Bird Land J. M. White,2017-06-26 They had been in space a long time. They had examined every planet within their trajectory as ordered. There had been six planets in their path that they examined as possible sites for colonization and a nebula off in the distance. The nebula was very beautiful, kind of purple and dark blue. But, their orders were not to examine nebulas, but to find a class M planet that could be adaptable to humans. This was definitely a class M planet all the readings were perfect. But, with all the experts on board no one could find the source of the intelligence it took to make these amazing gardens that circled the planet. Some fairly large birds had been seen. But, there were no land animals with brains large enough to make these gardens. They had to be gardens, gardens with uniformed rows of growing crops. There were uniformed rows of trees as well and lines of shrubs or hedge which divided the garden areas. This planet was placed between three suns just right so as to have one side always warm. The temperature was around 70 to 80 degrees and at night near 50 degrees. The suns were orbiting in a slightly arched line with this small planet. The planet and its two moons orbited around the larger sun. The smaller suns being further away gave little light and a small amount of warmth just enough so the other sides of the planet were not in total darkness at any time. It had water and oxygen, breathable oxygen that meant no suits or helmets. This planet was just what they were looking for. It was a small green pearl in the vast darkness of space.

Dating for Dads Ellie Slott Fisher,Paul D. Halpern,2008-01-29 Here is the first book written specifically for men who date while answering to a higher authority: their children. As a single father, you're ready to begin dating again. But are your kids ready? In this much-needed guide, relationship expert Ellie Slott Fisher comes to the rescue with no-nonsense, no-judgments advice on everything from how to ask a woman out to navigating the potential minefield of overnight dates. Single dads are as nervous as single moms about merging their parental responsibilities with their social lives, but they often don't have intimate friendships in which to share their concerns. Drawing on her own experience as a single parent, interviews and surveys she conducted with more than a hundred single fathers and their children, and the advice of family therapist Dr. Paul Halpern, Fisher gives the lowdown on a range of tricky topics, including: •When do I introduce my kids to the woman I'm dating? •What if they don't like her? •Is it acceptable to date someone closer to my child's age than my own? •Are sleepovers okay when my kids—or her kids—are home? •How do I give my children the reassurance they need while pursuing a social life of my own? Plus, how to avoid one of the biggest dating pitfalls: mistaking lust for love. From dealing with your ex-spouse to protecting your children's inheritance, and many issues in-between, Fisher gives single fathers the tools they need to be both sexy suitors and devoted dads.

And now I finally feel like I am living. 17-year-old Lewis Hine is a global phenomenon. Diagnosed with a life-threatening brain tumour and water on the brain at 17 months, he wasn't expected to survive. But Lewis proved everyone wrong; he's not only surviving but thriving. In his memoir, Lewis reaches out to anyone who may feel isolated in their lives. After 13 brain surgeries and continual health problems, life for Lewis is a daily challenge. From the sheer physical challenges - he is at high risk of sudden unexpected death in epilepsy (SUDEP) and has a pump in his brain just to keep him alive - to the horrendous bullying he's endured, he shares how he finds the strength to overcome all this and still lead a fun and fulfilling life. Location-Based Services Jochen Schiller,Agnès Voisard,2004-05-21 Location-based services (LBS) are a new concept integrating a user’s geographic location with the general notion of services, such as dialing an emergency number from a cell phone or using a navigation system in a car. Incorporating both mobile communication and spatial data, these applications represent a novel challenge both conceptually and technically. The purpose of this book is to describe, in an accessible fashion, the various concepts underlying mobile location-based services. These range from general application-related ideas to technical aspects. Each chapter starts with a high level of abstraction and drills down to the technical details. Contributors examine each application from all necessary perspectives, namely, requirements, services, data, and scalability. An illustrative example begins early in the book and runs throughout, serving as a reference. · This book defines the LBS field and identifies its capabilities, challenges, and technologies. · The contributors are recognized experts from academia and industry. · Coverage includes navigation systems, middleware, interoperability, standards, and mobile communications. · A sample application, the find-friend application, is used throughout the book to integrate the concepts discussed in each chapter.

Friend-ish Kelly Needham,2019-08-27 For so many of us, our friends are like family members--we lean on them through our highest highs and our lowest lows--but sometimes those friendships don't turn out quite as we hoped. Bible teacher Kelly Needham debunks our world's constricted, narrow view of friendship and casts a richer, more life-giving, biblical vision for friendship. In Friend-ish, Kelly Needham reminds us that we were called to more than halfhearted friendships and lukewarm connections. We need something more stable, secure, and sacred. We were designed for real friendship--but the difficult truth is that too many of us are settling for less. Kelly deconstructs what Scripture says about the gift of friendship and takes a closer look at the distorted view that most of us have instead. As she shares the lessons she's learned from experience, Kelly paints her own glorious vision of what Christian friendship could look like. With hard-fought wisdom, a clear view of Scripture, and a been-there perspective, Friend-ish teaches us how to: Recognize symptoms of idolatry and toxic dependency Boldly ask for what we need from our community of friends Understand and address the problems that arise in friendship--from neediness to discord Recognize when it's time to end an unhealthy friendship Reorient toward the purposeful, loving relationships we all crave that ultimately bring us closer to God Find the friends you need and start to become that friend for others Join Kelly as she challenges you to view your chosen family in a new light, gain a vision of friendship according to Jesus, and finally enjoy friendships as God intended.
