The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

*Corporate Conspiracies* Richard Belzer,David Wayne,2017-05-09 From New York Times bestselling authors Richard Belzer and David Wayne comes a hard look at the wrongs done to us all by big business in America. Here is an explosive account of wrongful acts perpetrated, and the ensuing cover-ups inflicted upon us, by American corporations. The bestselling author team of Richard Belzer and David Wayne exposes the ways that the capitalist regime has got us under their thumbs—from the mainstream media and its control over us, to the trillions stolen by big banks and mortgage companies during the mortgage crisis, to the scams perpetrated by Big Oil and Big Pharma. The one common victim of all that corruption is the American public, and *Corporate Conspiracies* wants to do something about it. *Corporate Conspiracies* takes dead aim at those who take advantage of us little guys. Probably most disturbing is the book's examination of politics and capitalism teaming up against us—how politicians and lobbyists all have their hands in each other's pockets while stabbing us in the back, and how the well-established energy lobby—which is petroleum, natural gas, and coal—has played a dominant role in the shaping of US foreign policy for decades. Did you know that companies at times know that their products will kill people, but they do nothing, because it is actually cheaper to compensate the victims than it is to correct the problem? And did you know that the Pentagon is sending \$1.5 trillion of our tax dollars to their corporate buddies for a new fighter jet that is already superfluous? This book is guaranteed to make us all think

twice about being enslaved and cheated by corporate America. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history-- books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Learning One-to-One Paperback with CD-ROM Ingrid Wisniewska, 2010-08-19 This resource book offers a variety of practical techniques and activities for teachers in one-to-one contexts.

*The Book of Plenary* Phil Beadle, 2013-08-26 You paint an outside wall. It rains. What happens to the paint? It runs off, of course! So it is with our students. We teach them something. We can't be bothered to do the recap, the plenary, as we don't have any ideas. They leave the lesson. They promptly forget what you have taught them. There was no point their being in the lesson in the first place. The world continues turning. This practical little book of plenaries does what it says. It delivers a series of simple ideas for how to make your lesson endings - or mid-lesson recaps - interesting, engaging and cognitively challenging. Apply the ideas in this book and your students will leave the lesson with the information you have taught them still in their heads.
