Our Enemies in Blue Kristian Williams,2015-08-03 Let's begin with the basics: violence is an inherent part of policing. The police represent the most direct means by which the state imposes its will on the citizenry. They are armed, trained, and authorized to use force. Like the possibility of arrest, the threat of violence is implicit in every police encounter. Violence, as well as the law, is what they represent. Using media reports alone, the Cato Institute's last annual study listed nearly seven thousand victims of police misconduct in the United States. But such stories of police brutality only scratch the surface of a national epidemic. Every year, tens of thousands are framed, blackmailed, beaten, sexually assaulted, or killed by cops. Hundreds of millions of dollars are spent on civil judgments and settlements annually. Individual lives, families, and communities are destroyed. In this extensively revised and updated edition of his seminal study of policing in the United States, Kristian Williams shows that police brutality isn't an anomaly, but is built into the very meaning of law enforcement in the United States. From antebellum slave patrols to today's unarmed youth being gunned down in the streets, peace keepers have always used force to shape behavior, repress dissent, and defend the powerful. *Our Enemies in Blue* is a well-researched page-turner that both makes historical sense of this legalized social pathology and maps out possible alternatives.

Murder in Italy Candace Dempsey,2010-04-27 The true story behind the notorious international murder--updated to cover Amanda Knox's acquittal. In Perugia, Italy, on November 2, 2007, police discovered the body of a British college student stabbed to death in her bedroom. The prosecutor alleged that the brutal murder had occurred during a drug-fueled sex game gone wrong. Her housemate, American honor student Amanda Knox, quickly became the prime suspect and soon found herself the star of a sensational international story, both vilified and eroticized by the tabloids and the Internet. Award-winning journalist Candace Dempsey gives readers a front-row seat at the trial and reveals the real story behind the media frenzy. Beautifully researched, well-written, and clearly organized. Dempsey was the first journalist in the United States to raise questions about the Amanda Knox case, and the first to look deeply into the facts and begin to uncover the shocking truth. If you want to know the real story . you must read this book, reprinted after Knox's acquittal with a new ending.-Douglas Preston, New York Times bestselling author (with Mario Spezi) of *The Monster of Florence*

The Challenge of Crime in a Free Society United States. President's Commission on Law Enforcement and Administration of Justice,1967 This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five

national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.
