I Am Error Nathan Altice,2015-05-01 The complex material histories of the Nintendo Entertainment System platform, from code to silicon, focusing on its technical constraints and its expressive affordances. In the 1987 Nintendo Entertainment System videogame *Zelda II: The Adventure of Link*, a character famously declared: I AM ERROR. Puzzled players assumed that this cryptic message was a programming flaw, but it was actually a clumsy Japanese-English translation of “My Name is Error,” a benign programmer's joke. In *I AM ERROR* Nathan Altice explores the complex material histories of the Nintendo Entertainment System (and its Japanese predecessor, the Family Computer), offering a detailed analysis of its programming and engineering, its expressive affordances, and its cultural significance. Nintendo games were rife with mistranslated texts, but, as Altice explains, Nintendo's translation challenges were not just linguistic but also material, with consequences beyond simple misinterpretation. Emphasizing the technical and material evolution of Nintendo's first cartridge-based platform, Altice describes the development of the Family Computer (or Famicom) and its computational architecture; the “translation” problems faced while adapting the Famicom for the U.S. videogame market as the redesigned Entertainment System; Nintendo's breakthrough console title *Super Mario Bros.* and its remarkable software innovations; the introduction of Nintendo's short-lived proprietary disk format and the design repercussions on *The Legend of Zelda*; Nintendo's efforts to extend their console's lifespan through cartridge augmentations; the Famicom's Audio Processing Unit (APU) and its importance for the chiptunes genre; and the emergence of software emulators and the new kinds of play they enabled.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Coders at Work Peter Seibel,2009-12-21 Peter Seibel interviews 15 of the most interesting computer programmers alive today in *Coders at Work*, offering a companion volume to Apress's highly acclaimed best-seller *Founders at Work* by Jessica Livingston. As the words “at work” suggest, Peter Seibel focuses on how his interviewees tackle the day-to-day work of programming, while revealing much more, like how they became great programmers, how they recognize programming talent in others, and what kinds of problems they find most interesting. Hundreds of people have suggested names of programmers to interview on the *Coders at Work* web site: www.codersatwork.com. The complete list was 284 names. Having digested everyone's feedback, we selected 15 folks who've been kind enough to agree to be interviewed: Frances Allen: Pioneer in optimizing compilers, first woman to win the Turing Award (2006) and first female IBM fellow Joe Armstrong: Inventor of Erlang Joshua Bloch: Author of the Java collections framework, now at Google Bernie Cosell: One of the main software guys behind the original ARPANET IMPs and a master debugger Douglas Crockford: JSON founder, JavaScript architect at Yahoo! Punk Rock Dad Jim Lindberg,2009-10-13 Jim Lindberg is a Punk Rock Dad. When he drives his kids to school in the morning, they listen to the Ramones, the Clash, or the Descendents—and that's it. They can listen to Britney and Justin on their own time. Jim goes to soccer games, dance rehearsals, and piano recitals like all the other dads, but when he feels the need, he also goes to punk shows, runs into the slam pit, and comes home bruised and beaten . . . but somehow feeling strangely better. While the other dads dye their hair brown to cover the gray, Jim occasionally dyes his blue or green. He makes his daughters' lunches, kisses their boo-boos, and tucks them in at night—and then goes into the garage and plays Black Flag and Minor Threat songs at a criminal volume. He pays his taxes, votes in all the presidential and gubernatorial elections, serves on jury duty, and reserves the right to believe that there is a vast Right Wing Conspiracy—and that the head of the P.T.A. is possibly in on it. He is a Punk Rock Dad.

Street Boners Gavin McInnes,2010-05-27 From the twisted mind of Gavin McInnes, the hilariously brilliant creator of *Vice* magazine and the ever-popular *Vice* Dos And Don'ts, comes the next stage in the evolution of street fashion critiques. Fifteen years after founding *Vice*, Gavin McInnes has poured his creative juices into a new endeavor: *StreetCarnage.com*. Growing in size and influence at an alarming rate, the site's main feature is the new and improved version of Gavin's DOs and DON'Ts, now tantalizingly called *Street Boners*. These Boners have been polished and compounded into a book that takes the best of the site and adds hundreds more gems! With 1,312 photos, hilarious captions, and a harsh new rating system—from one to 10 kitten faces—*Street Boners* makes sure no glorious fashion statement goes unnoticed. Innocent citizens are either damned to hell or relentlessly exalted into heaven. Chloe Sevigny, Debbie Harry, Fred Armisen, and Tim & Eric also contribute their scathing wit to the book, and the end result is a New York fashion bible no bathroom should be without.

Eclipse 3 Jonathan Strahan,2009-10-01 To observe an eclipse is to witness a rare and unusual event. Under darkened skies the sun becomes a negative image of itself, its corona transforming the landscape into a strange space where anything might happen, and any story may be true... In the spirit of classic science fiction anthologies such as Universe, Orbit, and Starlight, master anthologist Jonathan Strahan (The Best Science Fiction and Fantasy of the Year) presents the non-themed genre anthology Eclipse: New Science Fiction and Fantasy. Here you will find stories where strange and wonderful things happen--where reality is eclipsed by something magical and new. Continuing in the footsteps of the multiple-award-nominated anthologies Eclipse One and Eclipse Two, Eclipse Three delivers new fiction by some of the genre's most celebrated authors, including Karen Joy Fowler's story of a family's desperation and a rebellious young woman's strange incarceration; Ellen Klages's fable of a practical girl, an unusual tortoise, and an ancient mathematical puzzle; Pat Cadigan's story of a mysterious photograph and two friends' journey through space and time in order to solve its riddle; Jeffrey Ford's tale of a legendary sword imbued with the power to turn flesh to coral, and of the artist that wields it; Daniel Abraham's story of divine providence, sacred oaths, and the omens that indicate whether a man is fit to be king; and Caitlin R. Kiernan's chronicle of an astronaut whose memories of a lover lost to an alien intelligence haunt her.

Street Metal Detecting Rosie O'Kelly,2021-05-14 This book is the kick in the pants the hobby of metal detecting desperately needs today. It doesn't waste time teaching you about your detector. That's not its job. It's far beyond that. It's a plain written, straightforward, guide to rewarding metal detecting I wish existed when I first began detecting years ago! It's the perfect gift, not only for the new metal detectorist, but also the experienced metal detector who has grown bored and frustrated with the hobby. This work will drill down on where and HOW you should spend your time metal detecting today. Truth be told, metal detecting in 2021 is so much different than that of even ten years ago. The battlefields of today are barren. The parks and schoolyards are well and truly hunted out. And I am one of the rare few who dares to tell you this. Hunt these places today and you are wasting your time. There, I said it. Yet our hobby mopes along as if we are living back in the 50's, with loads of silver coins and jewelry, there for the taking. Sorry, but the Leave it to Beaver world that existed then ain't the hard scrabble world of today. Old school methods and approaches are outdated and don't give you any leg up, much less any useable knowledge, to undertake metal detecting in an exciting and profitable way today. You can, however, be an early pioneer and open your eyes to a novel way of metal detecting, one which can both help you start the hobby right, or reinvigorate a hobby which has become downright boring. Tired of digging clad coins, chewed up pennies, and cheap costume jewelry? So was I. Out of mad frustration one day, I tried something which blew me away and gave me instant rewards. Actually, the results of the first hunt plain stunned me! I have pursued this method of metal detecting now for a few years, refined it, and finally decided to share it with others. It is a truly a new frontier. It offers rewards enough to make me excited every time I go out.. I couldn't say that five years ago! What is this? Street metal detecting. This guide will tell you about my experiences and show you, with pictures, some of the incredible items I have recovered. More than this it will instill in your mind the foundations of why my approach to detecting today is so amazing. It also explains how you should do street detecting, step by step. This includes where to detect, the proper method, and example after example, all drawn from my experiences, impressing on you why this is the single best way to metal detect today. By the end, you will know what I tell you is grounded in reality and a philosophy. As a result you will adopt it and change your metal detecting forever. If I could drag you with me on one of my hunts, I doubt you would ever go back to a park or schoolyard. Yes, I feel that strongly about what's contained in this manual. Yes, you will read about some of the risks, but in this book I teach you how to mitigate them, and even use them to your advantage. Put another way, this is no pie in the sky read which promises much, and produces little. I am not a sales rep for detector manufacturers telling you to buy the latest most expensive detector if you want to succeed. In my approach, even the cheapest metal detector made will, when following my guidelines and suggestions, yield amazing finds. This hobby needs a do over and I think this book at least kick starts the process. Again, to me, if this guidebook was available to me as a raw beginner, I would have been eternally grateful. As for specifics, you will learn the right way to street detect as well as the perils of doing it wrong. I pull no punches here, but deal in plain logic and facts. It is a different world street detecting and there are some risks. But with any worthwhile undertaking, increased risk is usually commensurate with greater rewards. This is 2021, folks. The world has changed but metal detecting has neither recognized, nor has it adapted to, the realities of the challenges facing the hobby today.
