Mike Bara

Cosmic Encounters R. G. Austin,1982 As an astronaut on your first solo flight, you are adrift in space when the lifeline slips loose from your belt. What fate will you choose for yourself?

Aliens: The Official Movie Novelization Alan Dean Foster,2014-04-29 In the sequel to the 1979 film Alien, Ellen Ripley is forced to return to planet LV-426, where her crew encountered the hostile Alien creature. There they discovered hundreds of eggs, and just one slaughtered everyone but Ripley. This time she's accompanied by a unit of Colonial Marines, but even their firepower may not be enough for them to survive and learn the fate of the colony known as Hadley's Hope

Aliens Omnibus Mark Verheiden,2008 Presents a series of episodes in which scientists, military personnel, corporate officials, and hapless civilians encounter the deadly and mysterious Aliens, leading to adventures on Earth and other planets.

Aliens Andrew Coddington,2016-07-15 For as long as humans have been on Earth, they have wondered if other intelligent life exists in the universe. If so, what would these extraterrestrial beings look like? Today, there are true alien believers as well as skeptics. Some people have claimed aliens exist and have been responsible for creating great works of wonder, such as the pyramids and crop circles. Others are less sure. Regardless, human history has seen many stories of mysterious flashing lights, flying objects, and even alien abductions. This book discusses the history of alien lore and seeks to answer the question: Are humans alone, or are aliens among us?

Aliens! Mark Cheatham,2012-01-15 Earth is a small part of an enormous (possibly infinite) universe, so there's a good chance we are not the only intelligent life forms within it. Some people believe there are not only aliens in outer space, but that they visit Earth from time to time. Readers will find out some of the facts and fiction behind alien abductions and follow the tale of one of the first documented cases where a couple claimed to have seen a UFO and been taken aboard the spacecraft by aliens. We may never know the explanation for what they claimed to have experienced, but their story will spark the imaginations and curiosity of young readers.

Ets and Aliens Noel Huntley,2002-04-17 With degrees in physics and psychology, the author portrays a convincing era in the development of robots, in which the great robotist, Mansell Howard, clashes with both Robotics International and the law in this plausible story of intrigue, obsession, and disaster.

The Roswell Alien Triads (Hard Cover) Arthur Coleman,

Aliens Omnibus Volume 1 Mark Verheiden,2007 Presents a series of episodes in which scientists, military personnel, corporate officials, and hapless civilians encounter the deadly and mysterious Aliens, leading to adventures on Earth and other planets.

In League with a UFO Lou Baldin,2009-03 The Alien ship recovered in Roswell, New Mexico in 1947, was filled with Alien gadgetry. The gadgetry or spawn, as some of the covert operators called the Alien things, infested the crashed flying saucer. The Alien spawn had magical and bizarre qualities with eVietnamesel tendencies. The gadgets served as tools and medical instruments and seemingly possessed personalities of their own. In their attempts to better understand the extraterrestrial menace Vietnamesesiting Earth, the covert committee performed extensive experiments on humans using the Alien gadgets.

Alien: The Cold Forge Alex White,2018-04-24 A dramatic new Alien novel, as Weyland-Yutani seeks to recover from the failure of Hadley's Hope, and successfully weaponize the Xenomorphs. With the failure of Hadley's Hope, Weyland-Yutani has suffered a devastating setback--the loss of the Aliens they aggressively sought to exploit. Yet there's a reason the Company has risen to the top of the food chain. True to form, they have a redundancy already in place... the facility known as The Cold Forge. Remote station RB-232 has become their greatest asset in weaponizing the Xenomorphs. However, when Dorian Sudler is sent to RB-232 to assess their progress, he discovers that there's a spy aboard--someone who doesn't necessarily act in the company's best interests. For Dorian, this is the most unforgivable of sins. When found, the perpetrator will be eliminated with extreme prejudice. If unmasked, though, this person may be forced to destroy the entire station... and everyone on board. That is, if the Xenomorphs don't do the job first...

Aliens Original Comic Series Nightmare A Mark Verheiden, 2017-04-25 In 1986, James Cameron's *Aliens* brought to theaters the horrors of a new kind of war against a terrifying enemy. Long before *Alien3* was even a glint in director David Fincher's eye, Dark Horse Comics was already crafting a terrifying post-*Aliens* continuity for Ripley, Hicks, and Newt. Earth is overrun by xenomorphs with no hope of saving it for humanity. But Ripley has a plan to capture a 'Queen Mother' - a super queen that rules multiple nests - and bring it back to Earth. There the Queen Mother will command the xenomorphs to gather where they can all be destroyed by nuclear bombs.

Aliens and Us Are We Prepared Yet? Vikas Gupta, 2010-04-23 The subject of aliens is not a new one and has been around for a really long time now. We talk about it all the time. News and articles about the possibility of alien visits or attacks are everywhere. Perhaps this has become so common that people have started to shrug it off, thinking this is just one of those science fiction topics that media loves to sensationalize. If all of a sudden we have an alien encounter one day, are we psychologically prepared for this? Like many of you even I think we are not. In fact we might be in a state of shock as they might turn out to be completely different from any of our imaginations about them. But if we are prepared for anything, then such an alien encounter might not be shocking. The objective of this book is to prepare its readers psychologically to deal with the subject of aliens and the first alien encounter. In other words aiming to prepare humanity with the cope of a possible shock upon an impending alien encounter. There are a lot of mysteries in this world that might have some paranormal behavior associated to them, but they are kind of scattered and appear here and there. In other words although these mysteries have been documented well enough by a lot of people from time to time, but they do not appear related. This book attempts to bring together these mysteries and relate them with one possible explanation that is common, the alien connection. Also it is trying to bring this subject out from the confines of a circle of scientists, subject experts and enthusiasts to a common person. So this book is for a common man by a common man.

Ancient Aliens on the Moon Mike Bara, 2012-03-27 Best-selling author and Secret Space Program researcher Bara brings us this lavishly-illustrated volume on alien structures on the Moon. He looks into the history of lunar anomalies and the early NASA programs. He gives us an examination of ruins on the Moon in the Sinus Medii region using images from the Surveyor, Lunar Orbiter and Ranger missions. He looks at the Apollo lunar missions to the Moon and the photographic evidence supporting the theory that transparent domes exist at the edge of craters on the orb. Did the domes encompass settlements of humans or other beings who lived there? He looks at further anomalies in the Mare Crisium region, including the hexagonal shape of the Crisium region itself. In this area, domes over the craters resemble watch-crystals. See the evidence in pictures of Cleomedes F and Cleomedes F/a, and an historical image of a giant shard of transparent material that was whitewashed from later versions of the same image. Bara discusses the popular theory that the film "2001 –A Space Odyssey" was used as a training ground for Stanley Kubrick to develop the technology to fake the footage of the moon landings. He also explores the curious mission of Apollo 17-possibly a technology salvage mission, primarily concerned with investigating an opening into a massive hexagonal ruin near the landing site. Bara details how the astronauts managed to get nearly 30 minutes of "off camera" time to investigate an entrance into the ruin and then later proceeded to a nearby crater to retrieve technological objects. He examines evidence from the Russian Zond series of lunar probes, as well as the more current Clementine and Lunar Reconnaissance Orbiter data, including an in-depth study of strange objects in Tycho crater. Also included: a look at the current politics of the new race to return to the Moon and what hidden agendas may be behind it. Finally, Bara looks at the various arguments that the entire Moon is an artificial object. Bara shows how the Moon would have been an ideal place for an alien species involved in genetic experimentation on Earth to have set up a base. 292 Pages. 6x9 Paperback. Illustrated. The Trouble with Aliens Christopher Anvil, 2006 Humans on the space frontiers may have enough problems with befuddled bureaucrats, rules that don't fit the realities of very dangerous situations, and general rear-echelon incompetence without bringing in unfriendly aliens, but it's that kind of universe.

Aliens Alan Dean Foster, 1986 Having survived one encounter with an alien, Ripley is persuaded to return to the planet where her crew found the alien ship. A colony has been established there, but suddenly all contact with the settlers has been lost. Accompanied by marines, Ripley is going to find out why.
