Ambulance No. 10. Personal Letters Of A Driver At The Front [Illustrated Edition] Leslie Buswell,2014-06-13 "Letters describing the daily life and activities of a section of the voluntary "American Ambulance Field Service in France", operating over a period of four months in 1915 in Lorraine in support of the French. These letters were written by a member of the American Ambulance Field Service in France, a voluntary organisation that came into existence soon after the outbreak of war and in 1916 had over 200 motor ambulances. They were driven by young American volunteers, most of them graduates of American universities, who got no salary but their living expenses were paid. The ambulances were grouped in sections of twenty to thirty vehicles, attached to the French Armies and carried the wounded between the front and Army Hospitals within the Army zone. They were particularly useful in Alsace where their light but powerful vehicles were able to cope with the steep mountain passes which French motor

ambulances could not manage. The section in which the writer of these letters served and whose daily life and activities he describes was located in Lorraine. The letters cover a period of four months from June to October 1915 and were first published in 1915 under the title With the American Ambulance Field Service in France, changed to Ambulance No 10 for this 1916 edition, purely for the sake of brevity. There is plenty of action to read about in this correspondence and there are interesting photographs.”-N&M Print Version.

Ambulance No. 10 Leslie Buswell, 2005 World War One/military/medical Leslie Buswell failed his military medical but determined to serve in the "Great War" made his way to France, serving in the American Field Ambulance Service driving Car No 10. His letters home to the USA depict a true hero, albeit sickened by the futility of war and the horrors of trench warfare. "The horror of the whole war is growing on me day by day, and sometimes when I have got into my bed or am trying to get a few hours' sleep on a stretcher (every other night I am on duty and so cannot undress), the horrors of blood: broken arms, mutilated trunks, and ripped-open faces etc. haunt me, and I feel I can hardly go through another day of it. But all that is soon forgotten when a call comes, and you see those bandaged soldiers waiting to be taken to hospital. I almost love my old car (it was in the battle of the Marne) and I often find myself talking to it as I pick my way in pitch darkness past carriage guns or reinforcements. If one does not quickly become an expert driver, one would have no car to drive, for it is almost impossible to see five yards ahead ...?"
