Mario Buatta Mario Buatta, Emily Evans Eerdmans, 2013-10-08 The eagerly anticipated first monograph to celebrate the fifty-years-and-counting career of decorating legend Mario Buatta. Influenced by the understated elegance of Colefax and Fowler and the doyenne of exuberant American decor, Sister Parish, Buatta reinvented the English Country House style stateside for clients such as Henry Ford II, Barbara Walters, Malcolm Forbes, and Mariah Carey, and for Blair House, the President's guest quarters. The designer is acclaimed for his sumptuous rooms that layer fine antiques, confectionary curtains, and sublime colorations, creating an atmosphere of lived-in opulence. This lavishly illustrated survey—filled with images taken for the foremost shelter magazines as well as many unpublished photographs from the designer's own archive—closely follows Buatta's highly documented career from his professional start in the 1950s working for department store B. Altman & Co. and Elisabeth Draper, Inc. to his most recent projects, which include some of the country's finest residences. Buatta shares exclusive insights into his process, his own rules for decorating, and personal stories of his adventures along the way.

Shaping the American Interior Paula Lupkin, Penny Sparke, 2018-05-11 Bringing together 12 original essays, *Shaping the American Interior* maps out, for the first time, the development and definition of the field of interiors in the United States in the period from 1870 until 1960. Its interdisciplinary approach encompasses a broad range of people, contexts, and practices, revealing the design of the interior as a collaborative modern enterprise comprising art, design, manufacture, commerce, and identity construction. Rooted in the expansion of mass production and consumption in the last years of the nineteenth century, new and diverse structures came to define the field and provide formal and informal contexts for design work. Intertwined with, but distinct from, architecture and merchandising, interiors encompassed a diffuse range of individuals, institutions, and organizations engaged in the definition of identity, the development of expertise, and the promotion of consumption. This volume investigates the fluid pre-history of the American profession of interior design, charting attempts to commoditize taste, shape modern conceptions of gender and professionalism, define expertise and authority through principles and standards, marry art with industry and commerce, and shape mass culture in the United States.

American Interior Gruff Rhys, 2015-04-02 *American Interior* is a psychedelic historical travelogue from Welsh pop legend Gruff Rhys. **LONGLISTED FOR THE GUARDIAN FIRST BOOK AWARD SHORTLISTED FOR THE GORDON BURN PRIZE** In 1792, John Evans, a twenty-two-year-old farmhand

from Snowdonia, Wales, travelled to America to discover whether there was indeed, as widely believed, a tribe of Welsh-speaking native Americans still walking the great plains. In 2012, Gruff Rhys set out on an 'investigative concert tour' in the footsteps of John Evans, with concerts in New Orleans, Baltimore, Philadelphia, Pittsburgh, Cincinnati, St Louis, North Dakota and more. American Interior is the story of these journeys. It is also an exploration of how wild fantasies interact with hard history and how myth-making can inspire humans to partake in crazy, vain pursuits of glory, including exploration, war and the creative arts. 'Brilliantly life-affirming . . . highlights a world of wonder' Guardian 'A joyous and poignant celebration of the mythical and the real' Caught by the River 'Charming and entertainingly written' Independent GRUFF RHYS is known around the world for his work as a solo artist as well as singer and songwriter with Super Furry Animals and Neon Neon, and for his collaborations with Gorillaz, Mogwai, Dangermouse and Sparklehorse amongst others. The latest album by Neon Neon, Praxis Makes Perfect, based on the life of radical Italian publisher Giangiacomo Feltrinelli, was recently performed as an immersive live concert with National Theatre Wales.

Sister Parish Apple Parish Bartlett, Susan Bartlett Crater, 2012-11-15 This “fast-moving, entertaining biography” of the woman behind the Parish Hadley interior design firm is “like eavesdropping on a lively society lunch” (*Publishers Weekly*). A *New York Times* Notable Book *Sister*—as she was called by family and friends—was born Dorothy May Kinnicutt into a patrician New York family in 1910, and spent her privileged early life at the right schools, yacht clubs, and coming-out parties. Compelled to work during the lean years of the Depression, she combined her innate design ability with her upper-echelon social connections to create an extraordinarily successful interior decorating business. The Parish-Hadley firm’s list of clients reads like an American *Who’s Who*, including Astors, Paleys, Rockefellers, and Whitneys—and she helped Jacqueline Kennedy transform the White House from a fusty hodge-podge into a historically authentic symbol of American elegance. Cozy, airy, colorful but understated, her style came to be known as “American country,” and its influence continues to this day. Compiled by her daughter and granddaughter from Sister’s own unpublished memoirs, as well as from hundreds of interviews with family members, friends, staff, world-renowned interior designers (Mark Hampton, Mario Buatta, Keith Irvine, Bunny Williams, and her longtime partner Albert Hadley, among many others), and clients including Annette de la Renta, Glenn Bernbaum, and Mrs. Thomas Watson, *Sister Parish* takes us into the houses—and lives—of some of the most fascinating and famous people of this inimitable woman’s time. Fully updated, the revised edition features a new foreword by Albert Hadley and an appreciation by Bunny Williams, who began her career at Parish-Hadley. “Selections from Mrs. Parish’s own rather wonderful, often moving, reminiscences, intercut with observations from her family, employees, clients and friends.” —*The New York Times Book Review* “Sister’s delightfully self-deprecating humor illuminates the biography throughout.” —*Kirkus Reviews* Includes photographs

American Modern Thomas O'Brien, 2018-06-05 "One of those designers whose interior and furniture designs look discovered, not created . . . both comfortable and exquisite, calm and eclectic." —Apartment Therapy Designer and merchant, collector and tastemaker, Thomas O'Brien has made a career of translating cool notions of modernism into an easy and generous array of modern styles that anyone can attain. Now he introduces readers to a range of those styles—from casual to formal, vintage to urban—alongside stunning photography and charming design stories. O'Brien carefully describes the design process of his chosen projects, including a downtown New York City loft, a traditional Connecticut estate, and a converted schoolhouse in eastern Long Island. Each home explores a view on the modern design spectrum he has created, as well as the individual choices that make the design unique and its mix essentially American. He explains not only what was at work to create a given style, but how readers can import those practices to their own homes and personal design sensibilities. Important design principles such as architectural authenticity, color relationships, correctness of scale, and informed collecting are threaded through a practical narrative that reads like a master class in interior design. *American Modern* is an inspiring design volume that will redefine the way readers think about modern interiors. "O'Brien carefully describes the design process of his chosen projects. Beautiful imagery and a unique layout describe his approach to design in a new and innovative way." —LIFEMSTYLE "It's like getting a glimpse into the studio paintings of a great master . . . I especially love how all of his spaces feel so gender neutral, the perfect balance." —Cottage Farm

Mid-Century Modern Interiors Lucinda Kavaros, 2019-01-24 *Mid-Century Modern Interiors* explores the history of interior design during arguably its most iconic and influential period. The 1930s to the 1960s in the United States was a key moment for interior design. It not only saw the emergence of some of interior design's most globally-important designers, it also saw the field of interior design emerge at last as a profession in its own right. Through a series of detailed case studies this book introduces the key practitioners of the period – world-renowned designers including Ray and

Charles Eames, Richard Neutra, and George Nelson – and examines how they developed new approaches by applying systematic and rational principles to the creation of interior spaces. It takes us into the mind of the designer to show how they each used interior design to express their varied theoretical interests, and reveals how the principles they developed have become embodied in the way interior design is practiced today. This focus on unearthing the underlying ideas and concepts behind their designs rather than on the finished results creates a richer, more conceptual understanding of this pivotal period in modernist design history. With an extended introduction setting the case studies within the broader context of twentieth-century design and architectural history, this book provides both an introduction and an in-depth analysis for students and scholars of interior design, architecture and design history.

Indoor America Andrea Vesentini, 2018-11-27 Cars, single-family houses, fallout shelters, air-conditioned malls—these are only some of the many interiors making up the landscape of American suburbia. *Indoor America* explores the history of suburbanization through the emergence of such spaces in the postwar years, examining their design, use, and representation. By drawing on a wealth of examples ranging from the built environment to popular culture and film, Andrea Vesentini shows how suburban interiors were devised as a continuous cultural landscape of interconnected and self-sufficient escape capsules. The relocation of most everyday practices into indoor spaces has often been overlooked by suburban historiography; *Indoor America* uncovers this latent history and contrasts it with the dominant reading of suburbanization as pursuit of open space. Americans did not just flee the city

by getting out of it—they did so also by getting inside. Vesentini chronicles this inner-directed flight by describing three separate stages. The encapsulation of the automobile fostered the nuclear segregation of the family from the social fabric and served as a blueprint for all other interiors. Introverted design increasingly turned the focus of the house inward. Finally, through interiorization, the exterior was incorporated into the all-encompassing interior landscape of enclosed malls and projects for indoor cities. In a journey that features tailfin cars and World's Fair model homes, Richard Neutra's glass walls and sitcom picture windows, Victor Gruen's Southdale Center and the Minnesota Experimental City, Indoor America takes the reader into the heart and viscera of America's urban sprawl.

Women of Design Beverly Russell, 1992 In the United States, the practice of interior design has been considered women's territory, regarded by the majority of architects, most of whom are male, as a lesser discipline. In the past 150 years, however, designing women have made their mark, first as domestic decorators and since the late 1940s as interior designers responsible for the planning, furnishing, and execution of the interior architecture of multimillion dollar corporate, financial, and other important environments for thousands of people. *Women of Design* profiles thirty-two of these working women: the first generation of American women to dominate the world of commercial interior design, a multibillion dollar industry in the United States. They have overcome gender discrimination to establish themselves successfully as heads of their own independent practices or as valued principals in some of the largest interior design firms in the country. They have excelled as creators of spaces and products and as business people, serving as models for and opening the doors to a new generation of American women interior designers. Their designs for a variety of projects, ranging from retail, office, commercial, hotel, and restaurant environments, as well as residential gems, stand as proof of the immense pool of talented women who have emerged as leaders in a particular industry. Some of those included have also entered the world of design education, serving as deans and teachers at prominent design schools, molding and training future talents. These remarkable women designers from every corner of the nation offer insights into their struggle to achieve success, revealing their personal and professional philosophies. Photographs of some of their finest achievements are included in this colorful and groundbreaking volume that serves as a testament to the enormous achievements American women have made in this field during the past century.--BOOK JACKET.
