The Decline and Fall of the American Empire Anthony V. Bouza,2013-11-11 No segment of American society is spared from Bouza's critical gaze in exposing the systemic excesses that are poisoning the heart of our nation. He spotlights the white-collar criminals, who quietly take pennies from each of us to create their own pots of gold. He unmaskes the politicians, on both ends of the political spectrum, whose arrogance and hypocrisy speak volumes. He demonstrates how organized crime, while catering to our sinful, illicit cravings, affects our daily lives from buying a fish dinner to building a house. He uncloaks the televangelists and other fraudulent religious leaders who have transformed the ministry from a shepherd's leading the flock into a huckster's fleecing the gullible. Moreover, he reveals the abuses that have permeated the medical and other helping professions

Around the World In A Wheel Chair John P. Roach Jr.,2007-12 This is a true story about a beautiful brave woman with a serious disability affecting her balance and mobility who became determined to not let her recently discovered disability change her goals or the course and direction of her life. Around the World in Wheelchair is for every traveler, not just the disabled. The world wide observations combined with historical facts and never ending humor make this a valuable guidebook

for any traveler. The author pushed this wheelchair around the world changing what could have been a couch potato scenario for the two of them into an unforgettable adventure of a lifetime. See Other Books By This Author. Click here to return to www.JPRoach.org

A Comparative Perspective on Major Social Problems Rita James Simon,2001 In this volume Rita J. Simon brings together a clearly organized and accessible collection of scholarly essays on the world's most pressing social problems. Each of the contributors address a specific issue--gambling, prisons, alcohol, AIDS, rape, prisons, juvenile justice, abortion, and guns--by examining the institutions and laws different societies have developed for containing them. Each of the countries selected represents a range of variations in political, economic, religious/ethical/social orientations and characteristics. This comparative and interdisciplinary world perspective makes Simon's edited volume uniquely relevant to political scientists, sociologists, criminologists, psychologists and the broader audience of scholars and laypeople interested in the study of contemporary social problems.
