Late Antique Letter Collections Cristiana Sogno, Bradley K. Storin, Edward J. Watts, 2016-12-06 This volume provides the first comprehensive overview of the extant Greek and Latin letter collections of late antiquity (ca. 300-600 C.E.). Bringing together an international team of historians, classicists, and scholars of religion, it illustrates how letter collections advertised an image of the letter writer and introduces the social and textual histories of each collection. Each chapter addresses a major collection of Greek or Latin literary letters, examining their assembly, publication, and transmission. In addition, contributions reveals how late antique letter collections operated as a discrete literary genre with its own conventions, transmission processes, and self-presentational agendas. This book will fundamentally change how people both read these texts and use letters to reconstruct the social history of the fourth, fifth, and sixth centuries--Provided by publisher.

Playful Letters Erika Mary Boeckeler,2017-11 Alphabetic letters are ubiquitous, multivalent, and largely ignored. Playful Letters reveals their important cultural contributions through Alphabetics—a new interpretive model for understanding artistic production that attends to the signifying interplay of the graphemic, phonemic, lexical, and material capacities of letters. A key period for examining this interplay is the century and a half after the invention of printing, with its unique media ecology of print, manuscript, sound, and image. Drawing on Shakespeare, anthropomorphic typography, figured letters, and Cyrillic pedagogy and politics, this book explores the ways in which alphabetic thinking and writing inform literature and the visual arts, and it develops reading strategies for the "letterature" that underwrites such cultural production. Playful Letters begins with early modern engagements with the alphabet and the human body—an intersection where letterature emerges with startling force. The linking of letters and typography with bodies produced a new kind of literacy. In turn, educational habits that shaped letter learning and writing permeated the interrelated practices of typography, and poetry. These mutually informing processes render visible the persistent crumbling of words into letters and their reconstitution into narrative, poetry, and image. In addition to providing a rich history of literary and artistic alphabetic interrogation in early modern Western Europe and Russia, Playful Letters contributes to the continuous story of how people use new technologies and media to reflect on older forms, including the alphabet itself.

<u>Medical Latin in the Roman Empire</u> D. R. Langslow,2000-06-08 Despite the ubiquitous importance of medicine in Roman literature, philosophy, and social history, the language of Latin medical texts has not been properly studied. This book presents the first systematic account of a part of this large, rich field. Concentrating on texts of `high' medicine written in educated, even literary, Latin Professor Langslow offers a detailed linguistic profile of the medical terminology of Celsus and Scribonius Largus (first century AD) and Theodorus Priscianus and Cassius Felix (fifth century AD), with frequent comparisons with their respective near-contemporaries. The linguistic focus is on vocabulary and word-formation and the book thus addresses the large question of the possible and the preferred means of extending the vocabulary in Latin at the beginning and end of the Empire. Some syntactic issues (including word order and nominalization) are also discussed, and sections on the sociolinguistic background and stylistic features consider the question to what extent we may speak of `medical Latin' in the strong sense, as the language of a group, and draw comparisons and contrasts between ancient and modern technical languages.

The "Unique Cherub" Circle Joseph Dan,1999 The main point delivered by this book is that Jews living in Germany during the Middle Ages developped a dynamic and variegated culture which should be recognized as a constituent of European and German medieval religiosity. The esoterics, mystics and pietists who produced works like those analyzed in this volume derived their inspiration from the traditional Jewish texts, but were also part of the world they lived in, despite the seclusions enforced by the religious prejudices of the time. The esoterical-mystical phenomena described were to a very large extent an original development in central-European Jewry, and constitute one of their most important contributions to Jewish culture as a whole. In some cases, a spiritual atmosphere reminiscent of early Protestant sects, which were to appear in the same regions three centuries later, can be discerned. Some of these texts influenced the Christian kabbalists of the sixteenth century, like Johannes Reuchlin and others. This is a major spiritual phenomenon which has been completely neglected until now, and it is hoped that this volume will contribute to a new appreciation of this aspect of European creativity in the Middle Ages.

Paul's Letters and Contemporary Greco-Roman Literature Paul Robertson, 2016-05-23 In this volume, Paul Robertson re-describes Paul's letters in a way that facilitates empirical comparison with other understudied texts, and theorizes a new taxonomy of the Greco-Roman literary landscape of the ancient Mediterranean.

John Pell (1611-1685) and His Correspondence with Sir Charles Cavendish Noel Malcolm, Charles Cavendish, John Pell, Jacqueline Stedall, 2005 Publisher description The Apocalyptic Letter to the Galatians James M. Scott, 2021 In this book, James M. Scott argues that there is an essential continuity between the letter to the Galatians and Paul's Jewish past, and that Paul uses

the Epistle of Enoch (1 Enoch 92-105) as a literary model for his own letter.

The Poetics of Grammar and the Metaphysics of Sound and Sign Sergio la Porta, 2007-08-30 Recognizing the seemingly universal notion of a grammatical cosmos, this volume addresses the question of how grammar and culturally encoded sounds and signs provide cognitive maps of reality in a variety of great civilizations.

Edinburgh Companion to Nineteenth-Century American Letters and Letter-Writing Celeste-Marie Bernier, 2016-02-15 Provides a wide-ranging entry point and intervention into scholarship on nineteenthcentury American letter-writingThis comprehensive study by leading scholars in an important new field-the history of letters and letter writing-is essential reading for anyone interested in nineteenth-century American politics, history or literature. Because of its mass literacy, population mobility, and extensive postal system, nineteenth-century America is a crucial site for the exploration of letters and their meanings, whether they be written by presidents and statesmen, scientists and philosophers, novelists and poets, feminists and reformers, immigrants, Native Americans, or African Americans. This book breaks new ground by mapping the voluminous correspondence of these figures and other important American writers and thinkers. Rather than treating the letter as a spontaneous private document, the contributors understand it as a self-conscious artefact, circulating between friends and strangers and across multiple genres in ways that both make and break social ties. Key FeaturesDraws together different emphases on the intellectual, literary and social uses of letter writing Provides students and researchers with a means to situate letters in their wider theoretical and historical contextsMethodologically expansive, intellectually interrogative chapters based on original research by leading academicsOffers new insights into the lives and careers of Louisa May Alcott, Charles Brockden Brown, Emily Dickinson, Frederick Douglass, Margaret Fuller, Henry James, Thomas Jefferson, Abraham Lincoln, Herman Melville, Harriet Beecher Stowe, and Edgar Allan Poe, among many others
