A Van Beuren Production Hal Erickson,2020-10-01 Prolific American film producer Amedee J. Van Beuren (1879-1938) did not start out in the film industry. After a decade spent in business and advertising, Van Beuren turned his intellect and creativity towards acquiring a foothold in film and began building his empire. He is best known to animation fans for his bizarre cartoons of the 1920s and 1930s, featuring such zanies as Molly Moo Cow, Cubby Bear and Tom and Jerry (not the cat-and-mouse duo). But the majority of the 1,499 films produced by Van Beuren between 1918 and 1937 were live-action short subjects--travelogues, comedies, musicals, sports reels and more. His roster of star performers included Bert Lahr, Shemp Howard, Ethel Waters and (indirectly) Charlie Chaplin. Van Beuren also made several feature films starring legendary big-game hunter Frank Buck, and a 12-episode serial headlining horror icon Lon Chaney, Jr. Capped by a complete list of his films, this engrossing chronicle of Amedee Van Beuren's vast output is the first all-inclusive history of one of moviedom's most successful and least-known filmmakers.

Supernaturally Lost - TV-series as a modern form of narrative Rouven Dirb,2011-11-28 Bachelor Thesis from the year 2011 in the subject English Language and Literature Studies - Other, grade: 2,0, Technical University of Darmstadt (Institut für Sprach- und Literaturwissenschaft), language: English, abstract: Tales and narratives have appeared in different forms since the birth of mankind. It has all started with ancient cave paintings that have told stories to those who have found them. The next step has been the writing on stones, like the ten commandments of the holy Bible. The writing on paper has been a progression to the writing on stones and has until today become the most popular form of narrating and telling stories. During the last century, however, a new form of providing an audience with narratives has slowly arose, which has, until today, managed to become quite a competition to books: films and TV-series. While books are still the most popular medium for telling stories, TV-series and films have managed to create a steadily growing niche. This new possibility of telling stories with actors, sound, music and special effects has become more and more popular. While films always have to hope for a sequel, which depends on the gross the film has made, TV-series can and must focus on a narrative sequence from the beginning. It all starts and ends with seriality.

Terrorism TV Stacy Takacs, 2012-04-30 The Fox-TV series 24 might have been in production long before its premier just two months after 9/11, but its storyline—and that of many other television programs—has since become inextricably embedded in the nation's popular consciousness. This book marks the first comprehensive survey and analysis of War on Terror themes in post-9/11 American television, critiquing those shows that—either blindly or intentionally—supported the Bush administration's security policies. Stacy Takacs focuses on the role of entertainment programming in building a national consensus favoring a War on Terror, taking a close look at programs that comment both directly and allegorically on the post-9/11 world. In show after show, she chillingly illustrates how popular television helped organize public feelings of loss, fear, empathy, and self-love into narratives supportive of a controversial and unprecedented war. Takacs examines a spectrum of program genres—talk shows, reality programs, sitcoms, police procedurals, male melodramas, war narratives—to uncover the recurrent cultural themes that helped convince Americans to invade Afghanistan and Iraq and compromise their own civil liberties. Spanning the past decade of the ongoing conflict, she reviews not only key touchstones of post-9/11 popular culture such as 24, Rescue Me, and Sleeper Cell, but also less remarked-upon but relevant series like JAG, Off to War, Six Feet Under, and Jericho. She also considers voices of dissent that have emerged through satirical offerings like The Daily Show and science fiction series such as Lost and Battlestar Galactica. Takacs dissects how the War on Terror has been broadcast into our living rooms in programs that routinely offer simplistic answers to important questions—Who exactly are we fighting? Why do they hate us?—and she examines the climate of fear and paranoia they've created. Unlike cultural analyses that view the government's courting of Hollywood as a conspiracy to manipulate the masses, her book considers how economic and industry considerations complicate state-media relations throughout the era. Terrorism TV offers fresh insight into how American television directly and indirectly reinforced the Bush administration's security agenda and argues for the continued importance of the medium as a tool of collective identity formation. It is an essential guide to the televisual landscape of American consciousness in the first decade of the twenty-first century.

The New Western Scott F. Stoddart, 2016-02-19 American moviegoers have long turned to the Hollywood Western for reassurance in times of crisis. During the genre's heyday, the films of John Ford, Howard Hawks and Henry Hathaway reflected a grand patriotism that resonated with audiences at

the end of World War II. The tried-and-true Western was questioned by Ford and George Stevens during the Cold War, and in the 1960s directors like Sam Peckinpah and George Roy Hill retooled the genre as a commentary on American ethics during the Vietnam War. Between the mid-1970s and early 1990s, the Western faded from view--until the Gulf War, when Kevin Costner's *Dances with Wolves* (1990) and Clint Eastwood's *Unforgiven* (1992) brought it back, with moral complexities. Since 9/11, the Western has seen a resurgence, blending its patriotic narrative with criticism of America's place in the global community. Exploring such films as *True Grit* (2010) and *Brokeback Mountain* (2005), along with television series like *Deadwood* and *Firefly*, this collection of new essays explores how the Western today captures the dichotomy of our times and remains important to the American psyche.

Adapting Gaskell Loredana Salis,2014-02-28 “This book offers a range of perspectives on Elizabeth Gaskell and adaptation. The contributors – Alan Shelston, Raffaella Antinucci, Thomas Recchio, Brenda McKay, Katherine Byrne, Patricia Marchesi, Marcia Marchesi and Loredana Salis – discuss the afterlives of Gaskell’s fiction, from the author as adaptor of her own work to the role of the BBC in re-inventing Gaskell’s narratives. Loredana Salis is to be congratulated for bringing together a collection that tackles the remediation of Gaskell’s fiction from Gaskell’s own time to the 21st century, enabling her to join those authors, most prominently, Shakespeare, Austen and Dickens, who have received full-length book studies on adaptations of their work. The collection, as a whole, seems to confirm the notion that since the inception of film, the number of adaptations of an author’s work equates to the writer’s canonical status. No doubt, this book will prompt many more investigations into the adaptability of Elizabeth Gaskell’s fiction.” – Deborah Cartmell, De Montfort University, Leicester

Lectionary Worship Workbook, Series II, Cycle C Wayne H. Keller,2000-06 The most impressive thing about Wayne Keller's body of ideas for worship throughout the Christian Year is his boldness. He is bold in demanding that we, his colleagues in liturgical leadership, plan worship that has to do with the reality of our congregations' experience in the world, rather than just leading people through a proper agenda of acts and words that have no bearing on what we do the rest of the week. He is bold in challenging us to bring that real world -- with its pains and its pleasures, its hungers and its

feasts, its beauty and its ugliness -- to exposure before the living God. And he is bold in helping us shine the strong, exposing light of the transforming Word on our real lives and on that real world, so that we may move beyond planning worship as a nice, safe, feel-good routine from which we depart the same people we were when we arrived. We are thrilled by the seriousness and authentic reverence with which this author approaches the planning of worship. Thank God for Wayne Keller and for his deep respect for the central act of the Christian community: the blessed and life-transforming experience of the worship of God. Richard Avery and Donald Marsh Port Jervis, New York Wayne Keller's method creates not only a contemporary appeal, but also effects a congregational involvement so necessary today within the liturgical context. His approach is fresh and practical and yet a reflection consistently of a solid liturgical and homiletical background. Keller has the ability to appeal to the everydayness of congregational experience. Donald Macleod Francis L. Patton Professor Emeritus Princeton Theological Seminary The good humor of Wayne Keller's work helps us feel at home in our imperfect world and feel more empathy for the rough edges of others and ourselves. Wayne's work encourages hope and faith with the way we are. Doug Adams Professor of Christianity and the Arts Pacific School of Religion and Graduate Theological Union A cascade of insights, ideas, suggestions, and plans for stimulating the working pastor's imagination and guiding in worship planning. Robert Coote Professor, San Francisco Theological Seminary Editor, Mustard-Seed Churches Wayne Keller elevates us to an authentic bring-your-warts-and-smiles encounter with the living God... a remarkable year-round resource for the entire worship team. Paul Hackett Former pastor and member, First Presbyterian Church Puyallup, Washington Keller says, I have seen people bored to death in worship, seemingly because they come to worship as spectators, not as participants. For me no spectators are allowed! Soren Kierkegaard's analogy of worship as drama has guided my thinking and planning. Wayne H. Keller graduated from Monmouth College in Monmouth, Illinois, and Pittsburgh Theological Seminary. He has served pastorates in Pennsylvania, Washington, and Oregon, and has also been the director of a halfway house for recovering mental patients. A member of the Presbyterian Writers Guild, Keller has published several books and numerous articles, and has been a columnist for the Bellingham Herald. He has also appeared frequently on radio and television programs and co-hosted a call-in counseling program and talk show.

Has Hollywood Lost Its Mind? Chris Hicks,2013-05-01 The wire-thin line that separates movies rated PG and R has been crossed over so many times in both directions that industry observers are questioning whether the rating system carries any validity at all. As a movie reviewer for more than thirty years and as a watchful, caretaker parent, author Chris Hicks learned pretty quickly that Hollywood movers and shakers like to “push the envelope,” as they put it, and it doesn’t seem to matter whether it’s a children’s film or an adult movie. It’s not just R-rated movies that are troubling. PG-13s and even PGs can also be problematic. And sometimes worse than problematic. Simply put, relying on the Motion Picture Association of America to make choices for you or your children is a mistake. Breaking down the history of the film rating system and exploring today’s ratings confusion and quagmire, Hicks provides valuable information to help parents know how to interpret and what to expect from today’s movies.

Myth-Building in Modern Media A.J. Black,2020-06-18 Mythology for centuries has served as humanity's window into understanding its distant past. In our modern world, storytelling creates its own myths and legends, in media ranging from the world of television and cinema to literature and comic

books, that help us make sense of the world we live in today. What is the Mytharc? How did it arise? How does it inform modern long-form storytelling? How does the classical hero's journey intersect with modern myths and narratives? And where might the storytelling of tomorrow take readers and viewers as we imagine our future? From The X-Files to H.P. Lovecraft, from Lost to the Marvel cinematic universe and many worlds beyond, this study explores our modern storytelling mythology and where it may lead us.

Grey Game Theory and Its Applications in Economic Decision-Making Zhigeng Fang,Sifeng Liu,Hongxing Shi,Yi Lin,2016-04-19 To make the best decisions, you need the best information. However, because most issues in game theory are grey, nearly all recent research has been carried out using a simplified method that considers grey systems as white ones. This often results in a forecasting function that is far from satisfactory when applied to many real situations. Grey Game Theory and Its Applications in Economic Decision Making introduces classic game theory into the realm of grey system theory with limited knowledge. The book resolves three theoretical issues: A game equilibrium of grey game A reasonable explanation for the equilibrium of a grey matrix of static nonmatrix game issues based on incomplete information The Centipede Game paradox, which has puzzled theory circles for a long time and greatly enriched and developed the core methods of subgame Nash perfect equilibrium analysis as a result The book establishes a grey matrix game model based on pure and mixed strategies. The author proposes the concepts of grey saddle points, grey mixed strategy solutions, and their corresponding structures and also puts forward the models and methods of risk measurement and evaluation of optimal grey strategies. He raises and solves the problems of grey matrix games. The book includes definitions of the test rules of information distortion experienced during calculation, the

design of tokens based on new interval grey numbers, and new arithmetic laws to manipulate grey numbers. These features combine to provide a practical and efficient tool for forecasting real-life economic problems.
