Scientology in Popular Culture Stephen A. Kent,Susan Raine,2017-07-14 This multidisciplinary study of Scientology examines the organization and the controversies around it through the lens of popular culture, referencing movies, television, print, and the Internet—an unusual perspective that will engage a wide range of readers and researchers. For more than 60 years, Scientology has claimed alternative religious status with a significant number of followers, despite its portrayals in popular culture domains as being bizarre. What are the reasons for the vital connections between Scientology and popular culture that help to maintain or challenge it as an influential belief system? This book is the first academic treatment of Scientology that examines the movement in a popular-culture context from the perspective of several Western countries. It documents how the attention paid to Scientology by high-profile celebrities and its mention in movies, television, and print as well as on the Internet results in millions of people being aware of the organization—to the religious organization's benefit and detriment. The book leads with a background on Scientology and a discussion of science fiction concepts, pulps, and movies. The next section examines Scientology's ongoing relationship with the Hollywood elite, including the group's use of celebrities in its drug rehabilitation program, and explores movies and television shows that contain Scientology themes or comedic references. Readers will learn about how the Internet and the mainstream media of the United States as well as of Australia, Germany, and the UK have regarded Scientology. The final section investigates the music and art of Scientology.

Two Hundred Eleven 20Th Century Comedian / Actors Larry Goldbeck M.D.,2023-01-12 Comedy is centuries old. In Medieval Times monarchs were entertained by court jesters. Melodramas provided boredom and stress relief for the pioneers of America’s West. The Nineteenth Century brought vaudeville and burlesque and entertainment jobs for many early comedians. Many of these passed on to their children their comedic skills. These 20th Century comedians are the subject of this book. They moved from burlesque and vaudeville to radio, Broadway, films, and some into television. Some remained “full-time” comedians and some chose serious acting roles at times.

The Gospel of Matthew Matt Woodley,2011-09-13 They say the Bible is true, but does it ring true? Does it resonate? In this journey through the Gospel of Matthew, Matt Woodley considers the audacious idea of a God with us--confronting us in the midst of all we've invested ourselves in and dedicated ourselves to, and encouraging us with the promise that the God who made us has a better life in mind for us. The Resonate series recovers the ancient wisdom of Scripture for a complex world. The stories and insights of each book of the Bible are brought into conversation with contemporary voices of hope and lament--the cultural messages we interact with on a daily basis. The Scriptures become a meeting ground where God is confronted with the pressing concerns of our day, and we are confronted in turn with a fresh experience of God's truth.

Soviet Art House Catriona Kelly,2021 Drawing on documents from archives in St Petersburg and Moscow, the analysis portrays film production in the round and shows that the term censorship is less appropriate than the description preferred in the Soviet film industry itself, control, which referred to a no less exigent but far more complex and sophisticated process. The book opens with four framing chapters that examine the overall context in which films were produced. The two opening chapters trace the various crises that beset film production between 1961 and 1970 (Chapter 1) and 1970 and 1985 (Chapter 2). These are followed by a chapter on the working life of the studio and particularly the technical aspects of production (Chapter 3), and a chapter on the studio aesthetic (Chapter 4). The second part of the book comprises close analyses of fifteen films that are particularly typical of the studio's production and which had especial impact within the studio and beyond. .

A History of Chinese Theatre in the 20th Century II Fu Jin,2020-11-01 The 20th century was a dynamic period for the theatrical arts in China. Booming urban theatres, the interaction between commercial practice and theatre, dramas staged during the War of Resistance against Japan and a healthy dialogue between Western and Eastern theatres all contributed to the momentousness of this period. The four volumes of A History

of Chinese Theatre in the 20th Century display the developmental trajectories of Chinese theatre over those 100 years. This volume deals with the development of Chinese theatre from 1949 to 2000, covering the fluctuations of 'drama reform', spectacles of the 'Cultural Revolution', and theatre in the immediate years before the opening up of the country. The author demonstrates how Chinese dramatic traditions endured and adapted in the face of modernity and how politics and art interacted. By combining academic rigour with a high degree of readability, this volume is both an essential guide for scholars and students in the history of the arts and general readers interested in Chinese theatre.

Made Up Martha Laham,2020-10-15 Made Up exposes the multibillion-dollar beauty industry that promotes unrealistic beauty standards through a market basket of advertising tricks, techniques, and technologies. Cosmetics magnate Charles Revson, a founder of Revlon, was quoted as saying, In the factory, we make cosmetics. In the store, we sell hope. This pioneering entrepreneur, who built an empire on the foundation of nail polish, captured the unvarnished truth about the beauty business in a single metaphor: hope in a jar. Made Up: How the Beauty Industry Manipulates Consumers, Preys on Women’s Insecurities, and Promotes Unattainable Beauty Standards is a thorough examination of innovative, and often controversial, advertising practices used by beauty companies to persuade consumers, mainly women, to buy discretionary goods like cosmetics and scents. These approaches are clearly working: the average American woman will spend around \$300,000 on facial products alone during her lifetime. This revealing book traces the evolution of the global beauty industry, discovers what makes beauty consumers tick, explores the persistence and pervasiveness of the feminine beauty ideal, and investigates the myth-making power of beauty advertising. It also examines stereotypical portrayals of women in beauty ads, looks at celebrity beauty endorsements, and dissects the “looks industry.” Made Upuncovers the reality behind an Elysian world of fantasy and romance created by beauty brands that won’t tell women the truth about beauty.
