Aliens & Alien Societies Stanley Schmidt,2011-05-30 There are more things in heaven and earth, Horatio, than are dreamt of in your philosophy. - Hamlet, William Shakespeare Stanley Schmidt guides you toward a better understanding of our universe to create beings who will live in your science fiction. *Aliens and Alien Societies* explains science to help you make your fiction plausible. You'll avoid bringing characters from solar systems unlikely to support life. Discover the galaxy's vastness and imagine the technology needed to cross it. Put biochemistry on your side to put viable creatures on your pages. Learn how engineering shapes life and why this suggests that intelligent inhabitants of other planets might have similarities to humans. Develop well-founded cultures and logical languages. Introduce aliens to people or other aliens. Portray them as individuals, true to their species. In this book, possibilities abound and lines between knowledge and conjecture blur enthrallingly. *Aliens and Alien Societies* is thoughtful, clear and utterly fascinating. It is filled with facts to help you write believable fictions about the things in heaven and earth.

Portia Summers,Dana Meachen Rau,2016-12-15 Information about aliens and UFOs is presented through historical accounts and personal experiences, as well as possible scientific explanations. Vivid images and a colorful design will keep even reluctant readers interested, while a glossary strengthens vocabulary. Then, readers can decide for themselves based on the evidence presented.

Aliens Jim Al-Khalili,2017-05-09 Originally published in Great Britain by Profile Books Ltd, 2016.

Aliens Adored Susan J. Palmer,2004 *Aliens Adored* is the first full length, in-depth look at the Raëlian movement, a fascinating new religion founded in the 1970s by the charismatic prophet, Raël. Born in France as Claude Vorilhon, the former race-car driver founded the religion after he experienced a visitation from the aliens (the *elohim*) who, in his cosmology, created humans by cloning themselves. This pioneering study provides a thorough analysis of the movement, focusing on issues of sexuality, millenarianism, and the impact of the scientific worldview on religion and the environment. Raël's radical sexual ethics, his gnostic anthropocentrism, and shallow ecotheology offer us a mirror

through which we see how our worldview has been shaped by the forces of globalization, postmodernism, and secular humanism.

UFOs, Chemtrails, and Aliens Donald R. Prothero, Timothy D. Callahan, 2017-08-10 UFOs. Aliens. Strange crop circles. Giant figures scratched in the desert surface along the coast of Peru. The amazing alignment of the pyramids. Strange lines of clouds in the sky. The paranormal is alive and well in the American cultural landscape. In *UFOs, Chemtrails, and Aliens*, Donald R. Prothero and Tim Callahan explore why such demonstrably false beliefs thrive despite decades of education and scientific debunking. Employing the ground rules of science and the standards of scientific evidence, Prothero and Callahan discuss a wide range of topics including the reliability of eyewitness testimony, psychological research into why people want to believe in aliens and UFOs, and the role conspiratorial thinking plays in UFO culture. They examine a variety of UFO sightings and describe the standards of evidence used to determine whether UFOs are actual alien spacecraft. Finally, they consider our views of aliens and the strong cultural signals that provide the shapes and behaviors of these beings. While their approach is firmly based in science, Prothero and Callahan also share their personal experiences of Area 51, Roswell, and other legendary sites, creating a narrative that is sure to engross both skeptics and believers.

Grey Aliens and the Harvesting of Souls Nigel Kerner, 2010-01-19 Exposes the agenda behind the bio-robotic grey aliens' genetic manipulation of certain human races • Reveals the Grey's nature as sophisticated self-aware machines created by a long vanished extraterrestrial civilization • Explains how their quest to capture human souls appears in the historical record from biblical times • Explains how the phenomenon of racism is a by-product of their genetic tampering In 1997 Nigel Kerner first introduced the notion of aliens known as Greys coming to Earth, explaining that Greys are sophisticated biological robots created by an extraterrestrial civilization they have long since outlived. In this new book Kerner reveals that the Greys are seeking to master death by obtaining something humans possess that they do not: souls. Through the manipulation of human DNA, these aliens hope to create their own souls and, thereby, escape the entropic grip of the material universe in favor of the timeless realm of spirit. Kerner explains that genetic manipulation by the Greys has occurred since biblical times and has led to numerous negative qualities that plague humanity, such as violence, greed, and maliciousness. Racism, he contends, was developed by the aliens to prevent their genetic experiments from being compromised by breeding with others outside their influence. Examining historical records, Kerner shows that Jesus, who represented an uncorrupted genetic line, warned his

disciples about the threat posed by these alien interlopers, while Hitler, a pure product of this alien intelligence, waged genocide in an attempt to rid Earth of all those untouched by this genetic tampering. Despite the powerful grip the Greys have on humanity, Kerner says that all hope is not lost. Greys exist wholly in the material world, so if we follow the spiritual laws of reincarnation and karma, aiming for enlightenment and rising above the material--a state the Greys are unable to reach--we can free ourselves from their grasp.

Checkmating Aliens Soma Vira,2000 Has the corrupted alien captain coverted Operation Earth Shield to Operation Kill Earth? The Doomsday question confronting both: humans living on man-made islands due to water-logged earth land erosion; and, the alien planet's rulers who had sent their navy

Another dilemma: What's the connection between this crisis and the alien children growing up as humans, who were secretly planted on earth by unknown beings for reasons not yet discovered? And, what about those mysterious blue-skinned species being who reveal themselves only to these homo-alien children? Will the truant captain controlling the fate of two planets win?

Thrown together in the last hellish night of an Alien invasion of a far-flung colony outpost, Billie and Wilks fought together to survive. Thirteen years later, Wilks is in prison and Billie lives in a mental institution, the nightmare memories of the massacre at Rim seared into her mind. Now the pair get a chance to be reunited, to return to that outpost where it all happened, to finally end the business between themselves ... and the Alien monsters that altered their destinies and destroyed their dreams--Page [iv] of cover, vol. 1.

#5 Alien Contact Pamela F. Service, 2010-09-01 Most humans know that scientists are combing outer space for evidence of intelligent life in the universe. And most aliens know that the Galactic Union has been diligently jamming those efforts until Earth is ready to join. A small group of aliens has other ideas, though. They plan on sending humans fake messages as part of a plan for world domination. Only one human can stop them? Zack Gaither, Alien Agent. Zack will have to use all he's learned in his previous adventures to save Earth from the Gnairt. Fortunately, he's got some help this time. And she's kinda cute...

Humanity's arrogance and greed have helped the Alien plague spread, and now men and women must step forward to ensure that the future of the galaxy does not become the age of the Alien! * Featuring the talents of Mark Schultz, Chuck Dixon, Ian Edginton, Doug Wheatley, Gene Colan, Phil Hester, Eduardo Risso, and many more. * Collects Apocalypse, Xenogenesis #1 - 4, Head Hunters, Tourist Season, Aliens: Pig, Border Lines, the Aliens: Special, Purge, Glass Corridor, Stalker, Wraith, and Once in a Lifetime

Aliens Damon Wilson,1997 From space aliens, to Tibetan Yeti, to the Caribbean chupacabra (or goatsucker), strange beings appear to surround us. Every year, hundreds of people tell of confronting Bigfoot, the West Virginia Mothman, or the Australian Bunlyp. After you read these accounts of shape-shifting ethereal organisms, cattle mutilation, and crop circles, you'll wonder if storytellers from the past were just making it up...or accurately describing what we're seeing today.

Aliens Judith Herbst,2009-02 Discusses the phemonena of alien-human encounters which are claimed by so many people. Has Earth really been visited by people from outer space? This book attempts to unreavel some of the mystery. It includes a chapter on hypnosis.

Aliens: The Essential Comics Volume 1 Mark Verheiden,2018-11-06 These are the comics stories that kept fear alive. Since 1988, whether there was an Alien film on the horizon or not, Dark Horse Comics delivered scares that audiences demanded. From the depths of space, to bizarre alien worlds, and even to surface of our own dear Earth, in the pages of comic books there were dozens of sequels and spinoffs to the films, as well as original stories that carried the monsters and the mythos to new heights. These are the Aliens Essential Comics--stories which have stood the test of time . . . and kept readers awake at night. In this first volume is the initial Aliens trilogy--Outbreak, Nightmare Asylum, and Earth War, in which Hicks and Newt--and eventually Ripley--join forces to battle an infestation of Aliens both on Earth and in the wider galaxy (all of these stories were written before the film Alien3 chronicled the deaths of the heroes of Aliens). Written by Mark Verheiden (who went on to write The Mask, Timecop, Battlestar Galactica, Daredevil, and many other films and television shows), and

beautifully illustrated by Mark A. Nelson, Den Beauvais, and Sam Kieth, these stories are the perfect starting point for readers new to the Aliens mythos, and a volume to be treasured by longtime fans.
