New Masculinities in Contemporary German Literature Frauke Matthes,2023-05-13 The complex nexus between masculinity and national identity has long troubled, but also fascinated the German cultural imagination. This has become apparent again since the fall of the Iron Curtain and the turn of the millennium when transnational developments have noticeably shaped Germany’s self-perception as a nation. This book examines the social and political impact of transnationalism with reference to current discourses of masculinity in novels by five contemporary male German-language authors. Specifically, it analyses how conceptions of the masculine interact with those of nationality, ethnicity, and otherness in the selected texts and assesses the new masculinities that result from those interactions. Exploring how local discourses of masculinity become part of transnational contexts in contemporary writing, the book moves a consideration of masculinities from a native into a transnational sphere.
No Man's Land Justin VanOverloop Hastings,2010 Examines the complex relationship that illicit groups have with modern technology--and how and when geography still matters, tracing the networks, command structures, and training programs of Southeast Asian terrorist, insurgent, and criminal groups.

The Papers of Martin Luther King, Jr., Volume V Martin Luther King Jr.,2023-11-10 The Papers of Martin Luther King, Jr. has become the definitive record of the most significant correspondence, sermons, speeches, published writings, and unpublished manuscripts of one of America's best-known advocates for peace and justice. Threshold of a New Decade, Volume V of the planned fourteen-volume series, illustrates the growing sophistication and effectiveness of King and the organizations he led while providing an unparalleled look into the surprising emergence of the sit-in protests that sparked the social struggles of the 1960s. During this pivotal period of his career, King traveled to India in early 1959 to meet with Prime Minister Nehru and other associates of Mahatma Gandhi. After returning to Montgomery, King confronted the continuing ineffectiveness of his Southern Christian Leadership Conference (SCLC) by demanding personnel changes and agreeing to relocate to Atlanta at the beginning of 1960. King's move took place just before African American students in the South reclaimed the energy of the Montgomery bus boycott with their bold sit-in protests, which King predicted would become an integral part of the history which is reshaping the world, replacing a dying order with modern democracy. He was arrested in October after participating in a sit-in protest in Atlanta. His resulting imprisonment led presidential candidate John F. Kennedy to phone his sympathies to King's wife, Coretta, a move many credit for providing the margin of victory in the close election of 1960.
