The WPA Guide to California Federal Writers' Project,2013-10-31 During the 1930s in the United States, the Works Progress Administration developed the Federal Writers' Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little-known authors—many of whom would later become celebrated literary figures—were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The guide to California stands out among the rest of the WPA guides for the quality of its writing, photographs, and pen-and-ink drawings. The Golden State contains much diversity of people, places, and things, and the WPA Guide expertly reflects and records the eclectic quality of this quintessentially American state. Published in 1939, the guide's essays on history cover everything from the gold rush to the movie industry at the nascence of Hollywood's golden age, and its back-road tours through California's coastal fishing villages and mountain mining towns still provide a splendid alternative to freeways.

Lifestyle Sports and Identities Tyler Dupont, Becky Beal, 2021-09-30 This book examines how different stages of adult life affect participation in lifestyle sports and in the construction of identity. Drawing on multi-disciplinary perspectives, it explores how gender, sexuality, ethnicity, and location, in conjunction with age and stage in career, affect lifestyle sport practices and meanings. Tracing engagement with lifestyle sport across the lifecourse, from young adult to older age, the book examines the concepts of authenticity and identity in subcultural and alternative sports, exploring how individuals develop lifestyle sport identities, maintain authentic identities, and how they manage those identities as older adults. It presents a range of fascinating, cutting-edge case studies from around the world, covering sports as diverse as climbing, surfing, mountain biking, skateboarding and roller derby, and considers key contemporary issues such as professionalisation, sports labor, and digital technology. It also highlights political tensions and shifts that shape the identities of lifestyle sport communities. This is essential reading for anybody with a serious interest in alternative or lifestyle sports, the relationships between sport and wider society, or the development of subcultures and cultural identity.

The Skateboarder's Journal - Lives on Board, 2009 A piece of wood, two trucks, four wheels ... a skateboard. You start by rolling down a sidewalk, and end up rolling through life. For some the ride stops at the end of the street; for others the ride never ends. This book was written by those for whom the ride is never-ending: by the 15-year-old grom who falls asleep dreaming of skateboarding; by the 40-something dad you see at the local skatepark; by the women whose stories have never been told; and by the 73-year-old architect who didn't begin skateboarding until the age of 65. Over 170 stories and 200+ photographs. The 'everyman/everywoman' are accompanied by contributions from some 'notable' skateboarders, and other personalities from the skateboard world ... Some of the great skateboarding photographers have graciously contributed to the book.--Description from www.amazon.com

Four Wheels and a Board Betsy Gordon,Jane Rogers,2022-11-01 A bold look at the creative, controversial, and vibrant history of skateboarding, and the amazing skaters who continually reinvent it. Skateboarding isn't just a recreational activity, but a professional sport, lifestyle, art form, and cultural phenomenon. The striking book *Four Wheels and a Board* captures its spirited history, iconic skateboarders, diverse community, and the palpable passion of the people who love it. It includes contributions from the most influential names in the game, including Rodney Mullen, Tony Hawk, Mimi Knoop, and more. The gorgeously designed book presents objects, artifacts, and photographs from the Smithsonian's collections that exemplify the vitality and innovation of skate culture. Book chapters are organized chronologically by decade from the '60s to present day, starting with 20th-century surfboards, moving through technological changes, the disappearance of skate parks, the rise of social media and collaborations, and ending with never-before-seen objects from the 2020 Summer Olympics, where skateboarding made its historic Olympic debut. Largely invented by youth, skateboarding has attracted punks, misfits, and dreamers looking for somewhere to belong. The book features skateboards and skaters who open dialogues about race, the gender binary, queerness, the displacement of Native people, and so much more, shining a light on people and places not often represented in traditional skateboard history. *Four Wheels and a Board* is a fresh look at a transformative culture, and one hell of a ride.
