey into meaningful avenues for cost-savings in public education is clearly an exception. In this book, readers will find many practical ideas for saving money, which can be readily implemented.
