Charles Ammi Cutter

A Place for Everything Judith Flanders, 2020-10-20 From a New York Times bestselling historian comes the story of how the alphabet ordered our world. *A Place for Everything* is the first-ever history of alphabetization, from the Library of Alexandria to Wikipedia. The story of alphabetical order has been shaped by some of history's most compelling characters, such as industrious and enthusiastic early adopter Samuel Pepys and dedicated alphabet champion Denis Diderot. But though even George Washington was a proponent, many others stuck to older forms of classification -- Yale listed its students by their family's social status until 1886. And yet, while the order of the alphabet now rules -- libraries, phone books, reference books, even the order of entry for the teams at the Olympic Games -- it has remained curiously invisible. With abundant inquisitiveness and wry humor, historian Judith Flanders traces the triumph of alphabetical order and offers a compendium of Western knowledge, from A to Z. Register in Alphabetical Order, of the Early Settlers of Kings County, Long Island, N.Y. Teunis G. Bergen, 2009-06 Kings County, New York, is today essentially co-extensive with the borough of Brooklyn, the county seat for Kings. This Register of the Early Settlers of King's County is the standard work on the subject, and it is literally crammed with genealogies of the 17th-century pioneers of the county, most of whom were

of Dutch, or, to a lesser extent, British, origin. The name index at the back of the volume makes it easy to find any of the 7,500 settlers referred to in the family histories.
