*Outpost* Scott Mackay,2019-01-23 Award-winning author Scott Mackay’s fast-paced action adventure” depicts the story of a struggle for liberty against unknown captors—and a fight for survival in an unknown world...(The Washington Post). Young Felicitas has woken in a prison cell—unable to remember how she got there. She doesn’t know where the prison is—except that it is most definitely not on Earth. And she has no idea why all the other prisoners walk around in a daze. In dreams, she is forced to relive crimes she cannot remember committing. Felicitas soon notices that the mechanized sentries surveilling the inmates are breaking down. The automated system is collapsing, putting everybody at risk. Along with some others who have awakened out of their daze, Felicitas sees a chance to escape. Yet the harsh penal world she and her fellow fugitives escape to is as fraught with danger as the now perilously malfunctioning prison. And it turns out there is much more at stake than just a prison break. As those stakes become clear, Felicitas must choose between freedom, imprisonment, the human race, and history itself. Driven by “an intriguing puzzle scenario and tense prison action,” this thrilling novel of sci-fi suspense promises to keep readers guessing and gasping until the final truth is revealed (Kirkus).

*The Outpost* Mike Resnick,2002-08-02 Award-winning writer Mike Resnick takes us back to his wild and wooly Inner Frontier in this tall-tale of an adventure novel. On the planet Henry II, orbiting the twin suns of Plantagenet and Tudor, at the very edge of the great black hole at the center of the Milky Way, there is a tavern called The Outpost. Through the doors of The Outpost have come the greatest heroes, villains, and adventurers of the galaxy - to drink, to brag, and to swap tales. The Outpost is neutral territory where fighting is forbidden and blood enemies can have a drink together and tell stories of battles past. After all bounty hunters, con men, itinerant preachers, thieves, and assassins have more in common with each other than they do with the rest of the mundane galaxy. But their pleasant life of recalling murder and mayhem is interrupted by an alien invasion, and to save their way of life these rugged individualists must try to work together for a change.

**The Quiet Invasion** Sarah Zettel,2009-02-28 Venus, second planet from the Sun, is a lonely sphere of lethal heat, deadly pressure, and poisonous winds. Yet mankind still explores it for signs of life. When an abandoned alien outpost is discovered on Venusian soil, Dr. Veronica Hatch is sent to investigate. What she discovers is extraordinary -- an alien race has escaped its dying and distant world to colonize Venus, the only planet that can support it. But back on Earth, this news is received with dread. Fearing the aliens will invade and conquer the entire solar system, Earth prepares for war. It is now up to Veronica to urgently convince the aliens that mankind is truly worth saving -- before Earth becomes ground zero of an interstellar war.

*Alien Dig* B D Pedersen,2013-07-03 It started out as a simple dig, looking for what I thought was a tunneling machine, only to discover we were right on top of an alien outpost. Did I also mention we were noncombatants? That's right. No military within five hundred miles and they hit us with a nuclear bomb. Me? I'm just a guy who was asked to take part in the dig and to supervise and oversee the actual process of digging out this monster machine. Just bare the machine so the experts can get to it and figure out what it is and why it's there. That's it. And, all hell busts loose. My name is Joe Nash. I ended up here simply because I'm an expert in engineering and they needed me to expose the machine they were trying to get to. So, I find myself deep in the Brazilian forests at the eastern side of the old Guiana Mountain foothills, running a dig that would eventually bring the whole of the world to the edge of total war. Oh, did I mention they set a nuclear bomb off at our dig site? Come on people, it's just a stupid archeological dig and nothing more and you hit us with a nuclear bomb. Follow Joe and his fellow team as they deal with the unknown and the death of some of their personnel by the cubes. A machine that controls the outpost and protects it from anything that attempts a forced take over of the outpost. Their mean things that can kill you in an instant.

*Shadows of the Future - Episode II Destiny's Child* Robert J. Rubinetti,2023-05-15 When Amanda Stevenson was fifteen, her parents took her to XUNANTUNICH, an ancient Mayan city. While there, archeologist working at the site unearthed the tomb of the city’s first Mayan leader. Taking advantage of this opportunity, Daniel Stevenson used his influence to allow his daughter to be present at the opening of the tomb. But as fate would have it, within the tomb, two sets of remains were found. Along with the Mayan leader was an alien corpse. Although no one had ever seen a being like this, the alien writings in the tomb matched those Daniel had seen in the ICON star system but hoped never to see again. Years later, on Mars, a drilling company discovers the remains of an underground alien outpost, destroyed thousands of years ago but belonging to the same race of beings as the one found in the Mayan tomb. Finishing her Masters degree in Archeology, Amanda goes to Mars with Archeologist Aston Farlow to uncover the secrets buried in the ancient alien outpost. Meanwhile, on ICON 5, explorers for the United Earth Reconnaissance Organization (UERO) are assigned to map out the planet’s unexplored lands. As they traverse great stretches of mountains, valleys, and thick forests, they discover an identical alien outpost to the one on Mars. This one however, is not so abandoned. Eventually, Amanda discovers a secret so profound that it causes her to question her own existence. Compelled by this knowledge, she returns to ICON to communicate with the alien beings. Beings that have been hiding for thousands of years from a malevolent evil bent on their complete and utter genocide. Beings that have awaited the coming of an ancient prophecy that could mean the difference between their freedom or final extinction. A prophecy thousands of years old imparted to their race by their Grand Oracle. A prophecy on an intercept course with the human race and coming of Amanda Stevenson.

**Star Trek: Signature Edition: Worlds in Collision** Judith Reeves-Stevens,2003-11-04 The Star Trek: Signature Edition series continues with this thrilling adventure featuring Commander Spock, Captain Kirk, and the U.S.S. Enterprise. Of all the experiences shared by Captain Kirk and the crew of the Starship Enterprise™ during their first five-year mission, two were among the most perilous: a journey to the nonphysical realm of Transition where the massive computer known as Memory Prime was situated, and the nightmarish mission to Talin IV, a world poised on the brink of destruction that Kirk was forbidden to save. In the twenty-third century, a hundred years before a sentient artificial life-form would be allowed to earn a Starfleet commission, the Federation considers the use of self-aware artificial intelligences to be little more than slavery, except for the immense computer system of Memory Prime—the key hub in the Federation's vast network of interstellar library planets. There, the A.I.s known as Pathfinders inhabit Transition—a virtual world so different from our universe that the A.I.s themselves debate whether or not the physical universe is real. But when an ancient enemy reaches out from the shadows of Vulcan's darkest history and threatens to destroy the Federation, Spock must risk his career, and his life, to enter the Pathfinders' realm. Technologically and politically, Talin IV is little different from late-twentieth century Earth. But as a series of mysterious events pushes that world closer to self-annihilation, the Prime Directive prevents Captain Kirk and his crew from doing anything to prevent it. When the worst appears to happen and Kirk takes desperate action to give the Talin a chance to step back from the nuclear abyss, Talin IV is consumed by radioactive fire. Now, with a world destroyed and the Enterprise dead in space, the careers of Kirk and his crew are over. Disgraced and despised, Kirk has only one chance to redeem himself and his crew: Somehow, he must make his way back to Talin IV and discover what really happened, even if it means proving that a world died because he broke Starfleet's most sacred law.

Tyler Lang took the offer for a data-processing job in Sunset Falls, Montana, to escape a humiliating breakup. Mr. Evens' Odds & Ends Shop sounded like a great place to hide and focus solely (meaning ALONE) on her beloved numbers. Except she's constantly distracted by the looming presence of the shop's weirdly hot security guard. What kind of thrift store in the middle of nowhere needs protection? Not to mention a guard literally hot enough to make her computer smoke. These numbers just aren't adding up. A secret task... As captain of his banished beast battalion, Wyvryn Cross will take any job that keeps his fighters free from intergalactic incarceration. He'll even work for a devious Dirter who claims to be reopening a defunct Intergalactic Dating Agency outpost on Earth. Cross doesn't believe in a “universal mating algorithm”...until his smoldering gaze alights on the shy female who doesn't know anything about aliens on Earth and doesn't even realize she's writing a love code. Unfortunately, suddenly smoldering eyes are a bad sign in a Wyvryn. A last chance... They should just do their jobs and go their separate ways, but when a mysterious saboteur tries to shut down the Intergalactic Dating Agency before it opens, Tyler and Cross must work together to perfect her code. Even if that demands some hot kisses under the bright Montana stars. SOL She doesn't believe in alien life on Earth... Brin Andersen is a hoax buster on a quest to reveal the most ridiculous hoax ever: the rumor of an extraterrestrial dating service in some tiny Montana town. But after her production equipment is stolen, she's stranded without resources. When an aloof, sexy security guard asks for her help with a missing person search, maybe this episode featuring the would-be secrets of Sunset Falls won't be a total bust after all. He doesn't believe in alien loving on Earth... Fynix Sol is to blame for his beast battalion's exile from Xymir. Now they are hiding on Earth until they can bind their hungry beasts to willing mates. But that chance will be lost if the IDA outpost reopening fails to launch. Sol knows he doesn't rate a mate, not after what he did, but if he can trick an unsuspecting Earther into finding the missing proprietor of Evens' Odds & Ends Shop, at least his crew might be saved. He just needs to keep his beast hidden from the sharp-eyed, softly curved Brin. They're both wrong. But together they are oh-so right. It's hard to believe in the power of love, especially with a mysterious adversary confounding them. Can Brin and Sol trust each other long enough to discover who hates love enough to destroy the Big Sky Intergalactic Dating Agency? ZENITH She's never been on her own. Her whole life, Callie was pampered, protected—and imprisoned. Then she lost it all. How can she survive on her own in such a dangerous universe? She needs someone to save her. Born to serve in a beast battalion, for Zenith, getting banished was an unexpected dream come true. The new Big Sky Intergalactic Dating Agency is ready to launch! But not everyone believes in the promise of matchmaking true love, and Zenith and Callie have only one chance to decide if her fear and his freedom matter more than a forever together. \_\_\_\_ For readers who want alien mail order bride science fiction romance novel, fated mate alien abduction adventure fantasy, in a series box set collection, set in small town Montana, with shifter protector heroes, dragon, phoenix, and griffin, strong heroines, with a touch of cinnamon roll, grumpy sunshine, sassy steamy first loves and second chances, hoax busting, humor, and HEAs!
