109 Ways to Beat the Casinos Walter

Thomason,1996-05 Are you tired of the mathematical mumbo-jumbo, confusing statistical formulae, and multiple-page mazes of meaningless numbers that you find in many casino gaming books? Would you like some simple, clear-cut advice on how to improve your chances of winning at every game of chance offered by the casinos? Then this book is for you. In this book they tell you in simple language how to maximise your gambling bankroll by applying winning strategies to each and every game -- from blackjack to craps, roulette to baccarat, slots to video poker, sports book betting to 'live' poker, plus 'best-bet' playing methodologies for new games like Carribean Stud, Let It Ride, and Three Card Poker. They tell you the best ways to play each game in 100 words or

less, while other books often use 1000 words or more.

*The Devil's Gambling Systems* Arthur Conrad, 2020-01-06 Why do some people always win at the casino? Because they know what the vast majority does not! After years of research, Arthur Conrad launched a series of books debunking the most common myths about the most popular casino games and revealing the REAL SECRETS behind Blackjack, Baccarat and Roulette, but this time he created this bundle, featuring his best-selling works in order to provide the most accurate information, gained from former casino owners, employees and game developers, to make you the most efficient gambler you can be!!! The real loopholes in casinos' systems are finally being revealed, teaching you about the people who managed to break the house-edge, the ones that put together intricate strategies and betting systems, the ones that failed, and the ones that succeeded. Covering topics such as: casino infrastructure, player behavior, promotions, credit management, betting systems, the best and worst bets according to science, and many more... The information you are about to learn will forever change the way you look at casinos and their games. Once you get past the flashing lights, loud music, free drinks and the euphoria of the game, it all comes down to probabilities, bet payouts and knowing what the casino does not want you to!!!
