*India's Newspaper Revolution* Robin Jeffrey,

*Changing Indian Images of the European Union* Rajendra K.

Jain,2019-09-25 This book explores the images and perceptions of the European Union (EU) in the eyes of one of the EU's three strategic partners in Asia in the context of its own distinct policies and identity. It fills a major gap in existing studies on how Asians perceive the EU. The book examines the perception, representation and visibility of the EU in the Indian media, among the 'elites' and in public opinion. It explores whether the Union's self-proclaimed representation as a global actor, a normative power and a leader in environmental negotiations conforms to how it is actually perceived in Third World countries. The book asks questions such as, How have Indian images of Europe/European Union been changing from the 1940s to the present? What new narratives have emerged or are emerging about the EU in India? What does the rise of China mean for EU-India relations? Is the image of the EU changing in India or do old representations still persist even though the Union is acquiring a new personality in the world politics? How does India perceive Poland?

Indian Journalism and the Impact of Social Media Dhiman

Chattopadhyay,2022-09-21 This book is a pan-India study that examines social media's impact on Indian journalism, highlights emerging challenges, and discusses the way forward for India's newsrooms. A result of three years of field work, the project uses mixed-methods research – a survey of nearly 300 journalists from 15 Indian cities, followed by in-depth interviews with 25 senior editors – to analyze and explain journalists' perceptions about social media's usefulness and credibility, factors that influence their online news sourcing and sharing decisions, resultant challenges for newsrooms, and ways to address those challenges. The findings offer unique insights into how newer forces are influencing journalistic practices in

an online-first era. Key differences emerge in perceptions between Indian journalists and their Western compatriots about who or what influence their actions. The findings also raise questions about Gatekeeping as a term to describe journalistic work in 21st Century India's newsrooms. The findings and the conclusions will hopefully help journalists, educators, and anyone interested in Indian journalism gain a deeper, more meaningful understanding about social media's impact on Indian journalism, and the way ahead for India's newsrooms.
