The Alexia Lindale Collection Robert Whitlow, 2019-06-25 From the Christy-award-winning author of *The List*, *The Trial*, and *The Sacrifice* comes two twisting tales of tough decisions, mixed motives, and mysterious, healing grace. Life Support Alexia Lindale knows her new case is a matter of life and death. She doesn't have a clue what it will do to her heart . . . and soul. Baxter Richardson survived a fall from a cliff while hiding in the mountains. Whether he'll make it through the next few weeks is unclear. His survival depends on the machines that help him breathe. On the haunted, unstable wife who wants to pull the plug and hide her secrets. On the doting father who wants him alive for reasons of love and money. On the conflicting legal documents that send the fight to court. And, on the music and prayers of an extraordinarily gifted pianist. Life Everlasting With her client's husband somewhere between this world and the next, attorney Alexia Lindale makes an everlasting choice. The youngest son of a family consumed by greed, Baxter Richardson lingers on this earth in a coma. His wife wants him dead to protect her secrets. His brother wants him dead to gain control of the family empire. And though Baxter's father fights to keep him alive, even he has ulterior motives. But Baxter has a surprising ally. A classically trained pianist, Ted Morgan believes music can be used as prayer. And Ted's divinely-inspired playing has been slowly pulling Baxter back from the brink of death. Attorney Alexia Lindale represents Baxter's wife, Rena, but has no idea that she and her client are being played in a game that has higher stakes than a single legal case. The stronger Baxter grows, the more endangered he becomes. As Alexia navigates her responsibilities to her client, her relationship with the gifted musician, and her new relationship with God, she must discern the truth as it pertains to life, death, and life everlasting.

Many Mansions Alexis Soleil, 2023-10-27 A successful real estate tycoon reunites with his long-lost brother who's homeless and lives under the New York subway system. Moses and his fraternal twin brother, Isaac, dreamt of entering real estate as kids. They loved watching beautiful homes on TV, social media, in magazines, and real-time. During their childhood, Moses and Isaac were close because Isaac was albino, and he always came to his brother's defense from the evil in the world. The twins became teenagers, and their brotherly bond broke due to Moses getting popularity, good grades, parental favoritism, and the girls. After graduation, Isaac ran away from home and never returned. At the same time, Moses moved on with life. He got his college education, and real estate license and built his business. He enjoyed the good life while his brother, Isaac lived in the murky, filthy sewage of the subway tunnels. One day, Moses and his soon-to-be wife, Shawnette were shopping at the supermarket when a destitute gentleman a few customers ahead of them couldn't afford to pay for his food. Moses offered to pay for the items, recognizing his brother Isaac. The brother's reunion wasn't easy because there was still lots of jealousy, envy, and betrayal. But, Moses and Isaac did realize that the stepfather was the root of their broken relationship. After getting rid of this monster from their lives, they focused on their passion. The twins sold luxurious homes and also created homes for the homeless population.

Real Estate and Global Urban History Alexia Yates, 2021-08-26 Capitalist private property in land and buildings – real estate – is the ground of modern cities, materially, politically, and economically. It is foundational

to their development and core to much theoretical work on the urban environment. It is also a central, pressing matter of political contestation in contemporary cities. Yet it remains largely without a history. This Element examines the modern city as a propertied space, defining real estate as a technology of (dis)possession and using it to move across scales of analysis, from the local spatiality of particular built spaces to the networks of legal, political, and economic imperatives that constitute property and operate at national and international levels. This combination of territorial embeddedness with more wide-ranging institutional relationships charts a route to an urban history that allows the city to speak as a global agent and artefact without dispensing with the role of states and local circumstance.

Lightning Storm Rhea Calica & Adrianna Clarkson, 2014-10-22 Rivera and Alexia Connely are two sisters used to figuring out things on their own. It has been three months since they saw their mother, Elizabeth, leader of their coven of witches. Tasked with protecting the Shadow Coven in their mother's absence, the sisters must rely on their Haxa magic to help prevent a takeover and a war. Alexia is the healer; Rivera is the destroyer. But everything changes when their mother suddenly returns with a war between the Haxa and the humans following closely at her heels—a war with the potential to cause catastrophic events. Rivera, who is furious at her mother's plot, resolves to do the right thing. Alexia, less certain of the right thing, is content to follow a more confident Rivera, even if only for a little while. As Rivera and Alexia rely on their dark and healing magic to lead a group of Haxa into battle to save the humans—with help from Rivera's best friend and an unlikely human partner—the sisters face betrayal from every direction. Now only one question remains: will they survive? In this young adult fantasy, two teenage Haxa sisters destined to fight in a war between morals and species are about to learn that the battle is only the beginning of a life ruled by choices.

Indebted Braxton DeGarmo, 2013-01-05 *Indebted* is a story of redemption that begins in the backwoods of western North Carolina in the late 1960's. Alice Cummings longs to leave her home and have a real family of her own, a desire that contributes to an out-of-wedlock pregnancy. But when she returns home with her baby, her father makes good on an earlier threat and sells the infant boy. Driven to find her son, she sets out to leave, find the baby, and start a new life together. Her plans go awry from the start when she witnesses a murder outside her home, and injures herself as she attempts to retrieve her suitcase from the shed. She escapes with the help of a neighbor, and circumstances force her to move on, unaware that his kindness will bring retribution by her father and the murderer. Myra Mitchell is the mega-bestselling author known as the Diva of Disaster. Yet, calamity is about to befall her this time, as her hard-partying lifestyle catches up with her. After passing out, she wakes up in the hospital ICU to learn she has little time left, unless she gets a liver transplant. *The Catch-22*: she must remain alcohol-free for six months to qualify, but she might not live that long. It's a race against time to write her last book. With an assistant imposed upon her by her agent, she sets her sights on the story of her favorite cartoonist, Betsy Weston. Betsy appeared out of nowhere in Asheville, North Carolina in 1969, arose to develop the wildly popular cartoon strip -- *Sweetie ... and George*, made millions, and at the summit of her success, disappeared from the face of the earth. Myra puts everything on the line to uncover the rest of that story. Family. Belonging. Relationships. We all long for these things. Yet, what if you were the daughter and sole child of an alcoholic father. Worse, make him a moonshiner in rural western North Carolina, a man whose associates have no qualms with hurting people who get in their way. It's 1969 and 18-year old Alice Cummings wants what she hasn't had since her mother died, a real family. As her boyfriend ships out to Viet Nam, she succumbs to her desire, only to discover just before his death in SE Asia that she's pregnant. Her father sends her away to a distant cousin to complete her pregnancy and threatens to sell the child if she returns home with him, but she has nowhere else to go. Within a week after her return, he makes good his threat. The story begins as she wakes up to find her son missing. Alice's first reaction is to recruit the help of the local sheriff, but she finds that her father has staged his misdeed well, having cast her as delusional and distraught to the townspeople. When the sheriff takes her father's side, where can she run? And when she witnesses a murder outside her own home, she has no choice but to run. She finds herself on the last bus out of town, heading for the big city of Asheville, NC. The bus driver seems helpful and takes her to an affordable motel near his bus yard. When she discovers it's a brothel and there's a hasp on the outside of her room's door, has she been sold out? The story of Alice takes its twists and turns, and tragedy leads to an unexpected turn in her life. Fast forward to present day where mega bestselling author Myra Mitchell finds herself in a drama only she could conceive. At the premiere of a movie based upon one of her books, she encounters a young fan who gets her attention by triggering a deep set paranoia. I know your secret. After a night of binge drinking, she meets her

agent at breakfast only to pass out and find herself in the ICU of Ronald Reagan Medical Center. The news isn't good. She might have but months to live, yet she's determined to write one last story. That story? The mystery of Betsy Weston begs to be told and Myra wants to unlock those secrets and tell the story of her favorite cartoonist. Indebted tells how these stories intertwine. It's a story of loss and hope, and of injustice and redemption.

House Alexis V,2021-06-09 At the start of this nightmare, she was unable to see how to get out of what she thought was clearly a very sinister dream. She was holding her frozen brain within her head; it offered no course of action

for her shaky limbs to take. She was wide awake and walking so this eerie place was indeed not any dream. This was supposed to have been a mere simple viewing of an empty property. But laying bare before her eyes from surreal shows, she was made to think that, 'if our choices in life make us who we are, then who are we?' If you dare read this dark undefinable tale of chilling life echoes which rebound from the wounded place where they were born.

The American Legal System Albert P. Melone, Allan Karnes, 2008 Firmly anchored in social science concepts, the second edition of *The American Legal System* demonstrates the relationships among private law, the business legal environment, and public law issues, as well as related subjects of interest. This fifteen-chapter book is divided into three parts. Part I places the legal system in a political perspective centering on the origins of the law, schools of jurisprudence, branches and functions of law, legitimacy of law, how the judiciary functions in the federal system of government, and judicial interpretation and decision making. Part II contrasts legal processes: civil suits for money damages, criminal processes, equity justice, administrative processes, and alternative dispute resolution. Part III centers on the legal norms or rules governing both civil and criminal conduct, property law, family law, contract law, and government regulation of business. Throughout, the text features edited court opinions-many new to this edition-illustrating lively and thought-provoking controversies that are certain to spark student interest. Among the many compelling issues addressed are the legal and constitutional controversies surrounding the Bush Administration's War on Terror, and the socially explosive developments concerning same-sex marriage. In addition, each chapter includes at least three comparative notes showing how other legal cultures in different nation-states treat legal matters. A wealth of pedagogical features-chapter-opening objectives; key terms, names, and concepts; a glossary, discussion questions, and appendices-are included to aid student comprehension. The authors have prepared an Instructor's Manual and Test Bank to facilitate the book's use in the classroom.

Tiny House in the Trees Celia Bonaduce, 2018-11-20 House enough to hold her dreams . . . Aspiring engineer Molly McGinnis is one master's thesis away from conquering the universe. But in the meantime, she's struggling to make ends meet, working at a tree farm while stowing away in a Tiny House on builder Bale Barrett's property. Of course, she only plans to hide out until the weather improves, or until she finishes her own Tiny House project . . . But when Bale discovers her, rather than send the hapless designer packing, he offers her a place to stay and solid advice, on her thesis—and her life. Just as Molly feels like she's getting back on her feet, things start to fall apart, like her project, and her romantic illusions about her outrageously good-looking boss, Quinn.
