Young People, Vulnerabilities and Prostitution/Sex for Compensation in the Nordic Countries: A Study of Knowledge, Social Initiatives and Legal Measures Holmström, Charlotta,Bjønness, Jeanett,Jensen, Mie Birk,Seikkula, Minna,Antonsdóttir, Hildur Fjóla,Skilbrei, May-Len,Søderholm, Tara,Grönvall, Ylva,2019-11-20 What do we know about the extent of young people's experiences of sex for compensation in the Nordic countries? Are such experiences addressed by social initiatives and how do legal measures affect them? This report is based on country studies focusing on knowledge about sex for compensation among young people in the Nordic countries. The five country studies show how research on the extent of, and the motivations and conditions for, young people selling sex in the Nordic countries is rather scarce and that there are few social initiatives that target young people specifically. The interviews with service providers and the literature reviewed point to individual vulnerabilities related to young people's experiences of compensational sex. In order to develop preventive measures more knowledge on structural factors related to experiences of compensational sex is needed.

Music History and Cosmopolitanism Anastasia Belina,Kaarina Kilpiö,Derek B. Scott,2019-07-04 This collection of essays is the first book-length study of music history and cosmopolitanism, and is informed by arguments that culture and identity do not have to be viewed as primarily located in the context of nationalist narratives. Rather than trying to distinguish between a true cosmopolitanism and a false cosmopolitanism, the book presents studies that deepen understanding of the heritage of this concept – the various ways in which the term has been used to describe a wide range of activity and social outlooks. It ranges over a two hundred-year period, and more than a dozen countries, revealing how musicians and audiences have responded to a common humanity by embracing culture beyond regional or national boundaries. Among the various topics investigated are: musical cosmopolitanism among composers in Latin America, the Ottoman Empire, and Austro-Hungarian Empire; cosmopolitan popular music historiography; cosmopolitan musical entrepreneurs; and musical cosmopolitanism in the metropolises of New York and Shanghai.
