**The Monster Next Door** David Soman,2016-09-06 From the creator of Ladybug Girl and Three Bears in a Boat, this funny and endearing tale of friendship found and tested is perfect for fans of The Adventures of Beekle In a big field, a boy has a tree house, and one day, he has a neighbor—a monster with a talent for silly dances and funny faces. The two become fast friends, even setting up a pulley line to pass notes between their tree houses. The boy knows just how to celebrate this invention—with music! But the monster's tuba music is loud. Really loud. WAY. TOO. LOUD. Before the boy can think, he hurls a water balloon at his neighbor to get him to stop. An epic water-balloon fight ensues, until the boy—fed up, spent, done—cuts the pulley line. No more note-passing. No more monster. Can the boy and monster ever be friends again? Does the boy even want to? Maybe he just needs to see things from a new, unexpected perspective.

Person,2012-12-10 Noted technical analyst John Person outlines a comprehensive method to pinpointing today's best trading opportunities The economy and stock market are heavily influenced by seasonal factors. For example, a strong holiday buying season tends to be bullish for retail stocks or rising energy costs hurt airline profitability. Awareness of seasonal trends in both the economy and stock market can put you in a better position to profit from sectors and stocks that are likely to outperform the overall market. And technical tools can then be used to confirm emerging trends and time entries into these stocks and sectors. Mastering the Stock Market provides authoritative insights into a method for trading stocks based on seasonal trends, sector analysis, and market timing. Taking a top-down approach, the book explains how seasonal supply/demand forces impact commodities and different sectors of the stock market. Along the way, you'll also learn how to use the author's own indicators, Persons Pivots, to identify support/resistance areas and pinpoint optimal entry and exit points. Outlines a proven technical approach for trading stocks based on seasonal trends, sector analysis, and market timing Breaks new ground in comparative relative strength, trading volume, breadth indicators, and utilizing pivot analysis in conjunction with options expiration days to identify trading opportunities Written by noted technical analyst John L.
