Design and Technology in the Primary School Hind Makiya, Margaret Rogers, 2006-04-10 The inclusion of technology among the National Curriculum foundation subjects is an exciting , but at the same time somewhat daunting challenge for primary teachers. This series of case studies shows how real teachers across the primary age range have put design and technology into practice as a focus for their topic work. Through these examples Margaret Rogers and Hind Makiya show what is meant by design and technology in the primary school and how problem solving activities can be used to fulfil the requirements of the National Curriculum across several subjects. Useful appendices summarize the technology requirements of the National Curriculum and give extra guidance in common areas of difficulty such as the introduction of electricity and the use of electricity and the use of technical toys.

Gate of Hope and Beyond Theresa Ng, 2024-02-08 The writer, also known as Sumaiya, was one of the abandoned babies dedicatedly cared for by nuns at the CHIJ orphanage on Victoria Street until her early teens. She developed a passion for reading and never thought she would have the opportunity to visit London or other parts of the world. However, as she grew older, she was determined to make her dream a reality. With borrowed money, she managed to travel to London, where she landed a job as a resident housekeeper for an aristocratic couple and stayed with them for three years. From here, her unexpected adventures begin.

Teacher Preparation in Ireland Thomas O'Donoghue, Judith Harford, Teresa O'Doherty, 2017-06-29 This study of teacher preparation policy and practice in Ireland from Independence in 1921 to the present, highlights, within an international context, the extent to which the focus of preparation moved from nation-building until 1967, when free second-level education was introduced, to one concerned with improving the country's human capital.

The Overachievers Alexandra Robbins, 2006-08-08 The bestselling author of *Pledged* returns with a groundbreaking look at the pressure to achieve faced by America's teens In *Pledged*, Alexandra Robbins followed four college girls to produce a riveting narrative that read like fiction. Now, in *The Overachievers*, Robbins uses the same captivating style to explore how our high-stakes educational culture has spiraled out of control. During the year of her ten-year reunion, Robbins goes back to her high school, where she follows heart-tuggingly likeable students including AP Frank, who grapples with horrifying parental pressure to succeed; Audrey, whose panicked perfectionism overshadows her life; Sam, who worries his years of overachieving will be wasted if he doesn't attend a name-brand college; Taylor, whose ambition threatens her popular girl status; and The Stealth Overachiever, a mystery junior who flies under the radar. Robbins tackles teen issues such as intense stress, the student and teacher cheating epidemic, sports rage, parental guilt, the black market for study drugs, and a college admissions process so cutthroat that students are driven to suicide and depression because of a B. With a compelling mix of fast-paced narrative and fascinating investigative journalism, *The Overachievers* aims both to calm the admissions frenzy and to expose its escalating dangers.

Britain's Olympic Women Jean Williams, 2020-07-26 Britain has a long and distinguished history as an Olympic nation. However, most Olympic histories have focused on men's sport. This is the first book to tell the story of Britain's Olympic women, how they changed Olympic spectacle and how, in turn, they have reinterpreted the Games. Exploring the key themes of gender and nationalism, and presenting a wealth of new empirical, archival evidence, the book explores the sporting culture produced by British women who aspired to become Olympians, from the early years of the modern Olympic movement. It shines new light on the frameworks imposed on female athletes, individually and as a group, by the International Olympic Committee (IOC), the British Olympic Association (BOA) and the various affiliated sporting international federations. Using oral history and family history sources, the book tells of the social processes through which British Olympic women have become both heroes and anti-heroes in the public consciousness. Exploring the hidden narratives around women such as Charlotte Cooper, Lottie Dod, Audrey Brown and Pat Smythe, and bringing the story into the modern era of London 2012, Dina Asher-Smith and Katarina Johnson-Thompson, the book helps us to better understand the complicated relationship between sport, gender, media and wider society. This is fascinating reading for anybody with an interest in sport history, Olympic history, women's history, British history or gender studies.

A Contemporary History of Women's Sport, Part One Jean Williams, 2014-04-24 This book is an historical survey of women's sport from 1850-1960. It looks at some of the more recent methodological approaches to writing sports history and raises questions about how the history of women's sport has so far been shaped by academic writers. Questions explored in this text include: What are the fresh perspectives and newly available sources for the historian of women's sport? How do these take forward established debates on women's place in sporting culture and what novel approaches do they suggest? How can our appreciation of fashion, travel, food and medical history be advanced by looking at women's involvement in sport? How can we use some of the current ideas and methodologies in the recent literature on the history and sociology of sport in order to look afresh at women's participation? Jean Williams's original research on these topics and more will be a useful resource for scholars in the fields of sports, women's studies, history and sociology.

Stillpoints for Children Elaine Moreton,2017-07-05 Research shows that the stress points in children's daily lives are on the increase and can have a negative impact on their ability to learn, relate to others and to themselves. This practical resource: explains and demystifies relaxation, meditation and visualisation; provides an educational rationale backed up by case study material that shows the benefits of helping children to develop 'stillpoints' in order to neutralise stress, develop a stronger sense of 'self' and create 'optimum' learning states; includes a very practical and unique resource for use in the classroom or home. Based on sound educational, yogic and psychological philosophies, each of the 7 tracks has a specific theme and is only 5 minutes long: Track 1: Relaxation - 5/6 minutes (sitting in a chair); Track 2: Heart Meditation - 5/6 minutes (sitting in a chair); Track 3: Finding Peacefulness - 5/6 minutes (sitting in a chair); Track 4: Pack Up Your Troubles - 5/6 minutes (sitting in a chair); Track 5: Finding Silence - 5/6 minutes (sitting in a chair); Track 6: The Learning Tree - 5/6 minutes (sitting cross-legged); Track 7: The Learning Tree 2 - 5/6 minutes (lying down). The handbook provides the rationale for the 'why' and the downloadable resources provide the guidance and practical application on the 'how'.
