Iñigo Sánchez-Fuarros, Daniel Paiva, Daniel Malet Calvo

Ambiance, Tourism and the City Iñigo Sánchez-Fuarros, Daniel Paiva, Daniel Malet Calvo, 2023-04-28 *Ambiance, Tourism and the City* considers how tourism and urban development affect the lived ambiances of contemporary cities around the world. As most of the existing literature on sensory atmospheres says little about the intersection between tourism and atmospheric production, this book affirms the centrality of the notion of ambiance as a mode of inquiry into the making and remaking of urban places for tourist consumption. The book takes the reader into the sensory worlds of a traditional Italian marketplace, a jungle park in Kuala Lumpur, a slum in the Colombian city of Medellín, or the sun and sand tourism destinations in Southern Spain, among other case studies. It offers new insights into the impact of tourism on the urban environment from multidisciplinary perspectives and a wide range of geographical regions across Europe, North America, Asia, and South America. Through these contemporary case studies, the book further deepens our understanding of the ways in which ambiances and atmospheres pervade the physical regeneration and sensory transformation of contemporary tourist destinations. Conversely, this book offers insights on the effects of tourism on everyday urban experience. By bringing together a diverse group of scholars and case studies to present a global perspective on the atmospheric production of the tourist city, this book is to serve as a valuable reference tool for researchers and undergraduate and postgraduate

students with an interest in urban ambiances, tourism, cultural geography, and urban planning.

Reconstructing Urban Ambiance in Smart Public Places Abusaada, Hisham, Salama, Ashraf M., Elshater, Abeer, 2020-06-19 New technologies have the power to augment many aspects of society, including public spaces and art. The impact of smart technology on urban design is vast and filled with opportunity and has profound implications on the everyday urban environment. Only by starting new conversations can we develop further contemporary insights that will affect how we move through the world. *Reconstructing Urban Ambiance in Smart Public Places* is a pivotal reference source that provides contemporary insights into a comprehensive interpretation of urban ambiances in smart places as it relates to the development of cities or to various levels of intervention in extant urban environments. The book also examines the impact of architectural design on the creation of urban ambience in artworks and how to reflect this technique in the fields of professional architectural practice. While covering a wide range of topics including wellbeing, quality-related artistry, and atmosphere, this publication combines smart technological innovation with creative design principles. This book is ideally designed for civil engineers, urban designers, architects, entrepreneurs, policymakers, researchers, academicians, and students.

Virtual World Design Ann Latham Cudworth, 2014-07-15 Learn How to Create Immersive Virtual Environments Written by an award-winning designer with 20

years of experience designing virtual environments for television and online communities, Virtual World Design explores the intertwining disciplines of 2D graphics, 3D models, lighting, sound, and storytelling. It illustrates how these disciplines come together by design in the creation of an accessible virtual environment for teaching, research, and entertainment. The book gives anyone the tools and techniques to design virtual environments that support their message and are accessible by all. With 200 illustrations and 12 step-by-step projects, the book delivers hours of creative challenges for people working in public virtual worlds or on private grids. Using the modular components available for download on the author's website, readers learn by building such things as a virtual classroom, an all-access terrain, and a sound-based game. This book can be the foundation for class work in distance learning, simulation, and other learning technologies that use virtual environments. It shows both novices and advanced users how 3D composition, color, lighting, and sound design are used in the creation of an immersive virtual environment.

Ecodeign Alastair Fuad-Luke, 2002-04 Alas, environmentally friendly design hasn't always meant high style. Confronting that challenge head on, ecoDesign lists well over 500 consumer products for those who seek design that's not only beautiful and useful, but also has minimal impact on the earth. Some of these pieces—from clothing to kitchenware, electronics, furniture, and much, much more—have already become classics. But this remarkable sourcebook also

guides readers to undiscovered gems and handcrafted objects from artisanal studios. Detailed illustrated entries describe the products themselves, while an extensive reference section defines these new and hybrid materials and provides information on manufacturers, design studios, green organizations, and a further reading list. ecoDesign is the total resource guide for a new generation of contemporary design.

Ubiquitous Computing and Ambient Intelligence: Personalisation and User Adapted Services Ramón Hervás, Sungyoung Lee, Chris Nugent, José

Bravo, 2014-11-10 This book constitutes the refereed proceedings of the 8th International Conference on Ubiquitous Computing and Ambient Intelligence, UCAmI 2014, held in Belfast, UK, in December 2014. The 57 papers presented together with 7 papers of the workshop AmIUA 2014, 8 papers of the workshop IoT 2014, 7 papers of the workshop EUSPAI 2014, and 6 papers of the workshop VSS 2014 were carefully reviewed and selected from numerous submissions. The papers are grouped in topical sections on key application domains for ambient intelligence, human interaction in ambient intelligence, ICT instrumentation and middleware support for smart environments and objects, adding intelligence for environment adaption, and security and privacy issues in AAL.

Vacationland William Philpott, 2013-08-25 Winner of the Western Writers of America 2014 Spur Award for Best Western Nonfiction, Contemporary Mention the

Colorado high country today and vacation imagery springs immediately to mind: mountain scenery, camping, hiking, skiing, and world-renowned resorts like Aspen and Vail. But not so long ago, the high country was isolated and little visited. Vacationland tells the story of the region's dramatic transformation in the decades after World War II, when a loose coalition of tourist boosters fashioned alluring images of nature in the high country and a multitude of local, state, and federal actors built the infrastructure for high-volume tourism: ski mountains, stocked trout streams, motels, resort villages, and highway improvements that culminated in an entirely new corridor through the Rockies, Interstate 70. Vacationland is more than just the tale of one tourist region. It is a case study of how the consumerism of the postwar years rearranged landscapes and revolutionized American environmental attitudes. Postwar tourists pioneered new ways of relating to nature, forging surprisingly strong personal connections to their landscapes of leisure and in many cases reinventing their lifestyles and identities to make vacationland their permanent home. They sparked not just a population boom in popular tourist destinations like Colorado but also a new kind of environmental politics, as they demanded protection for the aesthetic and recreational qualities of place that promoters had sold them. Those demands energized the American environmental movement-but also gave it blind spots that still plague it today. Peopled with colorful characters, richly evocative of the Rocky Mountain landscape, Vacationland forces us to consider

how profoundly tourism changed Colorado and America and to grapple with both the potential and the problems of our familiar ways of relating to environment, nature, and place.

Louisiana Richard Bizier,1998-02-28 Louisiana presents an overview of the culture in the New World and Louisiana, including related literature, such as Longfellow's Evangeline. For the visitor, the state is divided into geographic regions such as New Orleans, the plantations, and Lafayette. For each area, tours, historic sites, and restaurants are described. The section on New Orleans celebrates the French Quarter and the local food and music. Outside of New Orleans are majestic plantations and beautiful bayous filled with cypress trees and hanging Spanish moss. Side trips from New Orleans allow visitors to sample some of the various musical tastes of the Bayou State. Zydeco music may be found in Lafayette, while Cajun music may be heard throughout the southern part of the state. Special features include information on consulates, tourist offices, banks and currency exchanges, and maps which, among other things, show distances between cities. With Louisiana , anyone can pass a good time and learn how to let the good times roll, or, as the Cajuns say rouler.

Porous Coordination Polymers Nidhi Goel, Ki-Hyun Kim, 2024-01-26 *Porous Coordination Polymers: From Fundamentals to Advanced Applications* brings together the latest advances in Porous Coordination Polymers (PCPs) for cutting-edge applications. The book begins by introducing PCPs, highlighting their structure, chemistry, basic properties and design approaches. This is followed by a chapter focusing on synthesis methods and mechanical properties. Subsequent chapters provide in-depth coverage of specific target

applications, explaining the preparation of PCPs for areas including catalysis and photocatalysis, environmental remediation, gas storage and separation, energy storage and conversion, new generation magnets, nanocarriers in therapeutics, and biomedical imaging. Finally, current challenges and future developments are considered in detail. Porous Coordination Polymers are gaining increasing interest due to their attractive properties, such as structural flexibility, large surface area, tailorable pore size, and functional tunability, in turn enabling a wide range of possible applications which this book aims to highlight and to elucidate. This is a valuable resource for researchers and advanced students across polymer science, inorganic chemistry, environmental science, and materials science and engineering, as well as engineers, scientists, and R&D professionals with an interest in porous coordination polymers (PCPs) and novel polymeric materials for advanced industrial applications. Explores porous coordination polymers in detail while highlighting key ideas. Provides in-depth discussion of the design and development of new porous coordination polymers. Addresses present issues and looks at potential future developments in this innovative field.

Atmosphere Michael Laimo, 2017-12-25 Frank Ballaro, police detective, is retiring shortly. Or is he? A trail of blood on the curb outside his apartment leads to an alley where two young men have been severely mutilated. But they're not dead. Something keeps them alive. In the hands of one is a

strange object, something he holds onto for dear life. Something he calls...atmosphere.

Handbook of Infant Mental Health Charles H. Zeanah, 2018-09-04 The definitive reference in the field--now significantly revised with 75% new material--this volume examines typical and atypical development from birth to the preschool years and identifies what works in helping children and families at risk. Foremost experts explore neurobiological, family, and sociocultural factors in infant mental health, with a major focus on primary caregiving relationships. Risk factors for developmental problems are analyzed, and current information on disorders and disabilities of early childhood is presented. The volume showcases evidence-based approaches to assessment and intervention and describes applications in mental health, primary care, child care, and child welfare settings. New to This Edition: *Chapters on genetic and epigenetic processes, executive functions, historical trauma, and neglect. *Chapters on additional clinical problems: hyperactivity and inattention, sensory overresponsivity, and relationship-specific disorder. *Chapters on additional interventions: attachment and biobehavioral catch-up, video-feedback intervention to promote positive parenting and sensitive discipline, parent-child interaction therapy, and home visiting programs. *Existing chapters all rewritten or revised to reflect a decade's worth of empirical and clinical advances.
