The Cultural Politics of Jazz Collectives Nicholas Gebhardt, Tony Whyton, 2015-03-05 The Cultural Politics of Jazz Collectives: This Is Our Music documents the emergence of collective movements in jazz and improvised music. Jazz history is most often portrayed as a site for individual expression and revolves around the celebration of iconic figures, while the networks and collaborations that enable the music to maintain and sustain its cultural status are surprisingly under-investigated. This collection explores the history of musician-led collectives and the ways in which they offer a powerful counter-model for rethinking jazz practices in the post-war period. It includes studies of groups including the New York Musicians Organization, Sweden's Ett minne för livet, Wonderbrass from South Wales, the contemporary Dutch jazz-hip hop scene, and Austria's JazzWerkstatt. With an international list of contributors and examples from Europe and the United States, these twelve essays and case studies examine issues of shared aesthetic vision, socioeconomic and political factors, local education, and cultural values among improvising musicians.

Alley Life in Washington James Borchert, 2023-02-03 Forgotten today, established Black communities once existed in the alleyways of Washington, D.C., even in neighborhoods as familiar as Capitol Hill and Foggy Bottom. James Borchert's study delves into the lives and folkways of the largely alley dwellers and how their communities changed from before the Civil War, to the late 1890s era when almost 20,000 people lived in alley houses, to the effects of reform and gentrification in the mid-twentieth century.

Race Against Liberalism David M. Lewis-Colman, 2008 Race against Liberalism: Black Workers and the UAW in Detroit examines how black workers' activism in Detroit shaped the racial politics of the labor movement and the white working class. Tracing substantive, longstanding disagreements between liberals and black workers who embraced autonomous race-based action, David M. Lewis-Colman shows how black autoworkers placed themselves at the center of Detroit's working-class politics and sought to forge a kind of working-class unity that accommodated their interests as African Americans. This chronicle of the black labor movement in Detroit begins with the independent caucuses in the 1940s and the Trade Union Leadership Council in the 1950s, in which black workers' workplace activism crossed over into civic unionism, challenging the racial structure of the city's neighborhoods, leisure spaces, politics, and schools. By the mid-1960s, a full-blown black power movement had emerged in Detroit, and in 1968 black workers organized nationalist Revolutionary Union Movements inside the auto plants, advocating a complete break from the labor establishment. By the 1970s, the tradition of independent race-based activism among Detroit's autoworkers continued to shape the politics of the city as Coleman Young became the city's first black mayor in 1973.

Auto Racing Comes of Age Robert Dick, 2013-05-03 The first quarter of the 20th century was a time of dramatic change in auto racing, marked by the move from the horseless carriage to the supercharged Grand Prix racer, from the gentleman driver to the well-publicized professional, and from the dusty road course to the autodrome. This history of the evolution of European and American auto racing from 1900 to 1925 examines transatlantic influences, early dirt track racing, and the birth of the twin-cam engine and the straight-eight. It also explores the origins of the Bennett and Vanderbilt races, the early career of "America's Speed King" Barney Oldfield, the rise of the speedway specials from Marmon, Mercer, Stutz and Duesenberg, and developments from Peugeot, Delage, Ballot, Fiat, and Bugatti. This informative work provides welcome insight into a defining period in motorsports.

Hermes on Two Wheels Kevin Wehr,2009-09-28 This book shows the dynamic world of the bicycle messenger through a sociological lens, based on a five-year participant observation study. The research shows how messengers work within a political-economic system that devalues semi-skilled labor and strips people of emotional fulfillment.

Racing in the Street June Skinner Sawyers,2004-04-06 For more than three decades, Bruce Springsteen’s ability to express in words and music the deepest hopes, fears, loves, and sorrows of average Americans has made him a hero to his millions of devoted fans. *Racing in the Street* is the first comprehensive collection of writings about Springsteen, featuring the most insightful, revealing, famous, and infamous articles, interviews, reviews, and other writings. This nostalgic journey through the career of a rock-’n’-roll legend chronicles every album and each stage of Springsteen’s career. It’s all here—Dave Marsh’s Rolling Stone review of Springsteen’s ten sold-out Bottom Line shows in 1975 in New York City, Jay Cocks’s and Maureen Orth’s dueling Time and Newsweek cover stories, George Will’s gross misinterpretation of Springsteen’s message on his Born in the USA tour, and Will Percy’s 1999 interview for Double Take, plus much, much more.
