Alien Invasion Gabriel Marcel,2005-03-09 The people of Texas were living normally when they received a surprising visit from an extra terrestrial leader of a dark galaxy attacking Texas and making this invasion only the beginning to conquer Earth. The army couldn't stop him, but out of nowhere, some human mortals who lived on Earth have been developing the power of controlling elements like fire and water. They faced that monster again and again in battles reviving the era of epics. Many legendary creatures aided that dark leader while the heroes to be doing their best to defend their planet and stop the invasion that would end the human race.

Explorations in Archaeology and Philosophy Anton Killin,Sean Allen-Hermanson,2021-04-26 This volume explores various themes at the intersection of archaeology and philosophy: inference and theory; interdisciplinary connections; cognition, language and normativity; and ethical issues. Showcasing this heterogeneity, its scope ranges from the method of analogical inference to the evolution of the human mind; from conceptual issues in assessing the health of past populations to the ethics of cultural heritage tourism. It probes the archaeological record for evidence of numeracy, curiosity and creativity, and social complexity. Its contributors comprise an interdisciplinary cluster of philosophers, archaeologists, anthropologists, and psychologists, from a variety of career stages, of whom many are leading experts in their fields. Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Virtual Reality Games for Rehabilitation Eva Brooks,David J. Brown,2023-09-12 This volume focuses on games to manage and facilitate rehabilitation. It emphasizes user practice, attitudes, and experience, and their changing place within developing rehabilitation

frameworks. It looks at how users have adopted, integrated, and innovated with games to facilitate rehabilitation. Topics include game technology, game design and accessibility, web-based technologies vs pervasive and mobile technologies, social and collaborative aspects, and rehabilitative outcome. Games for rehabilitation are gaining interest from different communities such as medicine, psychology, and rehabilitation. A distinction can be made between games specifically made for rehabilitative purposes and games made for the general public but that are used in rehabilitation as well. Games have allowed the building of new/complementary forms for rehabilitation and offered new options to produce rehabilitative activities and experiences.

The World Won't End Jessie Jasen, 2016-07-16 Ancient Sumerian and Mayan prophecies state that after 2012 an alien race will come to invade Earth. ACIO is a secret agency whose founder Fifteen has dedicated his entire life to developing a time travel technology with which he wants to travel back to the past to save the Earth from an alien invasion. 2016, Sarajevo, Bosnia-Herzegovina: five mysterious ancient pyramids and an underground labyrinth of tunnels with stones and megaliths that emanate ultrasound frequencies have been discovered near Sarajevo. The tunnels are rumored to have a healing effect on people. Mirsad and Manda are a seventeen-year-old couple in love. When Mirsad's mother falls ill unexpectedly, they decide to visit the tunnels in a search for an alternative cure. While in the tunnels, the couple discovers a secret chamber with symbols on the walls that correspond to a drawing of an ancient tattoo Manda has on her arm. Their presence activates an interstellar gateway that sends Mirsad and Manda to a future world. 2028, Bearford Falls, United States of America: to prevent the alien invasion, ACIO has instructed the governments to nuke ancient sites across the planet which hold interstellar gateways. The scientists have begun genetically engineering a new race that will be resilient to radioactivity and thus continue the evolution: Homo hibrida, a cross-breed of humans and animals. But Fifteen has made one crucial mistake in his calculations: by nuking ancient sites, he didn't close the gates for the aliens coming to invade Earth — he opened them. Now it's up to Mirsad and Manda to change the course of history.

Ender's Game Jed Alger, 2013-10-15 Based on the best-selling novel, *Ender's Game* tells the thrilling story of the fight to save the world from a devastating future. Now, in this official companion volume, the behind-the-scenes world of the film is brought into stunning focus. Following an attack by an alien race known as the Formics—narrowly countered thanks only to the efforts of legendary war hero Mazer Rackham (Ben Kingsley)—Earth has been preparing itself for the next wave in the conflict. The fate of humanity lies in finding the next Mazer from a crop of the brightest young minds on the planet. Under the watchful eye of the International Fleet, the venerated Colonel Hyrum Graff (Harrison Ford) has been tasked with overseeing their training. Before long, a standout emerges among them: Ender Wiggin (Asa Butterfield), a shy but prodigiously talented misfit. His potential discovered, Ender is promoted to Command School, where he will soon find the war with the Formics to be more complex than he could have ever imagined. Packed with in-depth interviews, removable posters and army badges, stunning concept art, unparalleled access to the visual effects archives at Digital Domain, and countless full-color images, this insightful insider's view of the making of *Ender's Game* will bring fans closer into the world of the movie, following cast and crew as it is brought to dazzling life. (The Help) as Major Gwen Anderson, and Abigail Breslin (Little Miss Sunshine) as Ender's brilliant older sister, Valentine.

Franchise Era Fleury James Fleury,2019-04-01 As Hollywood shifts towards the digital era, the role of the media franchise has become more prominent. This edited collection, from a range of international scholars, argues that the franchise is now an integral element of American media culture. As such, the collection explores the production, distribution and marketing of franchises as a historical form of media-making - analysing the complex industrial practice of managing franchises across interconnected online platforms. Examining how traditional media incumbents like studios and networks have responded to the rise of new entrants from the technology sector (such as Facebook, Apple, Amazon, Netflix and Google), the authors take a critical look at the way new and old industrial logics collide in an increasingly fragmented and consolidated mediascape.

The Fly Emma Westwood,2018-11-06 This book teases out the DNA of David Cronenberg's reimagining of The Fly (1986). Encyclopedia of Japanese American Internment Gary Y. Okihiro,2013-06-11 This book addresses the forced removal and

confinement of Japanese Americans during World War II—a topic significant to all Americans, regardless of race or color. The internment of Japanese Americans was a violation of the Constitution and its guarantee of equal protection under the law—yet it was authorized by a presidential order, given substance by an act of Congress, and affirmed by the U.S. Supreme Court. Japanese internment is a topic that we as Americans cannot afford to forget or be ignorant of. This work spotlights an important subject that is often only described in a cursory fashion in general textbooks. It provides a comprehensive, accessible treatment of the events of Japanese American internment that includes topical, event, and biographical entries; a chronology and comprehensive bibliography; and primary documents that help bring the event to life for readers and promote inquiry and critical thinking.

Black Abyss John Glasby, J.L. Powers, 2014-12-22 With the discovery of the hyperdrive, mankind at last possessed the means of going out to the stars. Four expeditions had already gone by the time the fifth starship left Pluto for Vega. Carrying its complement of scientists and military personnel, they arrived at the solar system of Vega to find one planet sufficiently like Earth to allow them to land. Here, they discovered mystery. The ruins of great cities built on the shattered remains of still earlier fortresses, showing that some great race of conquerors had passed that way sometime in the past thirty thousand years. No life now remained on this planet and speeding to the next sun, they found a civilisation which possessed powers so utterly strange to them that one native almost succeeded in destroying them and taking over the ship. And still the mystery remained, for the legends of the planet spoke of a race of gods who had come down from the stars twenty thousand years before. It was

not until they reached the planet of a red giant sun that they ran into a race of creatures so fantastically alien that there was no defence against them, and they learned the real identity of the race which had conquered the stars millennia before...
