The Authority On? Child Safety Gary Martin Hays,Adam Weart,Mary Ellen Fulkus,2012-11-30 What Would Your Child Do in these situations? * If your child was approached on the playground and asked if he could help find a lost puppy, what would he do? * If you and your daughter became separated in the mall, what would she do? * If your home catches on fire in the middle of the night, would your children know what to do? * If he is being bullied in the bathroom at school or on the bus, what should he do? Do you really know how your child would respond (or should respond), or are you just guessing? Have you ever asked him or her to find out? Would you know what to ask or how to ask it? Would you know what to discuss with your child in these situations? The Authority On Child Safety: How To Talk To Your Kids About Their Personal Safety Without Scaring Them is NOT just a book that tells parents how to keep their kids safe. We want to make that point perfectly clear. If you think that your kids will be safe because you bought and read a book about child safety, then you are sadly mistaken. What you learn and digest does not matter one bit unless your child also learns safety concepts and drills. Then why should you buy it? This is the first place to start with educating your child on how to be safe. This is an interactive guide for parents to use to BEGIN the dialogue with their kids on how to be safe. We can not be with our kids 24/7. We will not always be there to protect them. At some point, they need to be empowered to stand up for themselves and to be able to protect themselves. Honestly ask yourself - what are you doing for your child - for your children - right now that is helping them to be able to protect themselves when you are not around? We are giving you a blueprint for you to use to start that process - right here, right now! In this guide, you will learn: * Why sticking your head in the sand and pretending crime does not exist is NOT a great way to protect your child (or yourself); * Important crime statistics that cannot be ignored! * Why Stranger Danger should NEVER be taught to our kids! * Where the registered sex offenders live in your area (hint: The U.S. Dept. Of Justice tells us there is on average one sex offender per square mile in the US); * Why your child is NEVER too young to learn safety concepts; * Why you should not be comfortable in thinking your child is safe because you never leave your kid alone with someone you don't know; * Why the Once A Year Safety Day programs in our schools are not working; * Why education is the key to keeping our kids safe! * HOW TO start the all important dialogue with your child about safety issues they may face, including topics such as: -Abduction Prevention -Bullying Prevention -Good / Bad / Unwanted Touch - Sexual Assault Prevention -Home Safety -Water Safety -Fire Safety -Bicycle Safety -Car Safety -Dog Safety -Gun Safety -Out and About Safety -Internet Safety -Social Media Safety -Drug and Alcohol Awareness * How to EMPOWER you child! So how do you keep your child from becoming a victim? Education is the key. And it starts with a simple conversation between you and your child. We need to make sure our kids are taught to: (1) Understand and be able to recognize dangerous situations and behaviors. (2) Trust their gut - to trust their instincts. If something does not feel right to them, it probably isn't. (3) Have the self-confidence to be able to say NO if they ever feel threatened. You can't rely on our schools or others to empower your child. The process must start with you and we show you how to begin. Also note: ALL proceeds from the sale of this book will benefit Let's Protect Our Kids, a program of Keep Georgia Safe.org, a 501(c)(3) charitable organization with the mission to provide safety education and crime prevention training.

Safe Kids, Smart Parents Rebecca Bailey,Elizabeth Bailey,2013-06-11 This practical guide to keeping children safe at any age empowers both parents and kids to be alert, follow a safety list and to critically assess situations to take the right steps to reduce risks.

Don't Take My Child Don Richard,John Brodie,2001 In this startling and penetrating book, the authors offer their firsthand insights into the complex world of child abduction and how professionals investigate these insidious crimes. The book takes us through the process of interagency investigations, media involvement, and the lives of those who are seeking answers to the whereabouts of their children -- and even shows readers how to protect their own families from abduction. Don't Take My Child also features photographs of children who were abducted and perhaps even murdered over the years -- as well as photographs of their parents, many of whom are continually working towards making their communities safer. This timely and important book is a must-purchase for any concerned parent in America today.

Investigating Missing Children Cases Donald F. Sprague,2012-09-18 Time is an abducted child's worst enemy. Seventy-four percent of abducted children who are murdered are killed within three hours of their abduction. It takes, on the average, two hours for a parent to report a child missing. This gives responders only one hour to get an investigation up and running in an attempt to locate and recover the child alive. Investigating Missing Children Cases: A Guide for First Responders and Investigators provides a solid training guide on missing children investigative techniques, enabling law enforcement professionals to respond confidently with a plan of action that offers the best possible chance for a positive outcome. The book provides law enforcement agencies with the most current information available to guide them through a missing or runaway child dispatch. It is designed to help investigators respond quickly, expeditiously evaluate the situation, conduct an Endangerment Risk Assessment (ERA) of the child, and commence a thorough, organized investigation—starting from the moment the police are contacted. By following the guidelines in this book, those tasked with these cases can make the best possible decisions in the shortest amount of time. The protocols and methodologies presented are based on personal police experience and statistical evidence from research and studies gathered from thousands of runaway and missing children cases. Details on those studies and their findings are provided in the appendix. Time is of the essence in missing children cases. Make every second count.

Safe Kids, Safe Families Samantha Wilson,2005

An AMBER Alert national system United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Technology, Terrorism, and Government Information,2003

Stranger Danger Paul M. Renfro,2020-05-01 Beginning with Etan Patz's disappearance in Manhattan in 1979, a spate of high-profile cases of missing and murdered children stoked anxieties about the threats of child kidnapping and exploitation. Publicized through an emerging twenty-four-hour news cycle, these cases supplied evidence of what some commentators dubbed a national epidemic of child abductions committed by strangers. In this book, Paul M. Renfro narrates how the bereaved parents of missing and slain children turned their grief into a mass movement and, alongside journalists and policymakers from both major political parties, propelled a moral panic. Leveraging larger cultural fears concerning familial and national decline, these child safety crusaders warned Americans of a supposedly widespread and worsening child kidnapping threat, erroneously claiming that as many as fifty thousand American children fell victim to stranger abductions annually. The actual figure was (and remains) between one hundred and three hundred, and kidnappings perpetrated by family members and acquaintances occur far more frequently. Yet such exaggerated statistics-and the emotionally resonant images and narratives deployed behind them-led to the creation of new legal and cultural instruments designed to keep children safe and to punish the strangers who ostensibly wished them harm. Ranging from extensive child fingerprinting drives to the milk carton campaign, from the AMBER

Alerts that periodically rattle Americans' smart phones to the nation's sprawling system of sex offender registration, these instruments have widened the reach of the carceral state and intensified surveillance practices focused on children. Stranger Danger reveals the transformative power of this moral panic on American politics and culture, showing how ideas and images of endangered childhood helped build a more punitive American state.

Frequently Asked Questions About Kidnapping and Abduction Kristina Lundblad,Randy Shattuck,2011-12-15 It has been estimated that more than 250,000 young people are abducted annually in the United States. In this compelling volume, readers learn about the types of abduction and kidnapping—both by family members and strangers—and how abductors operate. Some abductors follow victims home and force their way in when the victims have opened the door. Others use parking lots, shopping malls, or walkways—attacking when victims are distracted or alone. Readers learn techniques to protect themselves from being potential victims, including steps to take for Internet security. Various national and local safety measures, including Megan's Law, the AMBER Alert system, and the Child Abduction Response Teams system are presented as well.

Amber Alerts Amber C. K. Young,Linda E. Smith,2013-01-31 Amber Alerts (also referred to as AMBER plans) were created to disseminate information about child abductions in a timely manner. Research has found that most abducted children murdered by their kidnappers are killed within three hours of the abduction. Prompt response to child abductions is therefore deemed critical by many. Amber Alert plans are voluntary partnerships including law enforcement agencies, highway departments, and companies that support emergency alerts. This book discusses best practices and program technology for Amber alerts. (Imprint: Novinka).

Amber Alert Best Practices U.s. Department of Justice,Office of Justice Programs,Office of Juvenile Justice and Delinquency Prevention,2012-07-13 The first few minutes and hours after a child has been abducted are critical to any search and rescue effort. They often can mean the difference between a happy reunion between parents and child and missed opportunities and regret. At these crucial moments, everyone involved in the search and rescue effort must understand how the entire process works and his or her role in the effort. This guide, which spells out roles and responsibilities and the progression of events in a well-coordinated AMBER Alert process, was created to support and improve national, state, regional, and local responses to child abductions. Over the past decade, as AMBER Alert has expanded into a nationwide program, we at the Office of Justice Programs and the Office of Juvenile Justice and Delinquency Prevention have worked hard to identify what works and how we can improve the process of issuing an alert and coordinating public input into the search. We have sought out the many AMBER Alert stakeholders for their expertise and insights into how to enhance the process. Our partners have told us a great deal about what works and what issues must be considered to develop an effective AMBER Alert plan. This publication encapsulates the knowledge and expertise that our partners have shared with us. It provides a general overview of each discipline's responsibilities when an AMBER Alert has been issued and recommends practices to improve the response to cases of missing or abducted children. We have made tremendous progress since 1996, when the first AMBER Alert plan was launched. However, as with any major initiative that brings together many agencies and organizations, we must remain vigilant and find ways to improve our understanding of how each stakeholder's role and responsibility fits into the overall collaboration. The stakes are high because the safety and welfare of our children are in the balance. This guide will help states and communities more effectively execute and coordinate their response when their children need them the most.

A Child's Book of Dog Body Language with Pictures Amber Richards,2014-11-01 This is a book intended to be read by an adult to a child. The adult can determine which portions or the entire book, that is age appropriate. It is an educational book to help prevent possible dog bites or attacks, as well as helping children know how to treat a dog, in order to have good relationships with them. Too often as parents, we simply don't think about teaching safety issues concerning dogs, until there's a situation happening. That is not the time for teaching, but for action. Prevention can go a long way. Even if you don't own a dog, every child should be taught, as they will come into contact with dogs in other situations. This book is one an adult can use for both a child who may be fearful of dogs, and a child who is too bold with dogs, and should learn more respect. Parents know the stages of their kids as well as the child's temperament and history they've had with dogs. All these factors come into play when teaching about safety and dogs. This is a subject that all too often doesn't get taught at all. The book closes with some silly photos to end on a lighter note.

Child Abduction Robert L. Snow,2008-09-30 While most people have heard about high-profile abductions such as the Elizabeth Smart case, such abductions are not isolated cases. The abduction of children occurs much more often in our country than most people would suspect, but because of a fault in our country's national crime reporting procedures, no one knows the true number. This book details the scope of the child abduction problem in the United States, and its very real danger. It covers the different types of abductions and discusses the psychological changes that can occur in long-term abducted children that will often stop them from attempting to escape, or even to seek help, though good opportunities may present themselves. Snow also discusses the danger to secondary victims of child abduction. He devotes several chapters to what both parents and the government can do to stop many of the child abductions that now occur, and, for those not stopped, steps parents can take that will greatly assist the authorities in quickly locating and safely rescuing an abducted child. He concludes with a chapter on the psychological and emotional concerns of recovered abducted children, and how families can help them re-integrate themselves into a normal life. Real life examples are provided in every chapter. It is every parent's worst nightmare. Someone has abducted their child, and no one, including the police, has a clue where the child is. But worse, while parents feel certain their child is terrified and crying desperately for them, they don't know if their child is being physically mistreated, sexually molested, or worse. The uncertainty and powerlessness can drive parents of abducted children to the edge of insanity. But there are measures parents and children can take to avoid being the victim of abduction. There are things families can do, too, to apprehend offenders and bring children home even after an abduction occurs. Here, a retired police captain offers expert advice designed to help keep children safe and to help families deal with an abduction once it has occurred. Practical advice is offered throughout to families and professionals that will help all involved handle this tense and terrifying experience. Featuring such prominent cases as the abductions of the Groene children in Idaho in 2005, Christopher Michael Barrios in Georgia in 2007, Zina Linnick in Washington in 2007, Mychael Darthard-Dawodu in Texas in 2007, Crystal Chavez in Texas in 2002, Elizabeth Smart in Utah in 2002, the Montano children in Florida in 2003, the Walker children in Indiana in 2007, the Nunez children in California in 2002, Emily Johnson in Indiana in 2007, Ludwig Koons in New York in 1993, the Beveridge children to the United States from Australia in 2000, Erica Pratt in Pennsylvania in 2002, Clay Moore in Florida in 2007, the Hari children in Illinois in 2005, Samantha Runnion in California in 2002, Ben Ownby in Missouri in 2007, Shawn Hornbeck in Missouri in 2002, Steven Stayner in California in 1972, Natascha Kampusch in Austria in 1998, Jessica Lunsford in Florida in 2005, Carlie Brucia in Florida in 2004, Amber Hagerman in Texas in 1996, the Nguyen children in Canada in 2006, and Cecilie Finkelstein from Sweden to the United States in 1975.
