Aliens Land at Manchester Airport Lester Barr,2012-05 This is a story about an alien who stumbles on planet Earth and gets lost at Manchester Airport. Then there is a twist at the end. It has an optional extra chapter The Science Behind the Story. This asks questions like, Could intelligent life forms evolve on planets other than our own? Could they travel through time? Do the discoveries of science mean that there can't possibly be a God? This book can be enjoyed at two levels: as a children's story and as a thoughtful but light-hearted contribution to the debate around science, atheism, and faith. We hope you enjoy them both.

Earth: An Alien Enterprise Timothy Good,2013-11-05 A worldwide history of alien contact from one of the most respected authorities on the phenomenon: "A bible for UFO watchers" (The Wall Street Journal). This fascinating new volume tells the story of contact between aliens and humans from all across the globe, dating back to 1932, including meetings with military personnel and American presidents such as Eisenhower and Kennedy. For the first time, a former member of MI6 reveals her conversation with Neil Armstrong at a NASA conference, when she confirmed that there were "other" spacecraft on the moon when Apollo 11 landed in 1969. Armstrong also confirmed that the CIA was behind the cover-up. In a further admission in December 2012, Russian Prime Minister Dmitry Medvedev revealed "the president of Russia is given a special top secret folder [that] in its entirety contains information about aliens who have visited our planet. Along with this, the president is given a report of the Special Service that exercises control over aliens in our country. I will not tell you how many of them are among us because it may cause panic."

Sack AS 6- Source of Nazi Germany UFO Claims? David Myhra PhD,2013-09-13 Much has been written about the alleged existence of Nazi flying saucers or disk-shaped flying machines from World War II, however, despite claims of a few would-be obscure former Nazi aviation designers from about mid-1947 and on, there are no original first-hand historical accounts or documents to support these claims. The closest aircraft to fit these descriptions is the Sack AS 6 V1, by a farmer and model builder/flier Arthur Sack, whose AS 6 and Sack himself disappeared completely in 1945. Enjoy reading and viewing the rare photographs about the truth about Nazi Germanys' Flying Saucers.

US Air Force Secret Space Program Michael Salla,2019-05-21 The US Air Force is experiencing a profound shift! In order to aggregate the military's major space assets under one authority, they are being moved into a new branch under the purview of the Air Force. This new branch is to be called Space Force. The true purpose of Space Force will be to publicly unveil the most well-guarded secrets in the Air Force's stunning arsenal of exotic spacecraft, unconventional weapons and mind-blowing technologies assembled over the more than seventy years since its official emergence in 1947. This book lays out the history of the Air Force Secret Space Program: Ushering in a new era with the recovery of several extraterrestrial craft in the 1940's. Secret agreements with a breakaway German colony in Antarctica (the Fourth Reich) & different extraterrestrial groups in the 1950's. Its complicity in the German infiltration of NASA & the Military-Industrial Complex in the 1960's. Development of stealth space stations beginning from the 1970's. Deployment of squadrons of disk, triangle and rectangular-shaped craft in the 1980's & 1990's. After its 2016 discovery that it had been deceived by the Deep State and their shadowy Fourth Reich allies, Air Force leaders made the momentous decision to shift alliances and realigned their

covert space program with human-looking extraterrestrials. This has led to bold steps being taken by the Air Force to reveal the existence of its arsenal of spacecraft to the US public.

The CIA UFO Papers Dan Wright, 2019 A chronological collection of CIA documents, spanning the years 1949 to 2000, relevant to UFO research--
Strange Craft: The True Story of an Air Force Intelligence Officer's Life with UFOs John L. Guerra, 2018-12-19 U.S. Air Force Major George Filer belongs to the generation of pilots and airmen who first became aware of the strange aircraft showing up in the Earth's atmosphere after World War II. These men - military professionals who flew planes, commanded ships, served as radar operators and air traffic controllers at air fields around the world - began to whisper amongst themselves about encounters with suspected extraterrestrial aircraft. During secret debriefings at U.S. bases, pilots and air crew told their commanders of seeing strange lights at night and in the daylight, groups of saucer- or cigar-shaped craft that easily paced them just a few yards off their plane's wingtip. Award-winning investigative reporter John Guerra spent four years interviewing Filer, a decorated intelligence officer. From objects in the skies over Cold War Europe to a UFO overflight during the Cuban Missile Crisis to strange lights over the DMZ during the Tet Offensive, Filer leaves nothing out about his Air Force UFO encounters, providing Guerra all the amazing details of his six decades investigating extraterrestrials and their craft. Filer's most memorable case - the shooting of an alien at Fort Dix Army Base in 1978 - is fully recounted for the first time in this book. Filer - who readers have seen on countless UFO documentaries - is also a member of the Disclosure Project, the famous panel of military experts, astronauts, and scientists that urges the U.S. government to release all it knows about UFOs to the public. Then, in the fall of 2017, the Pentagon released the F-18 gun camera footage of what can only be described as an extraterrestrial vehicle outperforming U.S. Navy fighters off San Diego. For the first time, after decades of denying what its intelligence officers, pilots, base commanders and air traffic control personnel know to be true, the military finally admitted to what Filer describes in this incredible book.

Aliens from Space Donald Edward Keyhoe, 1973 A textbook for the upper grades exploring various aspects of oral communication.

Need to Know Timothy Good, 2012-07-12 UFOs remain essentially a military and intelligence problem - and one demanding unprecedented security and deception, with access to information on a strictly 'need to know' basis. As early as 1960 former CIA director Admiral Hillenkoetter confirmed that, 'Behind the scenes, high-ranking air force officers are soberly concerned about the UFOs. But through official secrecy and ridicule, many citizens are led to believe the unknown flying objects are nonsense.' The same could be said today. Based on many years of research by one of the world's most respected authorities on alien phenomena, *Need to Know* draws on top-secret documents, reports of encounters with large craft of unknown origin from pilots and personnel aboard aircraft carriers and destroyers and interviews with high-ranking military insiders. It is full of revelations, including the alarming escalation of aircraft accidents and the disappearance of hundreds of military aircraft during UFO encounters and recent near-misses with UFOs. The evidence is clear, balanced - and irrefutable.

Roswell Report James McAndrew, U. S. Air Force, 2011 Originally published by the United States Force in 1997.

Command Of The Air General Giulio Douhet, 2014-08-15 In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest. In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh "Boom" Trenchard of Great Britain and William "Billy" Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the

spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's central vision-that command of the air is all important in modern warfare-has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

UFO Crash Secrets at Wright-Patterson Air Force Base James W. Moseley,1992-06-01

Project Blue Book Brad Steiger,2019 A new edition of the blockbuster book that revealed the top-secret findings of the US government about UFOs. Throughout the 1950s and 1960s, while publicly dismissing the existence of UFOs, the United States Air Force was engaged in a secret program for evaluating every report of unidentified flying objects. Under the code name, Project Blue Book, the Air Force analyzed over 13,000 incidents. The goal of this enterprise was threefold: To determine the cause for each UFO sighting, to assess the security threat for each incident, and to determine how the United States could obtain or create the technology used by UFOs. This book, based on secret files obtained through the Freedom of Information Act, includes accounts of seven of the most important USAF enquiries-- among them the story of the nights the White House was buzzed by UFOs, the mystery of the Lubbock Lights, the full story of Captain Mantell--Ufology's first martyr, and the startling conversion of the prominent astronomer, J. Alan Hynek from UFO skeptic to believer. This is startling and fascinating book that uncovers not only the anatomy of a government cover-up, but also provides stark and chilling evidence that we are not alone. It is all here, government documents, the testimony of scientists, the military, pilots and citizens all over the country who have witnessed UFOS.
