Connected Nicholas A. Christakis, James H. Fowler, 2009-09-28 Celebrated scientists Nicholas Christakis and James Fowler explain the amazing power of social networks and our profound influence on one another's lives. Your colleague's husband's sister can make you fat, even if you don't know her. A happy neighbor has more impact on your happiness than a happy spouse. These startling revelations of how much we truly influence one another are revealed in the studies of Dr. Christakis and Fowler, which have repeatedly made front-page news nationwide. In *Connected*, the authors explain why emotions are contagious, how health behaviors spread, why the rich get richer, even how we find and choose our partners. Intriguing and entertaining, *Connected* overturns the notion of the individual and provides a revolutionary paradigm—that social networks influence our ideas, emotions, health, relationships, behavior, politics, and much more. It will change the way we think about every aspect of our lives.

The Love Connection Michael R. Mundy, 2015-01-28 This book is about a journey into the workings of the Soul. The truth about a human being's life purpose and the keys to transform one's life have been discussed and written about for centuries, by many different people, of many different spiritual persuasions. These truths, whilst written in different languages and supported by different religious beliefs, nevertheless have come from the same Divine source, and subsequently are universal truth that when embraced bring forth unified outcomes. In the writing of this book I have harmonized these important Spiritual, Psychological and Philosophical truths, bringing them together to reveal the keys to a holistically successful life, body, mind and Soul. I envisage that by accepting and acting on this truth your life will be quietly transformed, perhaps from one of anxiousness and uncertainty, to one of calm and certainty, which will find you at peace with your past, intensely passionate about your present, and confident and calm about your future.

This Phenomenal Life Misha Blaise, 2017-03-01 Entertaining, colorful, and deceptively full of facts, *This Phenomenal Life* tells the story of the wondrous ways that humans are always completely at one with our surrounding world. From the vast galaxies above to the miniature microbes within, humans are organically connected to the complex cycles and mysterious processes of our universe. Every single atom of our body is made of remnants of stars and massive explosions in the galaxies, and we share the same biochemical basis of life with all living beings on earth, from a single-celled amoeba to a giant blue whale. Whimsically hip illustrations elucidate wild science-based facts, from the unexpected intimacy we have with fungi on a daily basis, to the similar ways that humans and birds learn to communicate. Powerful evidence of our interconnection with nature combined with beautiful artwork will inspire the reader to look at the world in a whole new way.

We're All in This Together Kirsten Brydum, Franklin Udall Lindsay, 2010-06 Brave, bighearted... An absolutely absorbing book of challenging power, a story of almost unbearable tensions. A modern life played out against the chaos of me and the divine order of we. Marie Dadisman The observations made in this work regarding the social impact of our current social strategies are poignant observations that beckon the reader to evaluate whether, or not, they wish to embrace and support our current paradigms for social order.

Learn To Live 2: The Image of Greatness William Reid, 2018-11-16 Greatness is a journey. It's a trip. It's a time thing. You don't get to be great; you become great. You don't get to be a great athlete, president, teacher, doctor, or Christian. You become great. Success doesn't come to you; you have to go after success. Your ship will never come in; you have to swim out to it. Great people read, study, learn, practice, and work hard. We are made in the image of greatness. Say yes to becoming a great Christian. That's what this book is about. *Learn to Live 2: The Image of Greatness*.

The Arts Connected with Building Thomas Raffles Davison,1909

Connected Communities Matthew A. Peeples,2018-02-20 The Cibola region on the Arizona-New Mexico border has fascinated archaeologists for more than a century. The region’s core is recognized as the ancestral homeland of the contemporary Zuni people, and the area also spans boundaries between the Ancestral Puebloan and Mogollon culture areas. The complexity of cross-cutting regional and cultural designations makes this an ideal context within which to explore the relationship between identity and social change at broad regional scales. In Connected Communities, Matthew A. Peeples examines a period of dramatic social and political transformation in the ancient Cibola region (ca. A.D. 1150-1325). He analyzes archaeological data generated during a century of research through the lens of new and original social theories and methods focused on exploring identity, social networks, and social transformation. In so doing, he demonstrates the value of comparative, synthetic analysis. The book addresses some of the oldest enduring questions in archaeology: How do large-scale social identities form? How do they change? How can we study such processes using material remains? Peeples approaches these questions using a new set of methods and models from the broader comparative social sciences (relational sociology and social networks) to track the trajectories of social groups in terms of both networks of interactions (relations) and expressions of similarity or difference (categories). He argues that archaeological research has too often conflated these different kinds of social identity and that this has hindered efforts to understand the drivers of social change. In his strikingly original approach, Peeples combines massive amounts of new data and comparative explorations of contemporary social movements to provide new insights into how social identities formed and changed during this key period.
