The Content of Our Caricature Rebecca Wanzo, 2020-04-21 Winner, 2021 Katherine Singer Kovács Book Award, given by the Society for Cinema and Media Studies Winner, 2021 Will Eisner Comic Industry Awards for Best Academic/Scholarly Work Honorable Mention, 2021 Harry Shaw and Katrina Hazzard-Donald Award for Outstanding Work in African-American Popular Culture Studies, given by the Popular Culture Association Winner, 2020 Charles Hatfield Book Prize, given by the Comic Studies Society
Traces the history of racial caricature and the ways that Black cartoonists have turned this visual grammar on its head
Revealing the long aesthetic tradition of African American cartoonists who have made use of racist caricature as a black diasporic art practice, Rebecca Wanzo demonstrates how these artists have resisted histories of visual imperialism and their legacies. Moving beyond binaries of positive and negative representation, many black cartoonists have used caricatures to criticize constructions of ideal citizenship in the United States, as well as the alienation of African Americans from such imaginaries. The Content of Our Caricature urges readers to recognize how the wide circulation of comic and cartoon art contributes to a common language of both national belonging and exclusion

in the United States. Historically, white artists have rendered white caricatures as virtuous representations of American identity, while their caricatures of African Americans are excluded from these kinds of idealized discourses. Employing a rich illustration program of color and black-and-white reproductions, Wanzo explores the works of artists such as Sam Milai, Larry Fuller, Richard "Grass" Green, Brumsic Brandon Jr., Jennifer Cruté, Aaron McGruder, Kyle Baker, Ollie Harrington, and George Herriman, all of whom negotiate and navigate this troublesome history of caricature. The Content of Our Caricature arrives at a gateway to understanding how a visual grammar of citizenship, and hence American identity itself, has been constructed.

Doing History Linda S. Levstik, Keith C. Barton, 2015-01-30 Now in its fifth edition, *Doing History* offers a unique perspective on teaching and learning history in the elementary and middle grades. Through case studies of teachers and students in diverse classrooms and from diverse backgrounds, it shows children engaging in authentic historical investigations, often in the context of an integrated social studies curriculum. The premise is that children can engage in valid forms of historical inquiry—collecting and analyzing data, examining the perspectives of people in the past, considering multiple interpretations, and creating evidence-based historical accounts. Grounded in contemporary sociocultural theory and research, the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature, art, writing, discussion, and debate. The authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory. *Doing History* emphasizes diversity of perspectives in two ways: readers encounter students from a variety of backgrounds, and students themselves look at history from multiple perspectives. It provides clear guidance in using multiple forms of

assessment to evaluate the specifically historical aspects of children's learning.

Our Bodies Are Selves Philip Hefner, 2015-12-31 Our Bodies Are Selves is a look at what it means to be human in a world where medical technology and emerging ethical insight force us to rethink the boundaries of humanity/spirit and man/machine. This book gives us a fresh look at how our expanding biological views of ourselves and our shared evolutionary history shows us a picture that may not always illumine who and where we are as Christians. Offering up Christian theological views of embodiment, the authors give everyday examples of lives of love, faith, and bodily realities that offer the potential to create new definitions of what it means to be a faith community in an increasingly technological age of medicine.

The World Wonderful and Book of the Times ... Charles McClellan Stevens,1910

Children's Books on the Big Screen Meghann Meeusen,2020-06-15 In Children's Books on the Big Screen, Meghann Meeusen goes beyond the traditional adaptation approach of comparing and contrasting the similarities of film and book versions of a text. By tracing a pattern across films for young viewers, Meeusen proposes that a consistent trend can be found in movies adapted from children's and young adult books: that representations of binaries such as male/female, self/other, and adult/child become more strongly contrasted and more diametrically opposed in the

film versions. The book describes this as binary polarization, suggesting that starker opposition between concepts leads to shifts in the messages that texts send, particularly when it comes to representations of gender, race, and childhood. After introducing why critics need a new way of thinking about children's adapted texts, *Children's Books on the Big Screen* uses middle-grade fantasy adaptations to explore the reason for binary polarization and looks at the results of polarized binaries in adolescent films and movies adapted from picture books. Meeusen also digs into instances when multiple films are adapted from a single source such as *The Wonderful Wizard of Oz* and ends with pragmatic classroom application, suggesting teachers might utilize this theory to help students think critically about movies created by the Walt Disney corporation. Drawing from numerous popular contemporary examples, *Children's Books on the Big Screen* posits a theory that can begin to explain what happens—and what is at stake—when children's and young adult books are made into movies.

Notes From a Big Country Bill Bryson,2012-05-15
When an old friend asked him to write a weekly dispatch from New Hampshire for the Mail on Sunday's Night and Day magazine, Bill Bryson firmly turned him down. So firm was he, in fact, that gathered here are nineteen months' worth of

his popular columns about the strangest of phenomena -- the American way of life. Whether discussing the dazzling efficiency of the garbage disposal unit, the mind-boggling plethora of methods by which to shop, the exoticism of having your groceries bagged for you, or the jaw-slackening direness of American TV, Bill Bryson brings his inimitable brand of bemused wit to bear on the world's richest and craziest country.
