The Cambridge Companion to Wallace Stevens John N. Serio, 2007-01-18 Wallace Stevens is a major American poet and a central figure in modernist studies and twentieth-century poetry. This Companion introduces students to his work. An international team of distinguished contributors presents a unified picture of Stevens' poetic achievement. The Introduction explains why Stevens is among the world's great poets and offers specific guidance on how to read and appreciate his poetry. A brief biographical sketch anchors Stevens in the real world and illuminates important personal and intellectual influences. The essays following chart Stevens' poetic career and his affinities with both earlier and contemporary writers, artists, and philosophers. Other essays introduce students to the peculiarity and distinctiveness of Stevens' voice and style. They explain prominent themes in his work and explore the nuances of his aesthetic theory. With a detailed chronology and a guide to further reading, this Companion provides all the information a student or scholar of Stevens will need.

The Sound of Poetry / The Poetry of Sound Marjorie Perloff, Craig Dworkin, 2009-10-15 Sound—one of the central elements of poetry—finds itself all but ignored in the current discourse on lyric forms. The essays collected here by Marjorie Perloff and Craig Dworkin break that critical silence to readdress some of the fundamental connections between poetry and sound—connections that go far beyond traditional metrical studies. Ranging from medieval Latin lyrics to a cyborg opera, sixteenth-century France to twentieth-century Brazil, romantic

ballads to the contemporary avant-garde, the contributors to *The Sound of Poetry/The Poetry of Sound* explore such subjects as the translatability of lyric sound, the historical and cultural roles of rhyme, the role of sound repetition in novelistic prose, the connections between “sound poetry” and music, between the visual and the auditory, the role of the body in performance, and the impact of recording technologies on the lyric voice. Along the way, the essays take on the “ensemble discords” of Maurice Scève’s *Délie*, Ezra Pound’s use of “Chinese whispers,” the alchemical theology of Hugo Ball’s Dada performances, Jean Cocteau’s modernist radiophonics, and an intercultural account of the poetry reading as a kind of dubbing. A genuinely comparatist study, *The Sound of Poetry/The Poetry of Sound* is designed to challenge current preconceptions about what Susan Howe has called “articulations of sound forms in time” as they have transformed the expanded poetic field of the twenty-first century.

Close Listening Charles Bernstein, 1998-04-30 *Close Listening* brings together seventeen strikingly original essays, especially written for this volume, on the poetry reading, the sound of poetry, and the visual performance of poetry. While the performance of poetry is as old as poetry itself, critical attention to modern and postmodern poetry performance has been surprisingly slight. This volume, featuring work by critics and poets such as Marjorie Perloff, Susan Stewart, Johanna Drucker, Dennis Tedlock, and Susan Howe, is the first comprehensive introduction to the ways in which twentieth-century poetry has been practiced as a performance art. From the performance styles of individual poets and types of poetry to the relation of sound to meaning, from historical and social approaches to poetry readings to new imaginations of prosody, the entries gathered here investigate a compelling range of topics for anyone interested in poetry. Taken together, these essays encourage new forms of close listenings--not only to the printed text of poems but also to tapes, performances, and other expressions of the sounded and

visualized word. The time is right for such a volume: with readings, spoken word events, and the Web gaining an increasing audience for poetry, *Close Listening* opens a number of new avenues for the critical discussion of the sound and performance of poetry.

Stevens: Poems Wallace Stevens, 1993-11-02 These Everyman's Library Pocket Poets hardcover editions are popular for their compact size and reasonable price. *Poems: Stevens* contains a selection, chosen by Helen Vendler, of over sixty of Stevens's poems, revealing with renewed force his status as our supreme acrobat of the imagination.

Wallace Stevens Helen Vendler, 1986 In this graceful book, Helen Vendler brings her remarkable skills to bear on a number of Stevens' short poems. She shows us that this most intellectual of poets is in fact the most personal of poets; that his words are not devoted to epistemological questions alone but are also words chosen out of desire.

Stevens and Simile Jacqueline Vaught Brogan, 2014-07-14 Brogan traces in detail the Wallace Stevens increasingly sophisticated use of similes in order to demonstrate how they satisfied both his own intellectual needs and the needs of modern poetry. While thoroughly grounded in the poetry of Stevens, her book also explores the nature of language itself by demonstrating the possibilities, as well as the limitations, of either a romantic or a

deconstructive conception of language. Originally published in 1986. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Wallace Stevens' Experimental Language Beverly Maeder, 1999 Beverly Maeder uses an innovative rhetorical and philosophical approach to examine Stevens; linguistic exploration, arguing that these strategies allow Stevens; more radical poems to heighten the self-consciousness of language and test the limits of its non-ontological potential.

Poetry, Word-Play, and Word-War in Wallace Stevens Eleanor Cook, 2014-07 In the first full-length study of Wallace Stevens's

word-play, Eleanor Cook focuses on Stevens's skillful play with grammar, etymology, allusion, and other elements of poetry, and suggests ways in which this play offers a method of approaching his work. At the same time, this book is a general study of Stevens's poetry, moving from his earliest to his latest work, and includes close readings of three of his remarkable long poems-- *Esthetique du Mal*, *Notes toward a Supreme Fiction*, and *An Ordinary Evening* in New Haven. The chronological arrangement enables readers to follow Stevens's increasing skill and changing thought in three areas of his poetry of the earth: the poetry of place, the poetry of eros, and the poetry of belief. *Poetry, Word-Play, and Word-War in Wallace Stevens* shows how, in setting words at play and in conflict, Stevens could upset the usual relations of rhetoric, grammar, and dialectic, and thus the book contributes to the current debate about logical and a-logical uses of language. Cook also places Stevens within the larger context of Western literature, hearing how he speaks to Milton, Keats, and Wordsworth; to such American forebears as Whitman, Emerson, and Dickinson; and to T. S. Eliot, his contemporary. Originally published in 1988. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Metaphysics of Sound in Wallace Stevens Anca Rosu,2016-12-13 Demonstrates that Wallace Stevens's experimentation with sound is not only essential to his poetics but

also profoundly linked to the pragmatist ideas that informed his way of thinking about language.
