Johanna Hurwitz

Alibaba Duncan Clark,2016-04-12 In just a decade and half Jack Ma, a man who rose from humble beginnings and started his career as an English teacher, founded and built Alibaba into the second largest Internet company in the world. The company's \$25 billion IPO in 2014 was the world's largest, valuing the company more than Facebook or Coca Cola. Alibaba today runs the e-commerce services that hundreds of millions of Chinese consumers depend on every day, providing employment and income for tens of millions more. A Rockefeller of his age, Jack has become an icon for the country's booming private sector, and as the face of the new, consumerist China is courted by heads of state and CEOs from around the world. Granted unprecedented access to a wealth of new material including exclusive interviews, Clark draws on his own first-hand experience of key figures integral to Alibaba's rise to create an authoritative, compelling narrative account of how Alibaba and its charismatic creator have transformed the way that Chinese exercise their new found economic freedom, inspiring entrepreneurs around the world and infuriating others, turning the tables on the Silicon Valley giants who have tried to stand in his way. Duncan explores vital questions about the company's past, present, and future: How, from such unremarkable origins, did Jack Ma build Alibaba? What explains his relentless drive and his ability to outsmart his competitors? With over 80% of China's e-commerce market, how long can the company hope to maintain its dominance? As the company sets its sights on the country's financial and media markets, are there limits to Alibaba's ambitions, or will the Chinese government act to curtail them? And as it set up shop from LA and San Francisco to Seattle, how will Alibaba grow its presence and investments in the US and other international markets? Clark tells Alibaba's tale within the wider story of China's economic explosion—the rise of the private sector and the expansion of Internet usage—that have powered the country's rise to become the world's second largest economy and largest Internet population, twice the size of the United States. He also explores the political and social context for these momentous changes. An expert insider with unrivaled connections, Clark has a deep understanding of Chinese business mindset. He illuminates an unlikely corporate titan as never before, and examines the key role his company has played in transforming China while increasing its power and presence worldwide.

The Adventures of Ali Baba Bernstein Johanna Hurwitz,1995-06-01 Eight-year-old David Bernstein discovers life is much more exciting when he calls himself Ali Baba Bernstein. Only Ali Baba would have dared to grab the class snail and escape to the boys' room for his own magic experiment. David would never have invited every David Bernstein in the phone book to his birthday party -- or find himself hailed as a great detective -- or discover adventures and misadventures everywhere he went. But Ali Baba Bernstein does!

Conspicuous and Inconspicuous Discriminations in Everyday Life Victor N. Shaw,2013-06-19 In everyday life, people negotiate on issues, entertain offers and counteroffers, and gain or lose in terms of economic capital, political power, communal status, and social influence. Although life goes on in the form of compromise, feelings of discrimination or misfortune haunt consciously or unconsciously in the minds of living individuals. History continues in the spirit of forgiveness, but residues of exploitation or injustice remain conspicuously or inconspicuously on the records of progressing civilizations. This study follows an average everyday life to compare individuals with individuals, individuals with organizations, and organizations with organizations in their everyday interactions. Through the eyes of the person, conspicuous and inconspicuous discriminations by one against another, whether individual or organizational, are identified in different occasions, on a typical day, at home, in the workplace, in the community, within the country, around the world, and throughout the course of life. In the style of Socrates, Plato, Wittgenstein, and other classical scholarship, this study uses ordinary, typical situations to demonstrate critical points, reveal subtle connections, and present important arguments. It offers vivid examples for what social scientists strive to find: the extraordinary from the ordinary, the unfamiliar from the familiar, the different from the similar, and the significant from the trivial. This study offers an opportunity for readers to reflect upon their social experiences, and rethink and reshape their everyday acts and actions.

Alibaba's World Porter Erisman,2015-05-12 In September 2014, a Chinese company that most Americans had never heard of held the largest IPO in history – bigger than Google, Facebook and Twitter combined. Alibaba, now the world's largest e-commerce company, mostly escaped Western notice for over ten years, while building a customer base more than twice the size of Amazon's, and handling the bulk of e-commerce transactions in China. How did it happen? And what was it like to be along for such a revolutionary ride? In *Alibaba's World*, author Porter Erisman, one of Alibaba's first Western employees and its head of international marketing from 2000 to 2008, shows how Jack Ma, a Chinese schoolteacher who twice failed his college entrance exams, rose from obscurity to found Alibaba and lead it from struggling startup to the world's most dominant e-commerce player. He shares stories of weathering the dotcom crash, facing down eBay and Google, negotiating with the unpredictable Chinese government, and enduring the misguided advice of foreign experts, all to build the behemoth that's poised to sweep the ecommerce world today. And he analyzes Alibaba's role as a harbinger of the new global business landscape—with its focus on the East rather than the West, emerging markets over developed ones, and the nimble entrepreneur over the industry titan. As we face this near future, the story of Alibaba—and its inevitable descendants—is both essential and instructive.

Alibaba and the Forty Thieves BPI,2008 A set of twelve all time classics that introduce children to adventure, love and bravery. Colourful illustrations bring the stories to life.

alibaba Liu Shiying,Martha Avery,2009-10-06 The first in-depth look at the multibillion-dollar company Alibaba.com—known to many as China's eBay—and the inspirational story behind the man who created it. A bestseller in China and now translated into English and updated with recent events, *Alibaba* by Liu Shiying and Martha Avery tells the remarkable story behind the Internet phenomenon Alibaba.com and its founder Jack Ma, a man Barron's named one of the World's Top 30 CEOs in 2008. Ma's rise to prominence presents a riveting story: Despite growing up in China during the Cultural Revolution—in a period of total state control of the economy—he developed the keen entrepreneurial instincts that propelled him to billionaire status and enabled him to build a company outside the usual government channels. These instincts and habits incorporated martial arts training and allowed him to recognize, early on, that the Internet could leverage his company to rapid growth and also transform the way business is done around the world. Alibaba.com, where businesses can buy and sell everything from air beds to zippers, started with a modest initial investment of \$60,000 and has grown exponentially since its founding in 1999 to become the world's biggest business-to-business Web site. In 2007 it became the second largest IPO in history (after Google), and Fast Company has named it one of the world's most innovative companies. As a result, smart investors and technology insiders will be keeping a close eye on Alibaba for years to come. Whether you're seeking to understand China's meteoric rise, or just searching for the next Google, Yahoo!, or Amazon, *Alibaba* is crucial reading.

The Transpacific Experiment Matt Sheehan,2020-08-04 A timely, vital account of California's unique relationship with China, told through the exploits of the entrepreneurs, activists, and politicians driving transformations with international implications. Tensions between the world's superpowers are mounting in Washington, D.C., and Beijing. Yet, the People's Republic of China and the state of California have built deep and interdependent socioeconomic exchanges that reverberate across the globe, making California and China

a microcosm of the most important international relationship of the twenty-first century. In *The Transpacific Experiment*, journalist and China analyst Matt Sheehan chronicles the real people who are making these connections. Sheehan tells the story of a Southern Californian mayor who believes a Chinese electric bus factory will save his town from meth labs and skinheads. He follows a Chinese AI researcher who leaves Google to compete with his former employer from behind the Great Firewall. Sheehan joins a tour bus of wealthy Chinese families shopping for homes in the Bay Area, revealing disgruntled neighbors and raising important questions about California’s own narratives around immigration and the American Dream. Sheehan’s on-the-ground reporting reveals movie sets in the “Hollywood of China,” Chinese-funded housing projects in San Francisco, Chinese immigrants who support Donald Trump, and more. Each of these stories lays bare the new reality of twenty-first-century superpowers: the closer they get to one another, the more personal their frictions become. “Cuts right to the heart of the relationship between Silicon Valley and China: the tangled history, the current tensions, and the uncertain future . . . a must-read.”—Kai-Fu Lee, former president of Google China and founder of Sinovation Ventures

In this book, Muhsin Mahdi, whose critical edition of the text brought so much praise, explores the complex literary history of the Nights, bringing to fruition the search for the archetype that constituted the core of the surviving editions, and treating the fascinating story of the growth of the collection of stories that we now know as *The Thousand and One Nights*.

Kids Can Entrepreneur Too! Yejide Akiode,2020-10-18 Entrepreneurial education offers more than can be imagined. It helps to cultivate skills and mindsets that children should be aiming to hone and which can be applied all their lives. However, there is a whole lot to this big word called ‘Entrepreneur’ and this book hopes to break it down. Since it is said that Entrepreneurs are 5% born with inborn talents and 95% made through trainings and life experiences; it means everyone can learn the skills that makes one an entrepreneur. Rt Hon. Anne Milton MP (Former Member of Parliament for Guildford, House of Commons, London) lends her voice by saying: “Entrepreneurial education offers so many benefits for children from all backgrounds. It is a chance to develop and exercise skills that can’t be learnt easily in the classroom. We all want to see young people developing the skills to make them the entrepreneurs of the future” In summary, this book: • Explores the skills that makes one a successful entrepreneur in a simple and easy to remember acronym – E.N.T.R.E.P.R.E.N.E.U.R • Skills are buttressed using the stories of various Entrepreneurs and ‘Kidpreneurs’. • Keeps you busy with lots of word search challenges, scrambled words, quizzes and assessments. • Has fun ‘Kidpreneur’ quotes at the end of every chapter.
