America on Film Kenneth M. Cameron, 1997 The challenge of making the great American historical film has attracted some of our finest talents: D. W. Griffith, John Ford, Robert Altman, Francis Ford Coppola, Martin Scorsese, Oliver Stone, Spike Lee. From the earliest flickering images of *The Spirit of 76* (1905) through Nixon, *America on Film* subtly and entertainingly examines Hollywood's filming of American history, including biographies. Among the many films considered, some omissions seem surprising: *The Birth of a Nation* and *Gone with the Wind*, for example, since they are based on fiction. But *The Iron Horse*, *The Beginning or the End?*, the Jackie Robinson Story, *Patton*, *Quiz Show*, *Lenny*, *Malcolm X*, *Apollo 13*, and literally hundreds of others are all here. Through these many movies, we see the interrelationships between image and substance, illusion and reality, racism and democracy, and cynicism and idealism, which form America's unique national identity.

The One Hundred Years of Lenni and Margot Marianne Cronin, 2021-06-01 "A beautiful debut, funny, tender, and animated by a willingness to confront life's obstacles and find a way to survive. . . . It celebrates friendship, finds meaning in difficulty and lets the reader explore dark places while always allowing for the possibility of light. Lenni and Margot are fine companions for all our springtime journeys."—Harper's Bazaar, UK A charming, fiercely alive and disarmingly funny debut novel in the vein of John Green, Rachel Joyce, and Jojo Moyes—a brave testament to the power of living each day to the fullest, a tribute to the stories that we live, and a reminder of our unlimited capacity for friendship and love. An extraordinary friendship. A lifetime of stories. Seventeen-year-old Lenni Pettersson lives on the Terminal Ward at the Glasgow Princess Royal Hospital. Though the teenager has been told she's dying, she still has plenty of living to do. Joining the hospital's arts and crafts class, she meets the magnificent Margot, an 83-year-old, purple-pajama-wearing, fruitcake-eating rebel, who transforms Lenni in ways she never imagined. As their friendship blooms, a world of stories opens for these unlikely companions who, between them, have been alive for one hundred years. Though their days are dwindling, both are determined to leave their mark on the world. With the help of Lenni's doting palliative care nurse and Father Arthur, the hospital's patient chaplain, Lenni and Margot devise a plan to create one hundred paintings showcasing the stories of the century they have lived—stories of love and loss, of courage and kindness, of unexpected tenderness and pure joy. Though the end is near, life isn't quite done with these unforgettable women just yet. Delightfully funny and bittersweet, heartbreaking yet ultimately uplifting, *The One Hundred Years of Lenni and Margot* reminds us of the preciousness of life as it considers the legacy we choose to leave, how we influence the lives of others even after we're gone, and the wonder of a friendship that transcends time.

The Next 100 Years George Friedman, 2009-01-27 "Conventional analysis suffers from a profound failure of imagination. It imagines passing clouds to be permanent and is blind to powerful, long-term shifts taking place in full view of the world." —George Friedman In his long-awaited and provocative new book, George Friedman turns his eye on the future—offering a lucid, highly readable forecast of the changes we can expect around the world during the twenty-first century. He explains where and why future wars will erupt (and how they will be fought), which nations will gain and lose economic and political power, and how new technologies and cultural trends will alter the way we live in the new century. *The Next 100 Years* draws on a fascinating exploration of history and geopolitical patterns dating back hundreds of years. Friedman shows that we are now, for the first time in half a millennium, at the dawn of a new era—with changes in store, including: • The U.S.-Jihadist war will conclude—replaced by a second full-blown cold war with Russia. • China will undergo a major extended internal crisis, and Mexico will emerge as an important world power. • A new global war will unfold toward the middle of the century between the United States and an unexpected coalition from Eastern Europe, Eurasia, and the Far East;

but armies will be much smaller and wars will be less deadly. • Technology will focus on space—both for major military uses and for a dramatic new energy resource that will have radical environmental implications. • The United States will experience a Golden Age in the second half of the century. Written with the keen insight and thoughtful analysis that has made George Friedman a renowned expert in geopolitics and forecasting, *The Next 100 Years* presents a fascinating picture of what lies ahead. Those in Generation Z are among our youngest consumers, students, colleagues, constituents, voters, and neighbors. Drawing from an unprecedented number of studies with higher education research institutions, market research firms such as Pew and Census, other generational researchers and industry leaders, this is the authoritative defining work on Generation Z that market researchers, consumer behaviour specialists, and employers sorely need – and it is a fascinating read for anyone interested in the sociology of generations.
