**The American Dream** Jim Cullen,2004 The first narrative history traces the thread that binds the dreams and aspirations of most Americans together, exploring shared history and sacred texts--the Constitution and the Declaration of Independence--in search of the origins of these ideas.

Barack Obama and the American Dream as Depicted in Some of His Famous Speeches David Tebbe,2012-05-18 Pre-University Paper from the year 2012 in the subject American Studies - Culture and Applied Geography, grade: 1,5, language: English, abstract: In 2009 Barack Obama became the 44th President of the United States. He fascinated millions of people all over the world and even in Germany people recited his motto Yes we can. He inspired a nation. Obama and his speeches were so electrifying that a lot of people spoke of a national obsession with Senator Barack Obama. I wondered how he managed to fill the people with enthusiasm. He was always speaking about the American Dream. So I asked myself: What is this American Dream; which of its values and ideas are so fascinating that they inspired the nation, and how are they influenced by Obama using them in his

speeches? Does Obama just use them for tactical reasons because they are so popular? In order to answer these questions it is at first necessary to define the term American Dream and to understand the history and meaning of its ideas and values. Then I want to look at Obama's biography, if there are any hints that show his interest in the American Dream and what influence does it have on his interpretation of the American Dream. For the analysis of his interpretation of the American Dream I have chosen a selection of Obama's most striking speeches up to April 2009 . These speeches show how he managed to inspire many citizens. Because I want to illustrate all of the six fundamental concepts of the American Dream I scanned the whole collection for striking phrases exemplifying his use of these ideas. They will show his specific interpretation of the American Dream.

**Behold, America** Sarah Churchwell, 2018-10-09 A Smithsonian Magazine Best History Book of 2018 The unknown history of two ideas crucial to the struggle over what America stands for In *Behold, America*, Sarah Churchwell offers a surprising account of twentieth-century Americans' fierce battle for the nation's soul. It follows the stories of two phrases--the American dream and America First--that

once embodied opposing visions for America. Starting as a Republican motto before becoming a hugely influential isolationist slogan during World War I, America First was always closely linked with authoritarianism and white supremacy. The American dream, meanwhile, initially represented a broad vision of democratic and economic equality. Churchwell traces these notions through the 1920s boom, the Depression, and the rise of fascism at home and abroad, laying bare the persistent appeal of demagoguery in America and showing us how it was resisted. At a time when many ask what America's future holds, *Behold, America* is a revelatory, unvarnished portrait of where we have been.

On August 28, 1963, Dr. Martin Luther King Jr. stood before thousands of Americans who had gathered at the Lincoln Memorial in Washington, D.C. in the name of civil rights. Including the immortal words, I have a dream, Dr. King's keynote speech would energize a movement and change the course of history. Essential Documents of American History Bob Blaisdell, 2016-05-10 This compact volume offers a broad selection of the most important documents in American history: the Nineteenth Amendment to the Constitution, which ratified women's right to vote; the Supreme Court's decision on Brown v. Board of Education; and the Heroism and Horror portion of the 9/11 Commission Report; as well as presidential speeches, Acts and Declarations of Congress, essays, letters, and much more. The compilation of more than 70 documents opens with nineteenth-century speeches by Red Cloud (The Great Spirit Made Us Both) and Chief Joseph (I Will Fight No More Forever) and concludes with the election night speech by Senator Barack Obama on November 4, 2008. Many of the selections recapture the voices of great Americans, from Martin Luther King's I Have a Dream speech to Franklin D. Roosevelt's 1941 The Four Freedoms State of the Union Message, the Apollo 11 astronaut narratives from the moon, and addresses by Susan B. Anthony, John Muir, Margaret Sanger, William Jennings Bryan, and many others. Brief introductions to each document place the works in historical context.

*Pursuing the American Dream* Calvin C. Jillson, 2004 Marked by continuity, renewal, and expansion, the image of the Dream, Jillson contends, has been remarkably constant since well before the American Revolution - an image of a nation offering a better chance for prosperity than any other. His book reveals how that Dream has motivated our nation's leaders and common citizens to move, sometimes grudgingly, toward a more open, diverse, and genuinely competitive society.

**President Wilson's Great Speeches and Other History Making Documents** United States. President (1913-1921 : Wilson), Woodrow Wilson, 1917

The Evolution of the American Dream Amber Clark, Bob Skandalaris, 2011-05-05 The American Dream has been a driving force in the development and success of our nation and a key motivating

factor in all that we have achieved, individually and collectively. But what is the American Dream, exactly, and how has it changed over the course of America's history? This is the question that Bob Skandalaris and Amber Clark explore in their latest book, *The Evolution of the American Dream*. From the dream of land and a new start in the colonial era, to the dream of political and religious freedom during the Revolutionary War, to the dream of living a life of self-reliance on the frontier or amassing a vast fortune as a captain of industry in the nineteenth century, the American Dream has constantly evolved. By the early twentieth century, it was living the good life; then during the Great Depression it took a sharp swing toward security and ensuring the comforts of a middle-class lifestyle rather than chasing a better one. As prosperity returned after World War II, the dream morphed into a house in the suburbs and a college education for one's children, and then into a vision of a Great Society where government could cure all social ills and ensure constant upward mobility. That version of the American Dream, however, cannot last. In an era of global capitalism, the American Dream has now become the Chinese Dream, the Indian Dream, and the World Dream. People across the globe are not

only taking our jobs, but also appropriating the dream itself-and the question is, what will that do to the American Dream for Americans? Will it force us to reinvent and redefine the dream once more, as we have done so often in the past? Or will the American Dream disappear from our shores entirely? Is there still an authentic, achievable version of the American Dream today?

*American Heritage Book of Great American Speeches for Young People* Suzanne

McIntire, 2001-08-03 The history of the United States has been characterized by fervent idealism, intense struggle, and radical change. And for every critical, defining moment in American history, there were those whose impassioned voices rang out, clear and true, and whose words compelled the minds and hearts of all who heard them. When Patrick Henry declared, Give me liberty, or give me death!, when Martin Luther King Jr. said, I have a dream, Americans listened and were profoundly affected. These speeches stand today as testaments to this great nation made up of individuals with bold ideas and unshakeable convictions. The American Heritage Book of Great American Speeches for Young People includes over 100 speeches by founding fathers, patriots, Native American and African

American leaders, abolitionists, women's suffrage and labor activists, writers, athletes, and others from all walks of life, featuring inspiring and unforgettable speeches by such notable speakers as: Patrick Henry \* Thomas Jefferson \* Tecumseh \* Frederick Douglass \* Sojourner Truth \* Abraham Lincoln \* Susan B. Anthony \* Mother Jones \* Lou Gehrig \* Franklin D. Roosevelt \* Albert Einstein \* Pearl S. Buck \* Langston Hughes \* John F. Kennedy \* Martin Luther King Jr. These are the voices that shaped our history. They are powerful, moving, and, above all else, uniquely American.

**Awakening from the American Dream** Master Charles Cannon, Will Wilkinson, 2014-03-11

*Awakening From The American Dream... From Crisis To Consciousness...* is an expose' of the American Dream as illusory enculturation. It is a call to awakening to true reality in which happiness is not something to be pursued, but rather innately experienced as one's birthright. The book invites readers to wake up from the American Dream, rather than trying to make it work or creating a new dream. A dream is a dream... it can never be reality. Part One focuses on the initial stages of awakening, beginning to question Dream beliefs, like the pursuit of happiness (if you're chasing it you

don't have it!). Part Two uses the Socratic Method to question popular myths about life in America, relative to twelve specific areas of life (like the economy, health, marriage, religion, etc.). Readers are invited to challenge their own convictions and open to new possibilities. Part Three is about what it is like to live wide-awake, taking personal responsibility for the reality you create and being a leader by example for others.

**Racial Imagination and the American Dream** Charles P. Henry, 2023-08-25 Although the phrase the American Dream dates from the 1930s, the concept or idea of the American Dream is as old as the country. The values proclaimed in the Declaration of Independence and reaffirmed (and extended) in the Gettysburg Address have been continuously promoted by every American president. Moreover, they form the basis of our national collective narrative as expressed through both elite and popular culture. The American Dream is intrinsically tied to the American Creed and American Exceptionalism. It is the foundation of our national identity, the glue that holds together our individual aspirations. Yet until the mid-twentieth century, the American Dream excluded African Americans. We as a nation—as

an imagined community—could not imagine an integrated, multiracial society with Blacks and Whites living together as equals. By examining the lives of the only three African American Nobel Peace Prize winners, we can see how their lives were shaped by the American Dream, and how their success was used to deny the structural racism that prevented others from achieving the American Dream. Ralph Bunche as a role model of academic and technical expertise, Martin Luther King, Jr., as a model race leader, and Barack Obama as a political leader provide a window on the changing meaning of the American Dream. In conclusion, Haiti is presented as a failed example of an attempt to export the American Dream in the form of American Exceptionalism, and racial reparations are reimagined as a radical democratic project aimed at true global integration and justice.
