Middle Eastern Diasporas and Political Communication Ehab Galal, Mostafa Shehata, Claus Valling Pedersen, 2023-08-14 This edited book explores the development and reconfiguration of Middle Eastern diasporic communities in the West in the context of increased political turmoil, civil war, new authoritarianism, and severe constraints on media in the Middle East. Taking an interdisciplinary approach, incorporating political and intercultural communication, the contributors investigate the rationale for diasporic politics, as well as the role of the transnational media in shaping diasporic political mobilization. This analysis of the media, situated within specific case studies, encompassing Afghani, Armenian, Bahraini, Egyptian, Lebanese, Syrian, Tunisian, and Turkish diasporic communities, reveals the variegated ways it influences diasporic politics and facilitates political action, as well as its influence on democratic actors residing in the Middle East. These new insights into Middle Eastern diasporas, political communication, and political mobilization are based on developments in the Middle East since 2011, and ultimately highlight how diaspora groups in the West relate to the situation in the Middle East, particularly in their countries of origin. The book is important reading for students and researchers working in political/intercultural communication and diasporic politics, as well as those with a general interest in the Middle East.

Arab Digital Journalism Noha Mellor, 2022-11-30 Responding to urgent calls to de-westernise Media and Journalism Studies and shed light on local agencies, this book examines digital journalistic practices in the Arab region, exploring how Arab journalists understand their roles and how digital technologies in Arab newsrooms are used to influence public opinion. Drawing on dozens of articles penned by Arab media professionals and scholars, supplemented with informal conversations with journalists, this book reviews the historical development of digital journalism in the region and individual journalists' perceptions of this development. While technology has provided a new platform for citizens and powerful agents to exchange views, this text examines how it has simultaneously allowed Arab states and authorities to conduct surveillance on journalists, curtail the rise of citizen journalism, and maintain offline hierarchical forms of political, economic, and cultural powers. Mellor also explores how digital technology serves to cement Western hegemony of the information world order, with Arab media organisations and audiences judged to be mere recipients, rather than producers, of such information. Arab Digital Journalism offers an important contribution to the emerging field of digital journalism in the Global South and is a valuable resource for students and researchers interested in media, journalism, communication, and development studies.

The Migration Mobile Vasilis Galis, Martin Bak Jørgensen, Marie Sandberg, 2022-07-18 The Migration Mobile explores how governments use technology to control borders, and how migrants use technology to circumvent, challenge, and reconfigure that same border apparatus. The book investigates these issues through empirical examples drawn from across Europe, including cases from Greece, the Austrian-Italian border, and Northern Europe.

Holy White Lies Sameh Egyptson, 2018-10-28 The White Lie is a translation for a fatwa in Arabic, Al-Kedhb al-Abyad, issued by theologian Yusuf al-Qaradawi, chairman for The European Council for Fatwa and Research (ECFR). Al-Qaradawi and his companions are part of one of the biggest movements in the world, The Muslim Brotherhood. The book presents extensive research in the Muslim Brotherhood sources to understand the ideology and strategies of the movement from the most important primary sources and how it uses White Lies to reach the aim of their strategies. It also shows examples of the application of these strategies in the West with a documented study in Sweden, where the author relied on the documents of the archives of Swedish government institutions. The book contains over 800 footnotes. The Muslim Brotherhood has, according to one of the most prominent leaders in the movement, Youssef Nada, more than 100 million members all over the world. It is a controversial movement since they have managed to advance all the way to governmental positions in many Muslim countries and they have official and unofficial relations with many politicians and religious authorities all over the world. At the same time, it is singled out as one of the biggest greenhouses for terror organizations and terrorists. Published with aid from Swedish Culture Center (Cairo) First Edition at Dar El Maaref Publishing House (Cairo) 2018 ISBN: 789-977-02-8480-4

BOSÄTTNINGEN Sameh Egyptson, 2021-09-29 År 2018 kom Sameh Egyptsons uppmärksammade bok, "Holy White Lies -The Muslim Brotherhood in the West – Case Sweden", ut på arabiska och engelska. Muslimska Brödrskapet är den främsta företrädaren för och ideologiska källan till den politiska ideologin islamismen. Första delen av översättningen heter Erövringen (2020) och handlar om hur Muslimska Brödrskapet framställer sig som ett religiöst samfund samtidigt som de försöker ta sig in i partier och erövra positioner på den svenska politiska arenan. Andra delen, som alltså precis har färdigställts, heter Bosättningen (2021) och handlar om Muslimska Brödrskapets organisation och dess vision om att skapa ett parallellsamhälle i Sverige. De två svenska böckerna ska överlämnas till alla riksdagsledamöter inom kort. Sameh Egyptson har gjort ett grundligt arbete. De båda böckerna innehåller tillsammans drygt 1 200 fotnoter med hänvisningar till nytt källmaterial framför allt på arabiska, Egyptsons modersmål. Många islamforskare i Sverige och Europa saknar paradoxalt nog kunskaper i arabiska. Egyptson var innan han flyttade till Sverige politiskt aktiv i Egypten, även under arabiska våren i Kairo, och kan därför betrakta, förstå och bedöma Brödrskapet bättre än många andra. Han presenterar en mer kritisk, genomskådande berättelse och lägger fram ett demokratiskt alternativt till dialog med islamister. Boken klargör bland annat: – Filialen i Sverige.

Islamiska förbundet i Sverige med sina dotterorganisationer har nära relationer till Muslimska Brödraskapets internationella nätverk, både ideologiskt och organisatoriskt. Nätverket är hierarkiskt uppbyggt men förutsätter lydnad såväl mot den nationella som den internationella ledningen. – Inrättandet av en islamisk ordning. Islamiska förbundet har inte övergett rörelsens grundläggande mål, det vill säga att inrätta ”en islamisk ordning” även i Europa och Sverige, ett samhälle uppbyggt utifrån islamiska principer och islamisk lag (sharia), där även det politiska livet anpassas till denna ordning. Men arbetet för att uppnå detta mål måste ske gradvis och långsiktigt, inte genom våldsam revolution, utan med en flexibel anpassning till situationen i olika länder. – Principen om ”dubbla budskap”. Islamiska förbundet döljer medvetet sin egentliga ideologi och sina grundläggande mål. Man framställer sig som en opolitisk, social och religiös rörelse. Man vill inte kallas ”islamist” eller sägas tillämpa ”politisk islam”. Denna taktik att förstå sig är något som utvecklats under många decennier och har sitt ursprung i begreppet taqiyya, ”vita lögnen”, inom islamisk tradition. – Antalet medlemmar. En framstående avhoppare från Islamiska förbundet i Sverige, år 2013, hävdade att antalet medlemmar i Islamiska förbundet var cirka 200. Efter noggranna undersökningar har Egyptson kommit fram till att den inre cirkeln som kontrollerar nätverket av styrelser inte uppgår till mer än 20 personer, och dessutom i en inre struktur av hierarki och nepotism med lydnad mot ledningen och de äldre. De två svenska böckernas uppdatering av fakta under översättningsarbetet har visat att sparade medel från allmänna medel inom verksamheten nu uppgår till över 250 miljoner SEK. Några få grenar erhåller tilldelning av allmänna medel och tre av förbundets organisationer har under de senaste tre åren ökat sin bidragssumma med över 40% till 618 miljoner SEK. Muslimska Brödraskapet har lyckats på grund av allmän okunskap och Sveriges generösa bidragssystem. Bosättningen är ett måste. för politiker, forskare, journalister och medborgare.

Online Journalism in Africa Hayes Mawindi Mabweazara,Okoth Fred Mudhai,Jason Whittaker,2014-01-21 Very little is known about how African journalists are forging new ways to practise their profession on the web. Against this backdrop, this volume provides contextually rooted discussions of trends, practices, and emerging cultures of web-based journalism(s) across the continent, offering a comprehensive research tool that can both stand the test of time as well as offer researchers (particularly those in the economically developed Global North) models for cross-cultural comparative research. The essays here deploy either a wide range of evidence or adopt a case-study approach to engage with contemporary developments in African online journalism. This book thus makes up for the gap in cross-cultural studies that seek to understand online journalism in all its complexities.
Representations and Othering in Discourse Beyza Ç. Tekin,2010-11-11 This volume examines the construction of Turkey's possible European Union accession in French political discourse. In today's France, heated debates regarding Turkey's EU membership are turning into an essential part of European identity formation. Once again, the 'Turkish Other' functions as a mirror for defining not only the 'European Self', but also European values. By providing a genuine and multi-disciplinary approach for studying the Otherness attributed to Turkey, this book contributes to our understanding of the Self/Other nexus in International Relations. Within a Critical Discourse Analysis framework, this study explores the socio-historical basis of the construction of Turkey's Otherness in an attempt to identify the processes through which past memories, representations, images and fantasies regarding Turkey are inserted into the French social imaginary. Focusing on these significations, which are (re)produced and become manifest through language, this book strives to uncover the link between discourse and political action.
