Don't Think, Dear Alice Robb,2023-03-02 'Don't think, dear' said Balanchine. 'Just do.' For centuries, being a ballerina has been synonymous with being beautiful, thin, obedient and feminine. It is the crucible of womanhood, together with the harassment, physical abuse and eating disorders endemic at top schools. Can we abide this in a post #MeToo world? Weaving together her own time at America's most elite ballet school with the lives of renowned ballerinas throughout history, Alice Robb interrogates what it means to perform ballet today. She confronts the all-consuming nature of the form: the obsessive and dangerous practices to perfect the body, the embrace of submission and the idealisation of suffering. Yet ballet also gifts its dancers 'brains in their toes', a way to fully inhabit their bodies and a sanctuary of control away from the pressures of the outside world. Perhaps it is time to reimagine its liberating potential.

Diaries of Girls and Women Suzanne L. Bunkers,2001-05-30 Diaries of Girls and Women captures and preserves the diverse lives of forty-seven girls and women who lived in Minnesota, Iowa, and Wisconsin between 1837 and 1999— young schoolgirls, adolescents coming of age, newlywed wives, mothers grieving the loss of children, teachers, nurses, elderly women, Luxembourger immigrant nuns, and women traveling abroad. A compelling work of living history, it brings together both diaries from historical society archives and diaries still in possession of the diarists or their descendents. Editor Suzanne L. Bunkers has selected these excerpts from more than 450 diaries she examined. Some diaries were kept only briefly, others through an entire lifetime; some diaries are the intensely private record of a life, others tell the story of an entire family and were meant to be saved and appreciated by future generations. By approaching diaries as historical documents, therapeutic tools, and a form of literature, Bunkers offers readers insight into the self-images of girls and women, the dynamics of families and communities, and the kinds of contributions that girls and women have made, past and present. As a representation of the girls and women of varied historical eras, locales, races, and economic circumstances who settled and populated the Midwest, Diaries of Girls and Women adds texture and pattern to the fabric of American history.

Encyclopedia of Artificial Intelligence Philip L. Frana,Michael J. Klein,2021-04-07 This authoritative reference work will provide readers with a complete overview of artificial intelligence (AI), including its historic development and current status, existing and projected AI applications, and present and potential future impact on the United States and the world. Some people believe that artificial intelligence (AI) will revolutionize modern life in ways that improve human existence. Others say that the promise of AI is overblown. Still others contend that AI applications could pose a grave threat to the economic security of millions of people by taking their jobs and otherwise rendering them obsolete-or, even worse, that AI could actually spell the end of the human race. This volume will help users understand the reasons AI development has both spirited defenders and alarmed critics; explain theories and innovations like Moore's Law, mindcloning, and Technological Singularity that drive AI research and debate; and give readers the information they need to make their own informed judgment about the promise and peril of this technology. All of this coverage is presented using language and terminology accessible to a lay audience.

Human-Machine Reconfigurations Lucy Suchman,2006-12-04 This 2007 book considers how agencies are currently figured at the human-machine interface, and how they might be imaginatively and materially reconfigured. Contrary to the apparent enlivening of objects promised by the sciences of the artificial, the author proposes that the rhetorics and practices of those sciences work to obscure the performative nature of both persons and things. The question then shifts from debates over the status of human-like machines, to that of how humans and machines are enacted as similar or different in practice, and with what theoretical, practical and political consequences. Drawing on scholarship across the social sciences, humanities and computing, the author argues for research aimed at tracing the differences within specific sociomaterial arrangements without resorting to essentialist divides. This requires expanding our unit of analysis, while recognizing the inevitable cuts or boundaries through which technological systems are constituted.

International Workshop on Evidence-Based Technology Enhanced Learning Pierpaolo Vittorini,Rosella Gennari,Ivana Marenzi,Fernando de la Prieta,Juan M. Corchado Rodríguez,2012-03-05 Research on Technology Enhanced Learning (TEL) investigates how information and communication technologies can be designed in order to support pedagogical activities. The workshop proceedings collects contributions concerning evidence based TEL systems, like their design following EBD principles as well as studies or best practices that educators, education stakeholders or psychologists used to diagnose or improve their students' learning skills, including students with specific difficulties. The international ebTEL'12 workshop wants to be a forum in which TEL researchers and practitioners alike can discuss ideas, projects, and lessons related to ebTEL. The workshop takes place in Salamanca, Spain, on March 28th-30th 2012.

Internet Drama and Mystery Television Series, 1996-2014 Vincent Terrace,2014-12-16 Created around the world and available only on the Web, internet “television” series are independently produced, mostly low budget shows that often feature talented but unknown performers. Typically financed through online crowd-funding, they are produced with borrowed equipment and volunteer casts and crews, and viewers find them through word of mouth or by chance. The second in a first-ever set of books cataloging Internet television series, this volume covers in depth the drama and mystery genres, with detailed entries on 405 shows from 1996 through July 2014. In addition to casts, credits and story lines, each entry provides a website, commentary and episode descriptions. Index of performers and personnel are included.

The New Mahican Gerardo Antonio Perez Chan,2023-01-03 The story of a naive undocumented Houstonian whose whole world is destroyed after an encounter with the Houston Police Department in Texas. In violation of the Constitution of the United States, the city of Houston's police force works with federal agencies in order to send Gerardo to a faraway land. According to the United States Constitution, the federal government and the state government are to remain separate entities in order to protect the rights of the people. Kept in captivity for three years with no opportunity of ever getting legal status in the only place Gerardo called home. As these events unfold, he attempts to understand what his world has become. He never loses hope that he might be released in order to continue his education and reunite with his family. While in captivity Gerardo's mind makes sense of the things happening around him by turning events into mythical epics. He speaks to various individuals who tell him of their hopes and dreams and watches as their spirit gets crushed daily. Slowly starved by a poor diet, he struggles to find a way to legitimize his existence with a racist and hostile government that he does not comprehend. Having lost the ability to walk on his own, Gerardo then must use the prison walls as support in order to get about. Abused by his captors on a daily basis, he begins to lose hope of ever seeing his family again. Forced to sign a paper that waived his right to be a legitimate American, Gerardo is then exiled for a hundred years by a judge just as old. Who is

broadcasting from another location to a television screen in a courtroom inside the concentration camp. After being exiled from his home, they then send Gerardo to a land that he has never known. Struggling to survive, Gerardo decides that even though he fears the American government, he must return home in order to provide for his family. Even after being so heavily persecuted, Gerardo still holds on to his love for the country that destroyed his life.

Why We Dream Alice Robb,2020-01-23 We all dream, and 98 per cent of us can recall our dreams the next morning. Even in today's modern age, it is human nature to wonder what they mean. Now, groundbreaking science is putting dreams at the forefront of new research into sleep, memory, the concept of self and human socialization. Once a subject of the New Age and spiritualism, the science of dreams is revealed to have a crucial role in the biology and neuroscience of our waking lives. In *Why We Dream*, Alice Robb, a leading American science journalist, will take readers on a journey to uncover why we dream, why dreaming matters, and how we can improve our dream life - and why we should. Through her encounters with scientists at the cutting edge of dream research, she reveals how: - Dreams can be powerful tools to help us process the pain of a relationship break-up, the grief of losing a loved one and the trauma after a dramatic event - Nightmares may be our body's warning system for physical and mental illness (including cancer, depression and Alzheimer's) - Athletes can improve their performance by dreaming about competing - Drug addicts who dream about drug-taking can dramatically speed up their recovery from addiction. Robb also uncovers the fascinating science behind lucid dreaming - when we enter a dream state with control over our actions, creating a limitless playground for our fantasies. And as one of only 10 per cent of people with the ability to lucid-dream, she is uniquely placed to teach us how to do it ourselves. With incredible new discoveries and stunning science, *Why We Dream* will give you dramatic insight into yourself and your body. You'll never think of dreams in the same way again.

Rawny Anna Sloman-Gower,2022-07-29 Joy is born into an era of post-war uncertainty, one of the first babies delivered by the newly created NHS. A house move aged ten is unsettling and she struggles to make sense of the world and establish her identity. The novel charts her path through the trauma of the eleven plus and separation from her friends and culture. She experiences bullying and alienation at her new school and is helped by close friends, a supportive family and most importantly the local gypsies who live on the wasteland near her home. Rawny and his family take Joy into their hearts and share their lives and rich culture with her. The close enduring bonds Joy forges at this vital time of life enable her to navigate the difficulties life presents and enable her to find her own moral compass.
