Amanda Jackson Green

My Alien Self Amanda Green, 2013-12-19 This is a true story everyone should read. 100+ 4*/5* reviews! A roller coaster ride of mental health issues, travel, relationships, rape, adventures, eating disorder, abuse, drugs, alcohol. Adults only. If I told you I'd been to twenty-four Countries (twenty-one by the time I was twenty-two), that I'd worked in Japan for nine months, toured Australia for six months, enjoyed seven months in Thailand and met and campaigned for the Orangutan in Borneo, you might think that I was pretty lucky. If I told you I'd worked in the hotel industry, for a sexual health department in a hospital and with prisoners in a drug cell block of a male prison, that I'd worked as a recruitment consultant, in so many office jobs I've lost count, as well as having my own company and multiple websites, at age thirty-six, then you might think I've had an interesting life. But if I added to that a mix of child rape, mental health problems, promiscuity, drug taking, alcohol abuse, eating disorders, self-harm, violence, mood swings, obsession, jealousy, loss of self worth, being raised by a mentally ill mother, bankruptcy, thyroid and gastro problems and public masturbation in school at age nine, then I am not sure what you'd think. But this is me; Amanda Green. This is my life, my story; my journey back to me from depression, anxiety, panic attacks, OCD and Borderline Personality Disorder - mental illness which manifested during my life and came out 'to it's peak' in my thirties. I was able to use my collection of mementos, photos, diaries, journals, letters, emails and text messages of my past to finally see who I had become, and more importantly with a combination of therapy, medication and my writing, how I became that alien self and how I found the real me. One of many 5* reviews... I would thoroughly recommend this book not just to those suffering with mental health issues, but to

those who would also like a jolly good read!The editor (Debz Hobbs-Wyatt) adds...This is the journey of a normal working class girl, trapped in a roller coaster world of disorder and excitement, love and joy, depression and anger - and her fight against stigmaWhile My Alien Self would be inspiring for any sufferer, their families or medical teams in its honest insights into living with a mental illness, it also has universal appeal. For who, at times, has not felt their life spin into chaos and wondered what is normal? This story effectively and openly highlights just how fine the line is between what is normal, and what is 'mental illness' And everyone who reads it will be able to relate to it.Contains explicit language and sexual scenesEmergence had this to say "We very much enjoyed reading this honest and powerful account of Amanda's journey from diagnosis to recovery. We applaud such authentic and candid accounts of the devastation that can be experienced by those living with personality disorder and of the message of hope and recovery that the book conveys.'Bon Dobbs (Anything To Stop The Pain and Author of 'When hope is not enough') said 'While there are many borderline personality disorder memoirs out now (including 'The Buddha and the Borderline', 'Loud House of Myself', 'Get Me Out of Here', 'Girl in Need of a Tourniquet' and 'Poisoned Love'), My Alien Self goes a long way to providing hope to the sufferers of BPD. By publishing the steps taken to reframe certain ways thinking, through CBT worksheets and other exercises, the author has revealed that recovery from BPD is possible.'I self published this book and am very proud of that fact, because I was able to write it exactly as I wanted it to be written, with the help from my fabulous editor, Debz Hobbs-Wyatt. Whilst the massive help a publisher and agent gives, they do narrow down what is published, so I took on the journey to publish it and market it myself. There's a sequel

out too, called '39'. It's quite different, but it leads on from this one :-)

Hidden Black History Amanda Jackson

Green,2021-01-01 Many important moments in history have not been taught in schools or explored in the mainstream media. These events often include people of color and involve Black history. This “whitewashing” of history, intentional or not, puts all Americans at a disadvantage. Learn about Black history moments that shaped America, from the arrival of the first enslaved Africans in Virginia in 1619 to the Freedom Summer of 1964, and read about efforts to reshape how we teach Black history in schools in the 21st century.

39 Amanda Green,2014-06-03 After recovering from mental illness and many other adversities, Amanda Green published her true story ('My Alien Self: My Journey Back to

Me' on kindle). This is the journal of her life during the year following publication. Dysfunctional and ever more inspiring, this thought provoking memoir will take you into a whirlwind of love, humour, emotion, depression, adventures, music, animals, family health, counselling and relationships, as she strives to stay strong and achieve a life really worth living as a childless woman before her fast approaching 40th birthday. Due to flashbacks of dark scenes and sexual abuse, this memoir is for adults only and although it's a sequel, it can easily be read alone.

My Alien Self Victor Serebriakoff, 1990

Between Earth and Sky Amanda

Skenandore, 2018-04-24 In Amanda Skenandore's provocative and profoundly moving debut, set in the tragic intersection between white and Native American culture, a young girl learns about friendship, betrayal, and the sacrifices made in the name of belonging. On a quiet Philadelphia morning in 1906, a newspaper headline catapults Alma Mitchell back to her past. A federal agent is dead, and the murder suspect is Alma's childhood friend, Harry Muskrat. Harry—or Askú, as Alma knew him—was the most promising student at the “savage-taming” boarding school run by her father, where Alma was the only white pupil. Created in the wake of the Indian Wars, the Stover School was intended to assimilate the children of neighboring reservations. Instead, it robbed them of everything they'd known—language, customs, even their names—and left a heartbreaking legacy in its wake. The bright, courageous boy Alma knew could never have murdered anyone. But she barely recognizes the man Askú

has become, cold and embittered at being an outcast in the white world and a ghost in his own. Her lawyer husband, Stewart, reluctantly agrees to help defend Asku for Alma's sake. To do so, Alma must revisit the painful secrets she has kept hidden from everyone—especially Stewart. Told in compelling narratives that alternate between Alma's childhood and her present life, *Between Earth and Sky* is a haunting and complex story of love and loss, as a quest for justice becomes a journey toward understanding and, ultimately, atonement.

The Negro Motorist Green Book Victor H. Green, The idea of The Green Book is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Diversity and Entertainment Amanda Jackson Green, 2021-01-01 Film and television are major sources of entertainment and help define culture. Blockbusters like *Black Panther* and TV shows like *Black-ish* place Black characters and their experiences front and center. But Black people and Black culture have not always been represented in positive or accurate ways on screen and in many cases were portrayed by white actors. Learn about the long history of Black representation in entertainment and how

increased diversity continues to shape television and movies.

God and the Green Divide Amanda J. Baugh, 2017
American environmentalism historically has been associated with the interests of white elites. Yet religious leaders in the twenty-first century have helped instill concern about the earth among groups diverse in religion, race, ethnicity, and class. How did that happen and what are the implications? Building on scholarship that provides theological and ethical resources to support the “greening” of religion, *God and the Green Divide* examines religious environmentalism as it actually happens in the daily lives of urban Americans. Baugh demonstrates how complex dynamics related to race, ethnicity, and class factor into decisions to “go green.” By carefully examining negotiations of racial and ethnic identities as central to the history of religious environmentalism, this work complicates assumptions that religious environmentalism is a direct expression of theology, ethics, or religious beliefs.

In some cases, communities are forcibly removing them in protest. Discover the history of these controversial monuments from their creation to removal and learn about the ongoing debate regarding their place in modern society.

The Flash Press Patricia Cline Cohen, Timothy J. Gilfoyle, Helen Lefkowitz Horowitz, American Antiquarian Society, 2008-09-15 Obscene, libidinous, loathsome, lascivious. Those were just some of the ways critics described the nineteenth-century weeklies that covered and publicized New York City's extensive sexual underworld. Publications like the Flash and the Whip—distinguished by a

captivating brew of lowbrow humor and titillating gossip about prostitutes, theater denizens, and sporting events—were not the sort generally bound in leather for future reference, and despite their popularity with an enthusiastic readership, they quickly receded into almost complete obscurity. Recently, though, two sizable collections of these papers have resurfaced, and in *The Flash Press* three renowned scholars provide a landmark study of their significance as well as a wide selection of their ribald articles and illustrations. Including short tales of urban life, editorials on prostitution, and moralizing rants against homosexuality, these selections epitomize a distinct form of urban journalism. Here, in addition to providing a thorough overview of this colorful reportage, its editors, and its audience, the authors examine nineteenth-century ideas of sexuality and freedom that mixed Tom Paine's republicanism with elements of the Marquis de Sade's sexual ideology. They also trace the evolution of censorship and obscenity law, showing how a string of legal battles ultimately led to the demise of the flash papers: editors were hauled into court, sentenced to jail for criminal obscenity and libel, and eventually pushed out of business. But not before they forever changed the debate over public sexuality and freedom of expression in America's most important city.
