10% Happier Dan Harris, 2014-03-11 #1 New York Times Bestseller REVISED WITH NEW MATERIAL Winner of the 2014 Living Now Book Award for Inspirational Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation. —Elizabeth Gilbert Nightline anchor Dan Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. 10% Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.

Fantasy Life Matthew Berry, 2014-07-01 Includes new chapters with small, easy-to-understand words. Bestselling words! Fantasy football, fantasy baseball, fantasy basketball, even fantasy sumo wrestling: the world of fantasy sports is huge, and still growing. Today, more than 35 million people in the United States and Canada spend hours upon hours each week on their fantasy sports teams. And as the Senior Fantasy Sports Analyst for ESPN, Matthew Berry is on the front lines of what has grown from a niche subculture into a national pastime. In his New York Times–bestselling *Fantasy Life*, Berry celebrates every aspect of the fantasy sports world. Brilliant trash talk. Unbelievable trophies. Insane draft day locations. Shake-your-head-in-disbelief punishments. Ingenious attempts at cheating. And surprisingly uplifting stories that remind us why we play these games in the first place. Written with the same award-winning style that has made Berry one of the most popular columnists on ESPN.com, *Fantasy Life* is a book for both hard-core fantasy players and people who have never played before. Between tales of love and hate, birth and death, tattoos and furry animal costumes, the White House Situation Room and a 126-pound golden pelican, Matthew chronicles his journey from a fourteen-year-old fantasy player to the face of fantasy sports for the largest sports media company in the world. Fantasy will save your life. Fantasy will set you free. And fantasy life is most definitely better than real life. You'll see.

Emergent Health Communication Scholarship from and about African American, Latino/a/x, and American Indian/Alaskan Native Peoples Angela Cooke-Jackson, 2024-02-15 This book presents research by African American, Latino/a/x, and Alaskan Indian/Native American (AI/AN) communication scholars. It highlights the importance of communication and the recognition of the unique experiences that impact how health information and health care are understood through diverse racial and cultural perspectives. Each chapter advances various divergent health issues and disparities pertinent to Black, Latino/a/x, and AI/AN communities, so that the powerful aspect of the human

condition to know and be known as it relates to the negotiation of health and communication can be clearly understood. Contributions to this volume unabashedly call for more equitable, community-centric, tribally-centered, and transparent scholarship on topics of health disparities, health care, marginality, medical mistrust, social justice, and media and new technology as it relates to people of color. The authors in this book are committed to research areas that invigorate and reimagine conversations among clinicians, public health professionals, classroom environments, and communities. This insightful volume seeks to shift the dominant culture paradigms and locate authors of color and their research experiences and scholarship as central to their work. It provides a space to amplify the voices of our collective lived experiences through the vehicle of rigorous engaged scholarship. The book was originally published as a special issue of Health Communication.
