Just 30s Angelo Van Boggart,2010-12-13 The 1930s might have been the greatest 10-year period in the history of the American automobile. Even in the face of a suffocating Depression, American cars continued to evolve with beautiful, streamlined designs that had never been seen before. General Motors began face lifting its vehicles with new styles for every model year. Hard-rubber rides were softened by balloon tires, impressive 16-cylinder engines began showing up under massive hoods and hydraulic brakes became the norm. The synchromesh transmission, independent suspension, heaters and radios made automotive journeys more comfortable than ever. It was truly a decade of advancement and achievement for U.S. car makers. In *Just '30s*, the publisher of *Old Cars Weekly* and *OldCarsReport.com* Price Guide celebrates this fabulous decade with a look back at the cars, and car companies, that gave us such great memories.

These are the automobiles that populate the fairways and manicured lawns of the world's greatest car shows in alluring locales like Pebble Beach, California, and Amelia Island, Florida. These are the cars that bring a hush to the hall when they roll across the blocks at auctions around the world. These are the cars that fill the world's greatest collections, like those of Ralph Lauren, Mark Knopfler, and various members of royal families. These are the cars from history's premiere automakers: hallowed names like Packard, Duesenberg, Stutz, Bugatti, Mercedes-Benz, Cord, and others's six-figure and million-dollar machines that thrill Barrett-Jackson audiences and drive bidders to frenzy. *Art of the Classic Car* features the stunning studio photography of Peter Harholdt (*Art of the Hot Rod*, *Art of the Muscle Car*), lavished on the most significant automobiles from the classic era: the 1910s to early 1940s. Classic American Cars Charlie Morgan,2020-07-28 As the 19th century morphed into the 20th, the automobile was still in its infancy, yet more and more manufacturers were entering the burgeoning market. The first National Automobile Show was held in New York City's Madison Square in 1900, with 51 exhibitors showing off their wares to almost 50,000 visitors. Many of these manufacturers dropped by the wayside or were merged into other companies so that by the end of the 1920s the industry was dominated by the Big Three of Chrysler, Ford, and General Motors. The vehicle that had the biggest impact was the Ford Model T (which arrived in 1908 and more than 15 million had been sold by the time production ceased in 1927), but many other American classics are covered in this book: legends such as the Ford Mustang and Thunderbird, the Chevrolet Bel Air and Corvette, Cadillac's De Ville and Eldorado, along with names of a bygone era such as Packard, Studebaker, and the unrivaled opulence of Duesenberg.

Classic American Cars Craig Cheetham,2017-11-14 From the turn of the twentieth century through to the present day, the book traces the development of the automobile, reflecting the social change it both brought, and reflected.

1969 Plymouth Road Runner Wes Eisenschenk,2017-04-17 The late 1960s was an interesting time in the automotive world. Muscle cars, as we now know them, were well established, with all manufacturers joining the horsepower race. You could walk into the showroom for any brand from any manufacturer and find a variety of performance models. Competition being what it is, the manufacturers were looking for ways other than winning races to lure buyers into the showrooms and entice them to buy their products. Some tried to accomplish this with fancy marketing schemes and graphic paint packages and decals, and for the first time, some tried to win over buyers with price. Volume No. 5 of *CarTech's In Detail* series covers the 1969 Plymouth Road Runner. It was an interesting marriage of a car that attempted to appeal to potential buyers with a low cost, light weight, and potent bare-bones package. It also added a brilliant marketing strategy of partnering with a famous studio and a popular cartoon character. The end result was a wildly popular, big-block, affordable muscle car with great graphics and a cool beep-beep horn. The public loved it. All *In Detail* Series books include an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, and an in-depth study of all hardware and available options, as well as an examination of where the car is on the market today. Also included is an appendix of paint and option codes, VIN and build-tag decoders, as well as production numbers.

Top Muscle Darwin Holmstrom,2014-05-15 A muscle-car book unlike any other, featuring the rarest vehicles on Earth. In the 1960s, something explosive happened in the automotive world: the United States' evolving V-8 engine technology was met by 75 million baby boomers, all with an

extreme need for speed and all entering the auto market at the same time. The result was the golden era of factory muscle cars, brutish machines that were unlike any the world had ever seen or will likely ever see again—they truly embodied the “sex, drugs, and rock-and-roll” generation. But for some, even a factory muscle car wasn’t enough. Detroit automakers responded, secretly building outrageous muscle cars behind their superiors’ backs and ultimately creating some of the most powerful vehicles ever sold to the public. In Top Muscle, author Darwin Holmstrom chronicles the ultimate collection of these super-rare high-performance beasts. Captured by the lens of renowned auto photographer Randy Leffingwell, these cars represent the absolute zenith of the most valuable collector cars in existence, with fascinating histories that illuminate the wildest age in American automotive history. The Brothers Collection features over 600 cars, including such rarities as:- The very first Chevelle Z16 ever built, which was also the very first muscle car that Chevrolet ever built- The very first Chevelle SS454 LS6 off the assembly line- The only 1969 Mach I Mustang ever built with a factory sunroof- The very first A12 (440-6) Roadrunner ever built- The very last Hemi ‘Cuda convertible Plymouth producedvOne of the eight convertible Trans Am Ram Air III Firebirds that Pontiac built in 1969

More than 250 manufacturers and hundreds of individual models trace the evolution of the American automobile, from the millions of Model Ts that rolled off Ford's assembly line through the art deco streamliners of the '30s, to the tail-finned land yachts of the '50s and muscle cars of the '60s and '70s up to the early SUVs of the '90s.
