American Roulette Richard Marcus,2013-09-10 In American Roulette, Richard Marcus tells his never-before-heard story, of ripping off casinos. The book follows Marcus, along with several of the world's great professional casino cheaters, as he travels from Las Vegas to London and Monte Carlo, pilfering large sums of money from casinos by performing sleight of hand magic tricks with gaming chips. As skilled cheaters, they back up their moves with psychological setups to convince pit bosses that they're watching legitimate high rollers getting lucky, while in fact they're being ripped off blind. With the exploding growth of casino gambling, heightened by Indian reservation and riverboat expansion, more and more elaborate casino cheaters are illegally assaulting the green-felt, getting rich off of novice casino personnel. Richard Marcus's insider story is a window into the hidden world of intriguing personalities and tense situations he encounters as a member of expert casino-cheating teams who use their wits to turn the odds upside down and earn millions. American Roulette is a fascinating story not only for those who occasionally casino-gamble, but for everyone with a little larceny in their heart.

*American Roulette* Sarah Beth Kaufman, 2020-05-19 As the death penalty clings to life in many states and dies off in others, this first-of-its-kind ethnography takes readers inside capital trials across the United States. Sarah Beth Kaufman draws on years of ethnographic and documentary research, including hundreds of hours of courtroom observation in seven states, interviews with participants, and analyses of newspaper coverage to reveal how the American justice system decides who deserves the most extreme punishment. The “super due process” accorded capital sentencing by the United States Supreme Court is the system’s best attempt at individuated sentencing. Resources not seen in most other parts of the criminal justice system, such as jurors and psychological experts, are required in capital trials, yet even these cannot create the conditions of morality or justice. Kaufman demonstrates that capital trials ultimately depend on performance and politics, resulting in the enactment of deep biases and utter capriciousness. *American Roulette* contends that the liberal, democratic ideals of criminal punishment cannot be enacted in the current criminal justice system, even under the most controlled circumstances.

**The Roulette Supernova System (RSS15)** Stephen Tabone, 2020-01-22 The Roulette Supernova System (RSS15) / Flat Betting 15 Numbers into Profit - For use on European or American Roulette Wheels / The automatized skill of The Roulette Supernova System RSS15 is capable of outperforming the cleverest of computer programmes and the seasoned professional roulette bettor. It is the ultimate roulette predicting system. For use on European or American Roulette Wheels. / I am very excited to write about my new Roulette System. If you are looking for a roulette system that actually works, i.e. one that is able to make a profit during a Roulette session (certain amount of games/spins) most of the time, then look no further. This is it! The Roulette Supernova System (RSS15) works on single, double and triple zero 'live' wheels. When I write live, I mean human dealer-initiated games that are truly random and where games are conducted in regulated casinos, not online, non-random algorithms or manipulated air wheels. After developing and testing RSS15, I discovered an anomaly. Now, when I observe live roulette wheels in casinos, I began to see roulette as all very easy and predictable. In using RSS15, I now consider a wheel as being small and the games in motion not so complex in terms of being able to generate profits. For more than 20 years I have studied bet selection options on the table layout in relation to previous outcomes. I have observed sequences of outcomes and considered the probabilities of one and more numbers appearing in any one session of play pertaining to a limited number of games. I have analysed many hundreds of thousands of live and random computer-generated outcomes. I have played and watched countless players bet in various casinos, considering why we chose the number/s we do and on what basis we believe those number/s have a chance of occurring moreover in most instances before the dealer has even spun the ball. No doubt you would have realized too that Roulette is a hard game to beat. I thought so too until I started to look at what drives the game. And by this, I mean the dealer, ball, wheel relationship. You see most people who play Roulette focus on their numbers, their lucky numbers, or where the dolly marker is placed on the table betting layout from spin to spin or go against or going with streaks of even chances or any of the 2-to-1 pay-out betting option odds. On the whole players are struggling to maintain not only a profitable advantage but are fighting to keep their bankrolls alive. It is like trying to keep a patient alive on life support while the vampire dealers, the casino bosses and demon house edge conspire to suck the blood from the poor souls. There are two main elements to winning when playing Roulette. The first is knowing when to stop and the second is knowing how to get to the profitable side of stopping. To know how to achieve both in order to win as an Advantage Player and Pro Roulette player, you need a proven Roulette System that will deliver. One that is able to hold its own on 'any live Roulette wheel' and you will need to learn when you should take profits and end a session and why this is important. I cover all these aspects in this book as I explain what my roulette system is, how and why it works and how to apply it in practice.
