Brainchild Shen-Li Lee,2019-10-02 The 21st century is a challenging era and the competition is unyielding. As parents, we feel an urgency to prepare our children to face this world. We are constantly seeking the best schools, activities, and programs in the hope that they will give our children that extra leg-up in life. We believe that if we want our children to thrive in this world, we must prepare them with every resource available to us. In our eagerness to provide everything our children might need, we have lost sight of the basic fundamentals that they require to flourish. Like planning a house to weather the storm, we must ensure that our children's foundations are strong. However, in our haste to cover every avenue that promises an advantage, we have unwittingly compromised that foundation. It's time to review what is working and what isn't. Supported by case studies and scientific research findings, Brainchild provides keen insights on how to nurture children to reach their full potential.

Alphabetimals -- in the Wild! Patrick O'Toole,2013-04-17 Kids will love to learn their letters with these adorable alphabetical creations. From Alligator to Zebra, each Alphabetimal features an animal in the shape of a letter, cheerfully posed in a ready-to-color habitat. Plus, all the letters are repeated at the end of the book, displaying the alphabet in its entirety.

Invisible Man Ralph Ellison,2016-08-18 Invisible Man is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief

spokesman of the Harlem branch of the Brotherhood, and retreating amid violence and confusion to the basement lair of the Invisible Man he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky.

Teaching Language Arts Judith Wells Lindfors, Jane S. Townsend, 1999 Practical lesson plans for Grades K-6 of alternatives to traditional language arts teaching methods.

Wicked Gregory Maguire, 2009-10-13 The New York Times bestseller and basis for the Tony-winning hit musical, soon to be a major motion picture starring Cynthia Erivo and Ariana Grande With millions of copies in print around the world, Gregory Maguire's *Wicked* is established not only as a commentary on our time but as a novel to revisit for years to come. *Wicked* relishes the inspired inventions of L. Frank Baum's 1900 novel, *The Wonderful Wizard of Oz*, while playing sleight of hand with our collective memories of the 1939 MGM film starring Margaret Hamilton (and Judy Garland). In this fast-paced, fantastically real, and supremely entertaining novel, Maguire has populated the largely unknown world of Oz with the power of his own imagination. Years before Dorothy and her dog crash-land, another little girl makes her presence known in Oz. This girl, Elphaba, is born with emerald-green skin—no easy burden in a land as mean and poor as Oz, where superstition and magic are not strong enough to explain or overcome the natural disasters of flood and famine. Still, Elphaba is smart, and by the time she enters Shiz University, she becomes a member of a charmed circle of Oz's most promising young citizens. But Elphaba's Oz is no utopia. The Wizard's secret police are everywhere. Animals—those creatures with voices, souls, and minds—are threatened with exile. Young Elphaba, green and wild and misunderstood, is determined to protect the Animals—even if it means combating the mysterious Wizard, even if it means risking her single chance at romance. Ever wiser in guilt and sorrow, she can find herself grateful when

the world declares her a witch. And she can even make herself glad for that young girl from Kansas. Recognized as an iconoclastic tour de force on its initial publication, the novel has inspired the blockbuster musical of the same name—one of the longest-running plays in Broadway history. Popular, indeed. But while the novel's distant cousins hail from the traditions of magical realism, mythopoeic fantasy, and sprawling nineteenth-century sagas of moral urgency, Maguire's *Wicked* is as unique as its green-skinned witch.

Montessori Today Paula Polk Lillard, 2011-09-07 Paula Lillard, director of a Montessori school ranging in age from 18 months to fifteen years, provides a clear and cogent introduction to the Montessori program for the elementary and later years. In detailed accounts, Lillard shows how children acquire the skills to answer their own questions, learn to manage freedom with responsibility, and maintain a high level of intellectual stimulation by using the Montessori method. This is an essential handbook for parents and teachers who have chosen the Montessori alternative for the older child.

When I Grow Up Dayle Timmons, Kerry Rogers, Susan Eddy, Tracy L Hall, 1996 This book is designed to help teachers construct learning centers focusing on the community and community helpers. By using dramatic creative play and simulations, students become more aware of occupations and potential career choices. The career center provides a thematic approach to career education and a foundation for individual and group activities in the classroom. The resource book contains ideas, activities, and patterns for 10 community centers, with additional ideas for more. The table of contents lists: (1) Introduction; (2) Bakery; (3) Post Office; (4) Hospital; (5) Grocery Store; (6) Fire Station; (7) Dentist; (8) Police Station; (9) Italian Restaurant; (10) School; (11) The Community; and (12) Index. High Tide in Tucson Barbara Kingsolver, 2009-03-17 There is no one quite like Barbara Kingsolver in contemporary literature, raves the Washington Post Book World, and it is right. She has been nominated three times for the ABBY award, and her critically acclaimed writings consistently enjoy spectacular commercial success as they entertain and touch her legions of loyal fans. In *High Tide in Tucson*, she returns to her familiar themes of family, community, the common good and the natural world. The title essay considers Buster, a hermit crab that accidentally stows away on Kingsolver's return trip from the Bahamas to her desert home, and turns out to have manic-depressive tendencies. Buster is running around for all he's worth -- one can only presume it's high tide in Tucson. Kingsolver brings a moral vision and refreshing sense of humor to subjects ranging from modern motherhood to the history of private property to the suspended citizenship of human beings in the Animal Kingdom. Beautifully packaged, with original illustrations by well-known illustrator Paul Mirocha, these wise lessons on the urgent business of being alive make it a perfect gift for Kingsolver's many fans.

The Underground History of American Education John Taylor Gatto, 2001 The underground history of the American education will take you on a journey into the background, philosophy, psychology, politics, and purposes of compulsion schooling.

Teach Your Own John Holt, Pat Farenga, 2021-09-28 The classic guide to teaching children at home for a new generation of homeschooling parents In 2019, there were more than two million children being homeschooled. That number doubled during the pandemic and is now likely to continue increasing as more parents worry that school might not be the best place for their children to learn and grow. *Teach Your Own* helped launch the homeschooling movement; now, its timeless and revolutionary message of recognizing the ways children come to understand the world has

been updated for today's environment. Parents and caregivers will discover how to navigate: Learning in a classroom versus learning in the world The difference between a learning difficulty (which we all experience every time we try to learn anything) and a learning disability. Schedules that achieve the homeschooling-work-life balance that you want as a family The relationship between learning and play Homeschooling and technology And much more. John Holt's warm understanding of children and his passionate belief in every child's ability to learn have made this book an essential resource for over forty years to homeschooling families.

The Journals of Sylvia Plath Sylvia Plath, 2013-01-16 Sylvia Plath began keeping a diary as a young child. By the time she was at Smith College, when this book begins, she had settled into a nearly daily routine with her journal, which was also a sourcebook for her writing. Plath once called her journal her "Sargasso," her repository of imagination, "a litany of dreams, directives, and imperatives," and in fact these pages contain the germs of most of her work. Plath's ambitions as a writer were urgent and ultimately all-consuming, requiring of her a heat, a fantastic chaos, even a violence that burned straight through her. The intensity of this struggle is rendered in her journal with an unsparing clarity, revealing both the frequent desperation of her situation and the bravery with which she faced down her demons. Written in electrifying prose, *The Journals of Sylvia Plath* provide unique insight, and are essential reading for all those who have been moved and fascinated by Plath's life and work.

The Promised Land Mary Antin, 1912 Antin emigrated from Polotzk (Polotsk), Belarus [Russia], to Boston, Massachusetts, at age 13. She tells of Jewish life in Russia and in the United States.

Whispers Through Time L. R. Knost, 2013-06 Communication is the key to peaceful, effective interactions between parents and children. When normal childhood behavior is viewed as normal instead of something to be corrected and controlled, communication creates the bridge to developmentally appropriate

growth, maturity, and independence. Written by best-selling parenting and children's book author and mother of six, L.R.Knost, 'Whispers Through Time: Communication Through the Ages and Stages of Childhood' is a rethinking of mainstream parenting's perception of normal childhood behaviors coupled with simple, practical approaches to parent/child communication at each stage of development from tots to teens.

Jesus, the Gentle Parent L. R. Knost, 2014-05 In this examination of mainstream Christian parenting practices and the doctrinal beliefs behind them, best-selling author L.R.Knost debunks common cultural and theological beliefs about spanking, original sin, sin nature, submission, authority, obedience, breaking a child's will, and more along with providing grace-filled, gentle solutions to behavior issues.

Placing the Academy Jennifer Sinor, Rona Kaufman, 2007-03-31 A set of creative writers here responds to the call for literature that addresses who we are by understanding where we are—where, for each of them, being somehow part of the academy. Their personal essays delineate the diverse, sometimes unexpected roles of place in shaping them, as writers and teachers in varied environments, through unique experiences and distinctive worldviews—in reconfiguring their conjunctions of identity and setting, here, there, everywhere, and in between. Offering creative comments on place, identity, and academic work are authors Charles Bergman, Mary Clearman Blew, Jayne Brim Box, Jeffrey M. Buchanan, Norma Elia Cantú, Katherine Fischer, Kathryn T. Flannery, Diana Garcia, Janice M. Gould, Seán W. Henne, Rona Kaufman, Deborah A. Miranda, Erin E. Moore, Kathleen Dean Moore, Robert Michael Pyle, Jennifer Sinor, Scott Slovic, Michael Sowder, Lee Torda, Charles Waugh, and Mitsuye Yamada.

Surfing Social Studies Joseph A. Braun, C. Frederick Risinger, 1999 The Internet makes available an unparalleled, and seemingly unlimited, repository of resources and ideas for social

studies teachers. This book provides guidance and explores how the Internet can become an essential element in a teacher's repertoire of tools for engaging students in social studies curriculum. Chapters in the book are: (1) Effective Internet Searching (Barbara Brehm); (2) The Webmaster's Tale (Tim Dugan); (3) The Classroom Website (Timothy A. Keiper and Linda Bennett); (4) Teaching History (C. Frederick Risinger); (5) The Virtual Tour (Eileen Giuffre Cotton); (6) Teaching Geography (Cheryl L. Mason and Marsha Alibrandi); (7) Creating Teledemocracy (Bruce Larson and Timothy A. Keiper); (8) Civic Education (Bruce Larson and Angie Harwood); (9) Economics Education (Lawrence A. Weiser and Mark C. Schug); (10) Global Education (Bob Coulson and Alma Vallisneri); (11) Global Issues (Gregory A. Levitt); (12) Art-Based Resources (David B. Williams); (13) Multiculturalism and the Internet (Deborah A. Byrnes and Grace Huerta); (14) Teacher Education (D. Mark Myers); (15) Problem-Based Learning (Anthony W. Lorschach and Fred Basolo, Jr.); (16) Citizenship Projects (John W. Saye and John D. Hoge); (17) Civic-Moral Development (Joseph A. Braun, Jr.); (18) Safe Web Exploration (Michael Berson and Eileen Berson); and (19) Assessment (Pat Nickell). (Each chapter contains references.) (BT)

Placing Empire Kate McDonald, 2017-08-01 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. *Placing Empire* examines the spatial politics of Japanese imperialism through a study of Japanese travel and tourism to Korea, Manchuria, and Taiwan between the late nineteenth century and the early 1950s. In a departure from standard histories of Japan, this book shows how debates over the role of colonized lands reshaped the social and spatial imaginary of the modern Japanese nation and how, in turn, this sociospatial imaginary affected the ways in which colonial difference was conceptualized and enacted. The book thus illuminates how ideas of place became central to the production of

new forms of colonial hierarchy as empires around the globe transitioned from an era of territorial acquisition to one of territorial maintenance.
