The Culture of Boredom ,2020-04-28 Culture of Boredom is a collection of essays by well-known specialists reflecting from philosophical, literary, and artistic perspectives. The goal is to clarify the background of boredom, and to explore its representation through forgotten cross-cutting narratives.

Kiss Gene Simmons,Paul Stanley,2002 With over 150 photos--most of which are published here

for the first time--Gene Simmons and Paul Stanley take readers on an intimate tour of the early days of KISS. Full color and b&w.

Det svarta guldet Jan Mårtenson,2013-02-21 Under Lapplands glasklara himmelskupa börjar denna dramatiska Homandeckare, där Johan Kristian efter en idyllisk inledning ska dras in i ett virvlande händelseförlopp. Från Luspälven i Lappland och Baku vid Kaspiska havet - Nobels gamla stad - till London, ett slott i Sörmland och Gamla stan jagar vår fridsamme antikhandlare både mördare och hänsynslösa svindlare. Insiderbrott och finansiella manipulationer liksom kampen om en av världens rikaste oljefyndigheter står i centrum för denna berättelse med storpolitiska dimensioner.

The Forest and the City Cecil C. Konijnendijk,2018-03-12 Amsterdamse Bos, Bois de Boulognes,

Epping Forest, Hong Kong's country parks, Stanley Park: throughout history cities across the world have developed close relationships with nearby woodland areas. In some cases, cities have even developed – and in some cases are promoting – a distinct 'forest identity'. This book introduces the rich heritage of these city forests as cultural landscapes, and shows that cities and forests can be mutually beneficial. Essential reading for students and researchers interested in urban sustainability and urban forestry, this book also has much wider appeal. For with city forests playing an increasingly important role in local government sustainability programs, it provides an important reference for those involved in urban planning and decision making, public affairs and administration, and even public health. From providers of livelihoods to healthy recreational environments, and from places of inspiration and learning to a source of conflict, the book presents examples of city forests from around the world. These cases clearly illustrate how the social and cultural development of towns and forests has often gone hand in hand. They also reveal how better understanding of city forests as distinct cultural and social phenomena can help to strengthen synergies both between cities and forests, and

between urban society and nature.

Sveriges statsskick Arne Halvarson,1986

Legends of Rock Guitar Pete Prown,HP Newquist,1997-02-01 (Book). This book is a virtual encyclopedia of great electric guitar players, with 35 chapters examining the major players in each important era of rock. The book begins with rock's birth from the blues, covering masters like Robert Johnson and Muddy Waters. It proceeds to cover rockabilly greats like Chuck Berry, Bo Diddley, Buddy Holly; through the mop tops and matching suits of the British Invasion; to the psychedelia of the Dead and Hendrix; glam rock's dresses and distortion; fusion virtuosos like Metheny, Gambale, and Henderson; metal masters; shred stars; grunge gods; grindcore; and much more. *Legends of Rock Guitar* is not only a great resource for guitar fans, but an interesting and well-researched chronology of the rock idiom.
