Breakthrough: Corporate South Africa in a Green Economy Nhamo, Godwell, 2014-05-05 This book addresses hot issues pertaining to the manner in which corporate South Africa has engaged the emerging green global economy. Firstly, the book profiles the green and low carbon economy landscape in South Africa and interfaces it with global trends. This way, the book aligns very well in terms of the Rio+20 outcomes on 'The Future We Want' that fully embraces the green global economy in the context of sustainable development and poverty eradication. The rest of the chapters in the book profile breakthroughs from selected companies. The book also comes as the second in a series that is addressing global and national concerns on the green global economy agenda. The first book entitled 'Green Economy and Climate Mitigation: Topics of Relevance to Africa' was produced as part of the 17th Session of the Conference of Parties' collaborative work carried out by the Institute of Global Dialogue, the Africa Institute of South Africa and Unisa's Institute for Corporate Citizenship. The book 'Breakthrough: Corporate South Africa in the Green Economy' comes in seven parts. Part I focuses on the Green Economy Landscape. This part considers both the international and national perspectives. Parts II-VI present different sector initiatives namely: Mining and Energy (Part II), Banking and Insurance (Part III), Forest and Paper (Part IV), Industrial (Part V) and Retailing and Aviation (Part VI). The last part is made up of a single chapter dealing with Emerging Issues and Way Forward.

Leading and Managing Open and Distance e-Learning (ODeL) Institutions in Africa Cuthbert Majoni, 2022-10-18 'Leading and Managing Open and Distance E-Learning (ODeL) Institutions in Africa' focuses on e-learning, especially in developing countries in Africa. The outbreak of COVID-19 has forced most educational institutions, including conventional institutions in higher education, to embrace e-learning as a tool to ensure that education is not paralysed but continues to thrive. However, the major challenge has been shifting focus from the conventional face-to-face mode to the e-learning mode. This calls for a change of mindset and a review of practices to ensure success in implementing e-learning. This book has 12 chapters that explore the leadership theories and approaches that influence administrative practices in ODeL institutions, as well as student support within library and information services, the complexities of student affairs, the inclusion of students with special needs, the contemporary issues of innovation and industrialisation, and effective marketing techniques for the survival and growth of tertiary institutions. It is hoped that the recipients of this book can acquire the theoretical and practical knowledge relevant to the successful implementation of e-learning.

Newtown Alive Rosalyn Howard Ph D, 2017-03-15 This book chronicles the history of Sarasota, Florida's African American community - Newtown - that celebrated its 100-year anniversary in 2014. It answers questions about many aspects of community life: why the earliest African Americans who came to Sarasota, then a tiny fishing village, first settled in areas near downtown called -Black Bottom- and -over town;- their transition from there to Newtown; how they developed Newtown from swampland into a self-contained community to ensure their own survival

during the Jim Crow era; the ways they earned a living, what self-help organizations they formed; their religious and educational traditions; residents' military service, the strong emphasis placed on education; how they succeeded in gaining political representation after filing a federal lawsuit; and much more. Newtown residents fought for civil rights, endured and triumphed over Jim Crow segregation, suffered KKK intimidation and violence, and currently are resisting the stealthy gentrification of their community. Whether you are new to the area, a frequent visitor, an educator, historian or a longtime resident trying to connect the dots in your family tree, you will find these stories of courage, dignity and determination enlightening and empowering!

The Sega Arcade Revolution Ken Horowitz, 2018-06-22 Long before it took the home video game console market by storm, Sega was already an arcade powerhouse. Parlaying its dominance in coin-operated machines into the home video game boom of the 1980s, the Japan-based company soon expanded with branches in Europe and the U.S., and continues to lead the gaming industry in design and quality. Drawing on interviews with former developers and hundreds of documents, this history follows the rise of Sega, from its electromechanical machines of the mid-1960s to the acquisition of Gremlin Industries to its 2003 merger with Sammy Corporation. Sixty-two of Sega's most popular and groundbreaking games are explored.

Apartheid Guns and Money Hennie van Vuuren, 2019-03-01 In its last decades, the apartheid regime was confronted with an existential threat. While internal resistance to the last whites-only government grew, mandatory international sanctions prohibited sales of strategic goods and arms to South Africa. To counter this, a global covert network of nearly fifty countries was built. In complete secrecy, allies in corporations, banks, governments and intelligence agencies across the world helped illegally supply guns and move cash in one of history's biggest money laundering schemes. Whistleblowers were assassinated and ordinary people suffered. Weaving

together archival material, interviews and newly declassified documents, *Apartheid Guns and Money* exposes some of the darkest secrets of apartheid's economic crimes, their murderous consequences, and those who profited: heads of state, arms dealers, aristocrats, bankers, spies, journalists and secret lobbyists. These revelations, and the difficult questions they pose, will both allow and force the new South Africa to confront its past.

The Prince Edward Islands Steven Chown, Pierre William Froneman, 2008-06-01 This book provides a modern, synthetic overview of what is known about the structure, functioning and interactions of marine and terrestrial systems at the Prince Edward Islands. Building on more than 50 years of biological, geological, meteorological, and oceanographic research, it demonstrates not only how inextricably linked marine and terrestrial systems at the islands are, but also how global environmental challenges, such as climate change, biological invasions, and over exploitation, are playing out at the regional and local levels in the Southern Ocean.

Stakeholder Engagement and Sustainability S.M. Riad Shams, Demetris Vrontis, Yaakov Weber, Evangelos Tsoukatos, Antonino Galati, 2019-11-20 This cross-disciplinary business book develops insight into the management of businesses operating in various economic sectors that take a proactive approach to the triple dimension of sustainability (economic, social and environmental), positioning itself as a key reference for both academics and practitioners in the wide area of business management. The concept of sustainability is today at the heart of international policies and debate, and plays a key role in deep changes to the organizational models of companies operating in a wide range of sectors of economic activity. In particular, this book aims to gain a deeper understanding of how stakeholder engagement can contribute to value co-creation both in the company and along the supply chain, and what distinguishes the differing involvement of stakeholders, in particular between public involvement and stakeholder participation. Each chapter of this book presents different modalities of stakeholder involvement and develops the concept of value co-creation from organizational and marketing perspectives. This book is recommended reading for those interested in the fields of stakeholder engagement and theory, sustainability, business studies, and sustainable development.

Tabloid Journalism in South Africa Herman Wasserman, 2010-05-31 Less than a decade after the advent of democracy in South Africa, tabloid newspapers have taken the country by storm. One of these papers -- the Daily Sun -- is now the largest in the country, but it has generated controversy for its perceived lack of respect for privacy, brazen sexual content, and unrestrained truth-stretching. Herman Wasserman examines the success of tabloid journalism in South Africa at a time when global print media are in decline. He considers the social significance of the tabloids and how they play a role in integrating readers and their daily struggles with the political and

social sphere of the new democracy. Wasserman shows how these papers have found an important niche in popular and civic culture largely ignored by the mainstream media and formal political channels.

Volkskapitalisme Dan O'Meara, 2009-03-19 The 1982 split in the Ruling Nationalist Party in South Africa focused attention on the relationship between Afrikaner nationalism and capitalism. Volkskapitalisme (the nationalist term for Afrikaner capital) analyses the development of Afrikaner nationalism from the early thirties to the election victory of the Nationalist Party in 1948. The book sets out to refute the commonly held belief that the nationalist policies of apartheid are simply the product of 'irrational' racial ideology. Dan O'Meara examines here for the first time the relationship between the emergence of 'Afrikaner' capital in the so-called Economic Movement of the 1940s and the political and ideological forms of development of Afrikaner nationalism. During these years, far from being a monolithic movement of an ethnically mobilised group, Afrikaner nationalism emerged as an alliance of conflicting class forces. Dan O'Meara's examination of the development of Afrikaner capital and the interplay of ideology, class and economic interests in Afrikaner nationalism is essential reading for all concerned with past political struggles in southern Africa.
