Guess who Peggy Sirota, 2000 American photographer Peggy Sirota has been shooting celebrities for the last fifteen years. Commissioned by magazines such as Vanity Fair, Italian Vogue, French Vogue, Rolling Stone and GQ, her photographs instinctively draw out her subjects' qualities, capturing them in a unique, playful, and soulful way. Her subjects are never contrived or forced into situations that are not them. Sirota's photographs are real and magical and are never over-stylized to fit into society's obsession with image and appropriated style. *Guess Who?*, Sirota's exciting debut book, is a tongue-in-cheek homage to the seemingly ubiquitous celebrity phenomenon. Sirota asked various celebrities, athletes and musicians to lend their images to benefit AIDS Project Los Angeles. The trick is that these celebrities are in disguise -- captured in a whimsical and spontaneous manner that renders them unrecognizable at first glance. The reader will be teased, challenged and surprised while looking at the photographs, trying to figure out who's who. For *Guess Who?* approximately 180 celebrities play along with Sirota and actually let go of their celebrity identity, creating a visual feast that resounds with wit and humor.

The Complete Guide to Events Management (updated August 2013) Sarah Owen,

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled *The Last Lecture*. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—*Really Achieving Your Childhood Dreams*—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Watching the Wheels Wayne Wood, 2003-07 A collection of wisdom, humor, and tasteless remarks from Vanderbilt University's House Organ magazine: . Every morning when I would leave for work, he would give me the saddest look he could muster. If you know anything about beagles, you know that this is the canine equivalent of the death scene from *Camille*. When a beagle wants to look sad, he can roll his big brown droopy eyes up at you and pull his ears back, and you will do anything to make him happier. In fact, many beagles earn top commissions in the sales field by giving customers that sad look until they crack and buy whatever the beagle is selling. I'll buy anything, the customers cry, throwing money at the beagle, just stop looking at me like that! . The voice-

mail mantra, Your call is very important to us is always a lie. If my call were actually important to you, you would answer the phone instead of putting me on hold and playing an orchestral version of the old Buoy's hit Timothy. A portion of all profits from the sale of this book goes to the Jade Pasley Patient and Family Assistance Fund of the Vanderbilt-Ingram Cancer Center.

Creative Boot Camp Stefan Mumaw, 2012-11-27 Creative Boot Camp is a 30-day creative training program that will increase the quantity and quality of your ideas. The book begins by exploring what creativity is and isn't, how we can train ourselves to improve our own ideation, and what steps we need to take to generate more ideas and better ideas for our creative selves, our creative projects, our creative businesses, and our creative lives. Like any muscle, creativity requires repetitive and challenging exercise to grow. The 30-day program provides an escalation of creative exercises that test our problem-solving prowess and train us to overcome the obstacles that inhibit ideation. The program tests regularly, both in idea quantity and quality, to ensure we are on track with our boot camp goals. But unlike the gym, these exercises aren't to be dreaded. They are light, fun, and take 10-15 minutes max. By the end of the 30-day boot camp, readers will see noticeable improvement in the quantity and quality of their ideas.

The Rich Part of Life Jim Kokoris, 2007-04-01 Teddy Pappas is an eleven-year-old boy forced into maturity before his time. He lives with his younger brother and their eccentric Civil War historian father, a man more comfortable with discussing Confederate footwear than what kind of day his sons had. Their lives have been quiet for a year since the real lifeblood of their household, Teddy's mother, died in a tragic car accident. On the one-year anniversary of her death, Teddy's stoic father plays his wife's favorite lottery numbers in a tender, uncharacteristic act. When it turns out that the family holds the \$190 million winning ticket, their world is instantly transformed. Seemingly overnight, a host of colorful characters demands their attention, including Teddy's hilarious aunt and uncle, a beautiful divorcée, a desperate former soap opera star, and a menacing stranger who threatens the very core of the family. As events spiral out of control, the family struggles to discover what the rich part of life really is. Featuring a unique father-child bond, Jim Kokoris's moving first novel is flavored with the rich characterizations and poignant charm of early John Irving. Creating the perfect balance of humor and pathos, Kokoris takes us on an unforgettable journey through the ups and downs of this revelation of unexpected wealth.

Demographic Vistas David Marc, 2010-11-24 In *Demographic Vistas*, David Marc shows how we can take television seriously within the humanist tradition while enjoying it on its own terms. To deal with the barrage of messages from television's chaotic history, Marc adapts tools of theatrical and literary criticism to focus on key personalities and genres in ways that reward serious students and casual viewers alike. This updated edition includes a new foreword by Horace Newcomb and a new introduction by the author that discusses the ways in which the nature of television criticism has changed since the book's original publication in 1984. A new final chapter explores the paradox of the diminishing importance of over-the-air broadcasting during the period of television's greatest expansion, which has been brought about by complex technologies such as cable, videocassette recorders, and online services.
