**Learning the Alphabet - Counting Book** Sue Feldman, 2018-06-11 I have designed this modified third book in a way that helps children, from the start, to get interested in counting by listening, following the printed numbers, words and pictures, playing and having fun. This book aims to teach 2 year olds and up, counting from 1 to 26, where A is 1, B is 2, C is 3 etc. - using a full range of basic skills to prepare them for life and to make reading, counting and learning fun! Your child will quickly learn to recognise, identify and associate pictures with numbers and words to start reading. Say the number aloud while pointing to each word or picture, so your child can see the words or pictures, letting them repeat the words and count the pictures. The first book I wrote - Learning the Alphabet, Colouring book - is with actual 3, 4 and 5 letter words on the left hand side, with the A, B, C's on the right hand side. All could be coloured in. The second book - Learning the Alphabet, Reading and Colouring Book is with little stories on the left hand page and A, B, C's on the right hand side. All could be coloured in. The third book I wrote - Learning the Alphabet, Counting and Colouring book is for parents to teach counting and colouring with their child to show how A is the first letter of the alphabet relating to number 1 to Z the last letter relating to number 26. This book is the third book modified, so no colouring, just reading! I do hope you and your child enjoys using this counting book and spending quality time together.

**Letters, Numbers, Shapes and Colors** Petra Noval, 2020-10-20 Have fun and learn about letters, shapes, numbers and colors in this Montessori inspired early learning book. From Inner cover: This book is set up to be used in the order of the chapters, but feel free to have fun with it however you prefer. First your little one learns how to visually match each letter of the alphabet to the sound you pronounce. Numbers come next accompanied by words

spelled out as well as a quantitative cue. This way, the learner can associate numbers with letters and how many buttons correspond to the appropriate number. The third part is geometric shapes, a more complex concept. In this section there are realistic pictures of shapes along with the words spelled out to match. In the fourth chapter the child will get exposed to the concept of colors. Here, all the images that were seen in the previous chapters are organized by the color that they match to. This is where the fun comes in, your sweetie can practice a Find and Seek game where one image is identified as a specific color, then he or she can go back through the previous chapters to find it. We hope you will enjoy this fun learning experience, especially the Find and Seek game

Treasures, 2020-06-07 Are you looking for a fun workbook to help you teach your child to write? Then you are in the right place! Take your child on an exciting journey through all the numbers from 0 to 30 with: Number Tracing Workbook For Preschoolers And Toddlers: A Fun Number Practice Workbook To Learn The Numbers From 0 To 30 For Preschoolers & Kindergarten Kids! Tracing Exercises For Ages 3-5 One of the first things children learn in school is to write letters and numbers. But that does not mean that they have to wait until they start school. On the contrary: children who are familiarized with numbers earlier on will find it easier to do so in pre-school and primary school. Many parents wonder when the ideal time is to introduce their children to writing numbers. There is no blanket answer to this question. It always depends on the very individual development of the child. In general, however, most children are ready to learn to count and write numbers by the age of 4. Their eye-hand coordination is sufficiently developed to enable them to use a pen in a targeted manner and can now be optimally developed further. And the ability to concentrate can also be trained in a playful way through age-appropriate exercises. Number Tracing Workbook For Preschoolers And Toddlers is a workbook that helps children learn numbers from 0 to 30.

Your child will not only be instructed in counting, but will also learn to write the numbers independently, step by step. The special exercise booklet is characterized, in addition to its loving design, above all by a clear and sensible structure. This makes constant learning easier for your child and motivates him or her to keep at it and expand their knowledge. Each number is learned in three basic steps: Counting A creative illustration, which can of course be colored, shows the meaning of each number and invites your child to start counting. Tracing Afterwards, your child is familiarized with the respective pencil guidance by copying the number and the number as a written word. Independent writing Finally, your child is ready to write the numbers freely and without pre-drawn lines. Of course, auxiliary lines are provided to help correctly position the numbers. The structured exercises ensure that your child is constantly challenged in a supportive and not overburdening way. The learning process is lined with as many successes as possible to boost your child's motivation to learn. By looking at each number three times, your child is confronted with a solid, reliable structure which they can follow at their own pace. A quick look at the most important facts of the book: Suitable for children from ages 3 to 5 Sensible structure that optimally accompanies the learning process Great preparation for pre-school and kindergarten A fun way to learn the numbers from 0 to 30 Designed and sensibly structured to suit children Promotes correct pen management and concentration Lots of space for free practice Lovely designs Combine play

with learning. Benefit from Number Tracing Workbook For Preschoolers And Toddlers and accompany your child within a meaningful structure on the way to writing numbers! Get this book NOW!
