

Amazonas In Search Of Mother Nature

Pope Francis, Ecumenical Patriarch Bartholomew

Where Madness Follows ,2012 Where Madness Follows is the story about the search for gold in the Amazon. This is an epic journey into the heart of the world's greatest jungle. It is a compelling insight into the trials and tribulations of a people left to fend for themselves in their struggle against Mother nature and their quest for a new life in God's Green Hell. These are the images and words of madness that followed.--Jacket.

In Search of the Rain Forest Candace Slater,2004-03-22 The essays collected here offer important new reflections on the multiple images of and rhetoric surrounding the rain forest. The slogan "Save the Rain Forest!"—emblazoned on glossy posters of tall trees wreathed in vines and studded with monkeys and parrots—promotes the popular image of a marvelously wild and vulnerable rain forest. Although representations like these have fueled laudable rescue efforts, in many ways they have done more harm than good, as these essays show. Such icons tend to conceal both the biological variety of rain forests and the diversity of their human inhabitants. They also frequently obscure the specific local and global interactions that are as much a part of today's rain forests as are the array of plants and animals. In attending to these complexities, this volume focuses on specific portrayals of rain forests and the consequences of these characterizations for both forest inhabitants and outsiders. From diverse disciplines—history, archaeology, sociology, literature, law, and cultural anthropology—the contributors provide case studies from Latin America, Asia, and Africa. They point the way toward a search for a rain forest that is both a natural entity and a social history, an inhabited place and a shifting set of ideas. The essayists demonstrate how the single image of a wild and yet fragile forest became fixed in the popular mind in the late twentieth century, thereby influencing the policies of corporations, environmental groups, and governments. Such simplistic conceptions, *In Search of the Rain Forest* shows, might lead companies to tout their "green" technologies even as they try to downplay the dissenting voices of native populations. Or they might cause a government to create a tiger reserve that displaces peaceful peasants while opening the doors to poachers and bandits. By encouraging a nuanced understanding of distinctive, constantly evolving forests with different social and natural histories, this volume provides an important impetus for protection efforts that take into account the rain forest in all of its complexity. Contributors. Scott Fedick, Alex Greene, Paul Greenough, Nancy Peluso, Suzana Sawyer, Candace Slater, Charles Zerner

At the Mercy of Mother Nature Shobana GOMES,2017-05-20 There is a lesson to be learned with every catastrophe that befalls Man - past, present and future - There is a dire need to understand that if there is exploitation of nature, no matter where one is, one can never be assured of being safe from Mother Nature's treacherous wrath at some time or other as she does not recognize the innocent from the not!

Mother of God Paul Rosolie,2014-03-18 For fans of *The Lost City of Z*, *Walking the Amazon*, and *Turn Right at Machu Picchu* comes naturalist and explorer Paul Rosolie's extraordinary adventure in the uncharted tributaries of the Western Amazon—a tale of discovery that vividly captures the awe, beauty, and isolation of this endangered land and presents an impassioned call to save it. In the Madre de Dios—Mother of God—region of Peru, where the Amazon River begins its massive flow, the Andean Mountain cloud forests fall into lowland Amazon Rainforest, creating the most biodiversity-rich place on the planet. In January 2006, when he was just a restless eighteen-year-old hungry for adventure, Paul Rosolie embarked on a journey to the west Amazon that would transform his life. Venturing alone into some of the most inaccessible reaches of the jungle, he encountered giant snakes, floating forests, isolated tribes untouched by outsiders, prowling jaguars, orphaned baby anteaters, poachers in the black market trade in endangered species, and

much more. Yet today, the primordial forests of the Madre de Dios are in danger from developers, oil giants, and gold miners eager to exploit its natural resources. In *Mother of God*, this explorer and conservationist relives his amazing odyssey exploring the heart of this wildest place on earth. When he began delving deeper in his search for the secret Eden, spending extended periods in isolated solitude, he found things he never imagined could exist. "Alone and miniscule against a titanic landscape I have seen the depths of the Amazon, the guts of the jungle where no men go, Rosolie writes. "But as the legendary explorer Percy Fawcett warned, 'the few remaining unknown places of the world exact a price for their secrets.'" Illustrated with 16 pages of color photos.

Mother of God Paul Rosolie, 2014 Madre de Dios â€”Mother of Godâ€”(tm) â€”is a place where the Andean Cloud Forest intermingles with the steaming tropical jungle at the head of the Amazon river. Here can be found the greatest proliferation of living species that has ever existed on Earth, ever. And it is a place which is now under grave threat. Paul Rosolie has travelled to the very

heart of this wilderness in search of rare flora and fauna. His adventures â€” with giant anacondas, huge cayman, the mighty jaguar and one very small anteater â€” are by turn thrilling, terrifying and revelatory. Paul crosses some of the worldâ€™s harshest terrain and encounters some of its most extreme weather conditions. He battles with life-threatening tropical diseases and the extreme mental challenges presented by being alone in the heart of the jungle. Mother of God is an astonishing tale of adventure and survival, set in one of the worldâ€™s few remaining truly wild places. Itâ€™s a story of nature, red in tooth and claw, and how we must both respect its awesome power and protect its extraordinary glory.

Our Mother Earth Pope Francis, Ecumenical Patriarch Bartholomew, 2020-08-27 Gathered from the writings and discourses of Pope Francis on the environment, Our Mother Earth sets forth a Christian vision of ecology. Responding to our global ecological crisis, Pope Francis says, will require a global approach in which the whole human family in the search for a sustainable and integral development unites to protect our common home. Pollution, climate change, loss of biodiversity, and exploitation of resources will grow exponentially if we do not change our direction in the short term. We need an environmental conversion, Pope Francis says. For this to be possible, we need a truly ecological education to create a renewed awareness and a renewed conscience. In an exclusive new essay that concludes Our Mother Earth, Pope Francis develops a theology of ecology in a profoundly spiritual discourse. This final chapter offers thoughts on how a Christian vision of care for the earth goes well beyond a secular vision of ecology. This means that it is for humanity's capacity for communion to condition the state of creation. ... It is therefore humanity's destiny to determine the destiny of the universe.

Mother Earth, Mother Africa and Mission Seblewengel Daniel, Mmapula Diana Kebaneilwe, Angeline Savala, 2021-07-01 The volume is significant in bringing together voices of African women theologians and their allies on the urgent topic of ecology. First, it decisively intervenes into scholarly discourses on ecofeminism by highlighting the reflections of African women scholars and African women as subjects. This function of the volume is very important both at local and global levels. Second, it contributes to contextualizing of scriptural interpretation around the issue of ecology. Biblical reflection occurs throughout the volume and is put into dialogue with African traditions, with ecofeminism, with Africa-based mission projects, and with the current crisis of sustainability and African women's roles in protecting the earth. Third, the volume includes several concrete case studies based on interviews and grassroots qualitative research, as well as especially original articles that integrate biblical exegesis of Genesis with reflections on patriarchal legal systems in Botswana, and an original take on "male headship" in relation to ecofeminism. – Professor Dana L.
