Alex Jones

Alex Jones David Rogers,2017-11-17 Alex Jones is an American radio show host and conspiracy theorist. He hosts The Alex Jones Show from Austin, Texas, which airs on the Genesis Communications Network and shortwave radio station WWCR across the United States and online. He is the founder of InfoWars. Jones has been the center of many controversies, including his promotion of Sandy Hook Elementary School shooting conspiracy theories, and his opposition to gun control. He has accused the U.S. government of being involved in the Oklahoma City bombing, the September 11 attacks, and the filming of fake Moon landings to hide NASA's secret technology. He has claimed that several governments and big business have colluded to create a New World Order through manufactured economic crises, sophisticated surveillance tech and-above all-inside-job terror attacks that fuel exploitable hysteria. Jones has described himself as a libertarian and paleoconservative, and has been described by others as conservative, right-wing, alt-right and far right. New York magazine described Jones as America's leading conspiracy theorist, and the Southern Poverty Law Center describes him as the most prolific conspiracy theorist in contemporary America. When asked about these labels, Jones said that he is proud to be listed as a thought criminal against Big Brother.

The Great Awakening Alex Jones,Kent Heckenlively,2023-10-24 In The Great Awakening: Defeating the Globalists and Launching the Next Great Renaissance, the most persecuted man on Earth, Alex Jones, gives you the good news about the failing plans of the globalists to control humanity. The expression “Get woke, go broke” has entered the common lexicon as we’ve seen company after company invoke the false gods of diversity, equity, and inclusion to their financial demise. But this surface discussion masks a much darker truth. What we are witnessing is nothing less than the failed plans of social Darwinists to capture free market capitalism and turn it toward their fascist aims of controlling and depopulating the globe. Working with New York Times bestselling author Kent Heckenlively, Jones masterfully gives you the deeper discussion about such hot button topics as the truth behind the globalists plans for artificial intelligence (AI), the central bank digital currency, social credit scores, Big Tech tyranny, censorship, fifteen-minute cities, the unholy alliance between big business and big government, the military-intelligence-industrial complex—which is hell-bent on eternal war—and the all-out assault on free speech and the Second Amendment. The good news is that these plans are destined to fail, if we wake up to the anti-human future the globalists have planned for us. The globalists hate freedom, and what they hate the most is the greatest freedom document in human history, the United States Constitution. Jones does not shy away from the darker parts of American history—the way we have been systematically deceived by the intelligence agencies since their assassination of President John F. Kennedy—but he provides example after example of people who have broken free from the matrix of lies to tell the truth. The people the globalists fear the most are the members of their own systems of control, who wake up and then decide to act against the machine. The globalists believe they’ve planned for every possible contingency, but they hadn’t counted on the conscience and love of truth, which lives in the souls of good people. St. Augustine once wrote: “The truth is like a lion; you don’t have to defend it. Let it loose; it will defend itself.” No figure in our modern times has roared louder against the enemies of freedom than Alex Jones. In the calm and dispassionate style that made his first book, The Great Reset: And the War for the World, such a smash hit, Alex lays out the flaws in the plans of the globalists and how they seek to create a world in direct opposition to God’s plans for our glorious human future. But God consistently works His will in our world, even through imperfect individuals like Donald Trump, Alex Jones, or you. If you want to read one book this year to understand your world and help lead humanity to the next great human renaissance, you need to order this book today.

The Great Reset Alex Jones,2022-08-30 In The Great Reset: And the War for the World, the most controversial man on earth Alex Jones gives you a full analysis of The Great Reset, the global elite's international conspiracy to enslave humanity and all life on the planet. If you really want to know what’s happening in the world, this is the one book you must read now. Alex Jones is the most censored man on the planet and you should ask yourself why that is. There is a powerful authoritarian takeover in process that is seeking to capture the entire human system and turn it into an artificial factory farm controlled system. We are in a war for the future of the world. In this book, you will hear from the world’s elites, from their own mouths, what they are planning for you and your families and you will learn what you can do to fight it. From central bankers, corporate billionaires, and corrupted government officials, global elites have been organizing a historic war on humanity under a trans-humanist, scientific dictatorship. Alex Jones was the first major figure to expose the World Economic Forum’s agenda. He has dedicated the last 30 years of his life to studying The Great Reset, conducting tens of thousands of interviews with top-level scientists, politicians, and military officials in order to reverse engineer their secrets and help awaken humanity. The Great Reset: And the War for the World chronicles the history of the global elites' rise to power and reveals how they’ve captured the governments of the world and financed The Great Reset to pave the way for The New World Order. Once dubbed a conspiracy theory, but now openly promoted by the most powerful corporations and governments, The Great Reset is a planned attempt to redistribute all the world’s wealth and power into the hands of banks, corporations, billionaires, and The World Economic Forum. If you read one book in a lifetime, this is it. In The Great Reset: And the War for the World, you will discover from the self-appointed controllers of the planet in their own words, their plan for what they call the final revolution, or The Great Reset. The only way this corporate fascist conspiracy can succeed is if the people of the world are not aware of it. And this book lays out their sinister blueprint and how to stop it. While many great books have been written to help awaken people to this sinister agenda, no author has ever spent as much time and research on The Great Reset as Alex Jones. The Great Reset: And the War for the World is the undisputed trailblazer for understanding what’s happening and how to stop it.

Alex Jones Alex Jones,2009-10 If you've never heard of Alex Jones, then you've been missing out on one of the most dynamic, hard-hitting talk radio hosts on the planet. Featured on Good Morning America, 20/20 Downtown, 60 Minutes, The Discovery Channel, A&E, Court TV, and more, Jones appears on multiple stations across the country and has been called an absolutely riveting television presence by Patrick Beech of the Austin-American Statesman. Mike Kelley, also of the Austin-American Statesman, said of Mr. Jones, On television, he exudes so much energy that a viewer might almost expect bits of flesh to start flying from the screen. For decades Americans have been aware that the government withholds pertinent information that affects their lives. While the rigors of the average workday leave Americans defenseless against government cover-ups, mass media red herrings, and corporate scandals, Alex Jones sorts through the corruption with eager devotion. He uncovers clear and decisive information that must be heard. Jones' voice spreads like wildfire, developing legions of loyal listeners and readers. Jones has been on the front lines of the growing global information war from ground zero to the occult playgrounds of the power-mad elite. He predicted the attacks on September 11, 2001, and is considered to be one of the founding fathers of the 9/11 Truth Movement. He has made an incredible seventeen documentary films covering a wide range of important social and geo-political issues. While millions of people listen to his radio broadcasts and watch his films, this is Alex Jones' first book.

Sandy Hook Elizabeth Williamson,2023-03-07 Carnegie Medal Nonfiction Longlist 2023 The Washington Post Best Non-Fiction Books of 2022 Publishers Weekly Best Books 2022 Kirkus Best Non-Fiction Books of 2022 Slate Best Books 2022 Chicago Tribune Best Books 2022 Los Angeles Times Best Books 2022 Based on hundreds of hours of research, interviews, and access to exclusive sources and materials, Sandy Hook is Elizabeth Williamson’s landmark investigation of the aftermath of a school shooting, the work of Sandy Hook parents who fought to defend themselves, and the

truth of their children's fate against the frenzied distortions of online deniers and conspiracy theorists. On December 14, 2012, a gunman killed twenty first-graders and six educators at Sandy Hook Elementary School in Newtown, Connecticut. Ten years later, Sandy Hook has become a foundational story of how false conspiracy narratives and malicious misinformation have gained traction in society. One of the nation's most devastating mass shootings, Sandy Hook was used to create destructive and painful myths. Driven by ideology or profit, or for no sound reason at all, some people insisted it never occurred, or was staged by the federal government as a pretext for seizing Americans' firearms. They tormented the victims' relatives online, accosted them on the street and at memorial events, accusing them of faking their loved ones' murders. Some family members have been stalked and forced into hiding. A gun was fired into the home of one parent. Present at the creation of this terrible crusade was Alex Jones's Infowars, a far-right outlet that aired noxious Sandy Hook theories to millions and raised money for the conspiracy theorists' quest to "prove" the shooting didn't happen. Enabled by Facebook, YouTube, and other social media companies' failure to curb harmful content, the conspiracists' questions grew into suspicion, suspicion grew into demands for more proof, and unanswered demands turned into rage. This pattern of denial and attack would come to characterize some Americans' response to almost every major event, from mass shootings to the coronavirus pandemic to the 2020 presidential election, in which President Trump's false claims of a rigged result prompted the January 6, 2021, assault on a bastion of democracy, the U.S. Capitol. The Sandy Hook families, led by the father of the youngest victim, refused to accept this. Sandy Hook is the story of their battle to preserve their loved ones' legacies even in the face of threats to their own lives. Through exhaustive reporting, narrative storytelling, and intimate portraits, Sandy Hook is the definitive book on one of the most shocking cultural ruptures of the internet era.

Talk Radio's America Brian Rosenwald, 2019-08-13 The march to the Trump presidency began in 1988, when Rush Limbaugh went national. Brian Rosenwald charts the transformation of AM radio entertainers into political kingmakers. By giving voice to the conservative base, they reshaped the Republican Party and fostered demand for a president who sounded as combative and hyperbolic as a talk show host.

Losing the News Alex Jones, 2009-09-02 In *Losing the News*, Pulitzer Prize-winning journalist Alex S. Jones offers a probing look at the epochal changes sweeping the media, changes which are eroding the core news that has been the essential food supply of our democracy. At a time of dazzling technological innovation, Jones says that what stands to be lost is the fact-based reporting that serves as a watchdog over government, holds the powerful accountable, and gives citizens what they need. In a tumultuous new media era, with cutthroat competition and panic over profits, the commitment of the traditional news media to serious news is fading. Indeed, as digital technology shatters the old economic model, the news media is making a painful passage that is taking a toll on journalistic values and standards. Journalistic objectivity and ethics are under assault, as is the bastion of the First Amendment. Jones characterizes himself not as a pessimist about news, but a realist. The breathtaking possibilities that the web offers are undeniable, but at what cost? Pundits and talk show hosts have persuaded Americans that the crisis in news is bias and partisanship. Not so, says Jones. The real crisis is the erosion of the iron core of news, something that hurts Republicans and Democrats alike. *Losing the News* depicts an unsettling situation in which the American birthright of fact-based, reported news is in danger. But it is also a call to arms to fight to keep the core of news intact. Praise for the hardcover: Thoughtful. --New York Times Book Review An impassioned call to action to preserve the best of traditional newspaper journalism. --The San Francisco Chronicle Must reading for all Americans who care about our country's present and future. Analysis, commentary, scholarship and excellent writing, with a strong, easy-to-follow narrative about why you should care, makes this a candidate for one of the best books of the year. --Dan Rather

Stuff They Don't Want You to Know Ben Bowlin, Matt Frederick, Noel Brown, 2022-10-11 "Interesting...Bowlin's calmly rational approach to the subject of conspiracy theories shows the importance of logic and evidence."—Booklist A page-turning book to give to someone who believes in pizza pedophilia or that the Illuminati rule the world.—Kirkus Reviews The co-hosts of the hit podcast *Stuff They Don't Want You to Know*, Ben Bowlin, Matthew Frederick, & Noel Brown, discern conspiracy fact from fiction in this sharp, humorous, compulsively readable, and gorgeously illustrated book. In times of chaos and uncertainty, when trust is low and economic disparity is high, when political institutions are crumbling and cultural animosities are building, conspiracy theories find fertile ground. Many are wild, most are untrue, a few are hard to ignore, but all of them share one vital trait: there's a seed of truth at their center. That seed carries the sordid, conspiracy-riddled history of our institutions and corporations woven into its DNA. Ben Bowlin, Matt Frederick, and Noel Brown host the popular iHeart Media podcast, *Stuff They Don't Want You To Know*. They are experts at exploring, explaining, and interrogating today's emergent conspiracies—from chem trails and biological testing to the secrets of lobbying and the indisputable evidence of UFOs. Written in a smart, witty, and conversational style, elevated with amazing illustrations, *Stuff They Don't Want You to Know* is a vital book in understanding the nature of conspiracy and using truth as a powerful weapon against ignorance, misinformation, and lies.

A Brief History of Vice Robert Evans, 2016-08-09 A celebration of the brave, drunken pioneers who built our civilization one seemingly bad decision at a time, *A Brief History of Vice* explores a side of the past that mainstream history books prefer to hide. History has never been more fun—or more intoxicating. Guns, germs, and steel might have transformed us from hunter-gatherers into modern man, but booze, sex, trash talk, and tripping built our civilization. Cracked editor Robert Evans brings his signature dogged research and lively insight to uncover the many and magnificent ways vice has influenced history, from the prostitute-turned-empress who scored a major victory for women's rights to the beer that helped create—and destroy—South America's first empire. And Evans goes deeper than simply writing about ancient debauchery; he recreates some of history's most enjoyable (and most painful) vices and includes guides so you can follow along at home. You'll learn how to: • Trip like a Greek philosopher. • Rave like your Stone Age ancestors. • Get drunk like a Sumerian. • Smoke a nose pipe like a pre-Columbian Native American. "Mixing science, humor, and grossly irresponsible self-experimentation, Evans paints a vivid picture of how bad habits built the world we know and love."—David Wong, author of *John Dies at the End*

Radio 2.0 Matthew Lasar, 2016-03-14 Welcome to the uncertain world of Radio 2.0—where podcasts, mobile streaming, and huge music databases are the new reality, as are tweeting deejays and Apple's Siri serving as music announcer—and understand the exciting status this medium has, and will continue to have, in our digitally inclined society. How did popular radio in past decades—from President Franklin D. Roosevelt's Fireside Chats in the 1930s through Top 40 music and Rush Limbaugh's talk radio empire—shape American society? How did devices and systems like the iPhone, Pandora, and YouTube turn the radio industry upside-down? Does radio still have a future, and if so, what will we want it to look like? *Radio 2.0: Uploading the First Broadcast Medium* covers the history and evolution of Internet radio, explaining what came before, where Internet radio came from, and where it is likely headed. It also gives readers a frame of reference by describing radio from its introduction to American audiences in the 1920s—a medium that brought people together through a common experience of the same broadcast—and shows how technologies like digital music and streaming music services put into question the very definition of radio. By examining new radio and media technologies, the book explores an important societal trend: the shift of media toward individualized or personalized forms of consumption.

Something Stinks Greg Fernandez Jr., 2010-09-23 Something is rotten in America. Can you smell it? You cough and you choke, begging for a breath of fresh air. But the foul stench oozes out of every sewer system, reaching every city, every town, and every village worldwide. This book explores only a piece of history in time and the rotten news that you might not have heard about. Or perhaps you have forgotten about? Perhaps this book will give you some gas in your drive for finding truth. The rotten news you will read about is meant to fuel America into waking up and realizing that we have to get involved in the direction of our country. If we want real change, we have to be it.

Birchers Matthew Dallek, 2023-03-21 How a notorious far right organization set the Republican Party on a long march toward extremism At the

height of the John Birch Society’s activity in the 1960s, critics dismissed its members as a paranoid fringe. After all, “Birchers” believed that a vast communist conspiracy existed in America and posed an existential threat to Christianity, capitalism, and freedom. But as historian Matthew Dallek reveals, the Birch Society’s extremism remade American conservatism. Most Birchers were white professionals who were radicalized as growing calls for racial and gender equality appeared to upend American life. Conservative leaders recognized that these affluent voters were needed to win elections, and for decades the GOP courted Birchers and their extremist successors. The far right steadily gained power, finally toppling the Republican establishment and electing Donald Trump. Birchers is a deeply researched and indispensable new account of the rise of extremism in the United States.

Alex Jones Defamation Trial Harry Lee,2022-08-04 Born on February 11, 1974, Alexander Emerick Jones is a well-known American conservative, alt-right, and far-right radio program presenter. He is the host of The Alex Jones Show, which is broadcast by the Genesis Communications Network throughout the country and online, from Austin, Texas. Jones disseminated debunked rumors that the 2012 massacre at Sandy Hook Elementary School was a false flag operation by pro-gun control activists. He said that Sandy Hook was a gigantic scam that no one perished and that the tragedy was planned, synthetic, made, and totally phony with actors. On June 26, 2018, a defamation lawsuit was filed in Connecticut Superior Court against Jones, Infowars, Free Speech Systems, Infowars Health, and others for spreading false claims that led to the harassment, stalking, and threatening of survivors by six families of the victims and an FBI agent who responded to the attack. Behold a Pale Horse William Cooper,2012-04-11 Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to talk due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been talking, he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. Bill Cooper is the world's leading expert on UFOs. -- Billy Goodman, KVEG, Las Vegas. The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long. -- Anthony Hilder, Radio Free America William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world. -- Mills Crenshaw, KTALK, Salt Lake City. Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands. -- William Cooper, October 24, 1989.

Trumping the Media Michael Mario Albrecht,2022-08-11 The ascendancy of Donald J. Trump to the office of president was not a fluke. Changes in the media environment and changes in the political landscape converged and provided fertile ground for a demagogic populist to exploit existing structures for his personal and political gains. A right-wing ecosystem had developed that included cable television, talk radio, social media, and imageboards. The political rise of Trump occurred alongside a mainstreaming of far-right politics and a skepticism towards long-established institutions. Trump was able to exploit the shifts in politics and the media environment for his political gain. He deployed a post-truth strategy that challenged established media and political institutions and their claims to be arbiters of truth and protectors of democracy. This book explores the shifts in the media environment that made the political career of Donald Trump possible. The author shows the ways that Trump was able to inhabit the new media and political landscape and take advantage of journalistic norms and practices that were susceptible to exploitation by a demagogue with no allegiance to the truth and no reverence towards the foundations of liberal democracy. Understanding the ways in which Trump was able to emerge as a powerful political force is essential to those invested in challenging the momentum of the alt-right and forwarding the project of democracy.
